Dissenters' Right of Appraisal

Any stockholder of the Corporation may exercise his appraisal right against the proposed actions which qualify as instances giving rise to the exercise of such right pursuant to and subject to and subject to the compliance with the requirements and procedure set forth under Title X of the Corporation Code of the Philippines.

There are no matters to be acted upon by the stockholders at the Annual Meeting of the Stockholders to be held on June 28, 2017 which would require the exercise of the appraisal right.

Interest of Certain Persons in or Opposition to Matters to be acted upon

None of the following persons have any substantial interest, direct or indirect, in any matter to be acted upon other than election to office:

1. Directors or officers of the Corporation at any time since the beginning of the last fiscal year;
2. Nominees for election as directors of the Corporation;
3. Associate of any of the foregoing persons.

Voting Securities and Principal Holders Thereof

(a) The Corporation has 4,093,830,685 outstanding shares as of March 31, 2017. Every stockholder shall be entitled to one vote for each share of stock held as of the established record date.

(b) All stockholders of record as of May 24, 2017 are entitled to notice and to vote at the Corporation's Annual Meeting of the Stockholders.

(c) Article VII, Section 8 of the By-Laws of the Corporation states that for purposes of determining the stockholders entitled to notice of, or to vote or be voted at any meeting of stockholders or any adjournments thereof, or entitled to receive payment of any dividends or other distribution or allotment of any rights, or for the purpose of any other lawful action, or for making any other proper determination of stockholders, the Board of Directors may provide that the stock and transfer books be closed for a stated period, which shall not be more than sixty (60) days nor less than thirty (30) days before the date of such meeting. In lieu of

closing the stock and transfer books, the Board of Directors may fix in advance a date as the record date for any such determination of stockholders. A determination of stockholders of record entitled to notice of or to vote or be voted at a meeting of stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for the adjourned meeting.

Election of Directors

Article II, Section 1 (a) of the By-Laws provides that the directors of the Corporation shall be elected by plurality vote at the annual meeting of the stockholders for the year at which a quorum is present. At each election for directors, every stockholder shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected, or to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by the number of his shares shall equal, or by distributing such votes as the same principle among any number of candidates.

The report attached to this SEC Form 20-IS captioned “2016 Annual Report” is the management report to stockholders required under SRC Rule 20 to accompany the SEC Form 20-IS and is hereinafter referred to as the “Management Report”.

April 25, 2017

Resetting of the annual meeting of the stockholders of the Corporation to June 28, 2017 and setting the record date of May 24, 2017 for the said meeting.

Voting Procedures

The vote required for approval or election:

Pursuant to Article VII, Section 3 of the By-Laws of the Corporation, no stockholders' meeting shall be competent to decide any matter or transact any business, unless a majority of the outstanding capital stock is presented or represented thereat, except in those cases in which the Corporation law requires the affirmative vote of a greater proportion.

As provided under Article VII, Section 7 paragraph 2 of the By-Laws of the Corporation, a quorum at any meeting of the stockholders shall consist of a majority of the subscribed capital stock of the Corporation represented in person or by proxy, and a majority of such quorum shall decide any question that may come before the meeting, save and except in those several matters in which the laws of the Philippines require the affirmative vote of a greater proportion.

The method by which votes will be counted:

Article VII, Section 4 of the By-Laws provides that "voting upon all questions at all meetings of the stockholders shall be by shares of stock and not per capital".

Article VII, Section 2 of the By-Laws, also provides that stockholders may vote at all meetings the number of shares registered in their respective names, either in person or by proxy duly given in writing and duly presented to and received by the Corporate Secretary for inspection and recording not later than five (5) working days before the time set for the meeting, except such period shall be reduced to one (1) working day for meetings that are adjourned due to lack of the necessary quorum. No proxy bearing a signature which is not legally acknowledged by the Corporate Secretary shall be honored at the meetings. Proxies shall be valid and effective for five (5) years, unless the proxy provides for a shorter period, and shall be suspended for any meeting wherein the stockholder appears in person.

Pursuant to Article II, Section 1 of the By-Laws, the directors of the Corporation shall be elected by plurality vote at the annual meeting of the stockholders for that year at which a quorum is present. At each election for directors, every stockholder shall have the right to vote, in person or by proxy, the number of shares owned by him for as many persons as there are directors to be elected, or to cumulate his votes by giving one candidate as many votes as the number of such directors multiplied by the number of his shares shall equal, or by distributing such votes on the same principle among any number of candidates.

The Secretary shall record all the votes and proceedings of the stockholders and of the Directors in a book kept for that purpose.

Discussion on compliance with leading practices on corporate governance

The Corporation adheres to the principles and practices of good corporate governance, as embodied in its Corporate Governance Manual, Code of Business Conduct and related SEC Circulars.

On March 8, 2010, the Board of Directors approved the adoption of a revised Corporate Governance Manual, in accordance with SEC Memorandum Circular No.6 (Series of 2009) dated June 22, 2009. On June 10, 2014 and May 22, 2015, the Board of Directors approved the revisions made to the Corporate Governance Manual of the Corporation in accordance with SEC Memorandum Circular No.9, Series of 2014 as well as the round table discussion initiated by the Securities and Exchange Commission which discussed the Corporate Governance Guidelines for Companies Listed in the Philippine Stock Exchange and the ASEAN Corporate Governance Guidelines. Continuous improvement and monitoring of governance and management policies have been undertaken to ensure that the Corporation observes good governance and management practices. This is to assure the shareholders that the Corporation conducts its business with the highest level of integrity, transparency and accountability.

SEC Memorandum Circular No.5, Series of 2013 mandates all listed companies to submit an Annual Corporate Governance Report (ACGR). On July 30, 2013, the Corporation submitted its ACGR for the year 2012 to the SEC.

Beginning January 30, 2011 in accordance with SEC Memorandum Circular No. 9, Series of 2014, the Corporation submits every year a Corporate Governance Disclosure Report to the PSE.

The Corporation likewise consistently strives to raise its financial reporting standards by adopting and implementing prescribed Philippine Financial Reporting Standards.

PART I - BUSINESS AND GENERAL INFORMATION

Item 1. Business

a) Overview

Robinsons Land Corporation (the Parent Company) is a stock corporation organized under the laws of the Philippines and has six wholly-owned consolidated subsidiaries and two 51%-owned companies.

The Company's principal executive office is located at Level 2, Galleria Corporate Center, EDSA corner Ortigas Avenue, Quezon City, Metro Manila.

The Group has 2,069 and 1,898 employees as of September 30, 2016 and 2015, respectively.

RLC is one of the Philippines' leading real estate developers in terms of revenues, number of projects and total project size. It is engaged in the development and operation of shopping malls and hotels, and the development of mixed-use properties, office and residential buildings, as well as land and residential housing developments, including socialized housing projects located in key cities and other urban areas nationwide. RLC adopts a diversified business model, with both an "investment" component, in which the Company develops, owns and operates commercial real estate projects (principally shopping malls, office buildings and hotels) and a "development" component, in which RLC develops residential real estate projects for sale (principally residential condominiums, upper-middle to high-end residential developments and low-and-middle-cost lots and houses in its subdivision developments).

RLC's operations are divided into its four business divisions:

- The Commercial Centers Division develops, leases and manages shopping malls throughout the Philippines. As of September 30, 2016, RLC operated 44 shopping malls, comprising nine (9) malls in Metro Manila and thirty five (35) malls in other urban areas throughout the Philippines, and had another seven (7) new malls and three (3) expansion projects in the planning and development stage for completion in the next two years.
- The Residential Division develops and sells residential developments for sale/pre-sale. As of September 30, 2016, RLC's Residential Division had completed 79 residential condominium buildings/towers/housing projects, 27 ongoing, of which two (2) projects are awaiting the receipt of License to Sell (LS). It currently has several projects in various stages for future development that are scheduled for completion in the next one to five years.
- The Office Buildings Division develops office buildings for lease. As of September 30, 2016, this division has completed thirteen (13) office developments, located in Metro Manila, Cebu City and Ilocos. These office projects are primarily developed as investment properties, to be leased to tenants by the Company.
- The Hotels Division owns and operates hotels in Metro Manila and other urban areas throughout the Philippines. RLC's Hotels Division currently has a portfolio of fifteen (15) hotel properties under the three (3) brand segments, namely Crowne Plaza Manila Galleria and Holiday Inn Manila Galleria both managed by the InterContinental Hotels Group, Summit Circle Cebu (formerly Cebu Midtown Hotel), Summit Ridge Tagaytay and Summit Hotel Magnolia which are under the Summit brand, and a network of ten (10) Go Hotels all over the Philippines. Go Hotels is present in Mandaluyong-Manila, Tacloban, Dumaguete, Bacolod, Puerto Princesa, Otis-Manila, Iloilo, Ortigas Center-Manila, Butuan and Lanang-Davao.

RLC was incorporated on June 4, 1980 as the real estate investment arm of JG Summit Holdings Inc. ("JG Summit"), and its shares were offered to the public in an initial public offering and were subsequently listed in the Manila Stock Exchange and Makati Stock Exchange (predecessors of the Philippine Stock Exchange) on October 16, 1989. The Company had successful follow-on offering of primary and secondary shares in October 2006 where a total of 932.8 million shares were offered to domestic and international investors, generating USD 223 million or ₱10.87 billion in proceeds. Of this amount, approximately ₱5.3 billion was raised from the primary portion, intended to be used to fund its capital expenditure programs for fiscal year 2007. The additional shares were listed on October 4, 2006. JG

Summit, RLC's controlling shareholder, owned approximately 60.97% of RLC's outstanding shares as of fiscal year 2016.

On November 19, 2010, the Board of Directors approved the increase in the authorized capital stock of RLC from 3,000,000,000 common shares into 8,200,000,000 commons shares, with a par value of one peso (₱1) per share.

In line with the foregoing, the Board of Directors also approved on February 16, 2011 a 1:2 stock rights offering to stockholders of record as of March 30, 2011 (ex - date March 25, 2011). Accordingly, the Company received subscriptions for 1,364,610,228 shares at an offer price of ₱10 per share on April 11-15, 2011. The subscription receivables were fully collected in October 2011.

The SEC approved the increase in capital stock on May 17, 2011.

b) Business

RLC has four business divisions – Commercial Centers, Residential, Office Buildings, and Hotels.

i. Commercial Centers Division

RLC's Commercial Centers Division develops, leases and manages shopping malls throughout the Philippines. The Commercial Centers Division accounted for ₱9.96 billion or 45% of RLC's revenues and ₱6.65 billion or 55% of RLC's EBITDA in fiscal year 2016 and ₱9.10 billion or 46% of RLC's revenues and ₱6.13 billion or 57% of RLC's EBITDA in fiscal year 2015. As of September 30, 2016, the Company's Commercial Centers Division had assets, valued on a historical cost less depreciation basis, of ₱60.03 billion.

During fiscal year 2016, the Commercial Centers Division opened four (4) new malls and expanded one (1) mall, increasing its gross floor area by 17.6%. It currently operates 44 shopping malls, comprising nine (9) malls in Metro Manila and thirty five (35) malls in other urban areas throughout the Philippines, with a gross floor area of approximately 2.397 million square meters.

As of September 30, 2016, RLC had a portfolio of 44 shopping malls:

The Commercial Centers Division's main revenue stream is derived from the lease of commercial spaces. Revenues from the Commercial Centers Division, which represent recurring lease rentals, comprise significant part of RLC's revenues. Historically, revenues from lease rentals have been a steady source of operating cash flows for the Company. RLC expects that the revenues and operating cash flows generated by the commercial centers business shall continue to be the driver for the Company's growth in the future.

As of fiscal year 2016, the Company had seven (7) new shopping malls and three (3) expansion projects in the planning and development stage for completion in the next 2 years. The Company's business plan for the Commercial Centers Division over the next five years, subject to market conditions, is to sustain its growth momentum via development of new shopping malls and expansion of existing ones.

The Group also leases commercial properties to affiliated companies. Rental income arising from the lease of commercial properties to affiliated companies amounted to about ₱2,181 million, ₱1,877 million, and ₱1,630 million in 2016, 2015 and 2014, respectively.

ii. Residential Division

The Residential Division focuses on the construction of residential condominium and subdivision projects. The Division accounted for ₱7.83 billion or 34% of RLC's revenues and ₱2.08 billion or 17% of RLC's EBITDA in fiscal year 2016, and ₱6.62 billion or 34% of RLC's revenues and ₱1.83 billion or 17% of RLC's EBITDA in fiscal year 2015. As of September 30, 2016, the Company's Residential Division had assets, valued on a historical cost less depreciation basis, of ₱43.47 billion.

Percentage of realized revenues from foreign sales to total revenues for fiscal years 2016, 2015 and 2014 are 0.24%, 0.59% and 0.63%, respectively. While percentage of realized revenues from foreign sales to net income for fiscal years 2016, 2015 and 2014 are 0.88%, 2.04% and 2.26%, respectively.

The Residential Division is categorized into four brands. The different brands differ in terms of target market, location, type of development and price ranges to allow clear differentiation among markets. These four brands are:

- Robinsons Luxuria
- Robinsons Residences
- Robinsons Communities
- Robinsons Homes

1) ROBINSONS LUXURIA

Robinsons Luxuria builds its brand on providing a seamless pampered experience via its generous living spaces, distinctive style infrastructure, iconic locations and attention to service and detail. It provides uniquely luxurious living spaces through its projects located in iconic locations such as Cebu, Ortigas Center and Makati. Currently, there are nine (9) residential condominium buildings/towers under the Luxuria portfolio, of which seven (7) have been completed and two (2) projects are under various stages of development.

Key details of the Company's Luxuria residential projects are set forth in the table below:

² Located in a 33-storey building, 20 floors of which are occupied by the Crowne Plaza Hotel

The Robinsons Luxuria projects are detailed as follows:

1. **Galleria Regency** is part of the Galleria mixed-use development which includes the Robinsons Galleria mall, two office buildings (Galleria Corporate Center and Robinsons - Equitable Tower) and two hotels (the Crowne Plaza Manila Galleria and the Holiday Inn Manila Galleria).
2. **AmiSa Private Residences Towers A, B and C** are the first 3 of 6 mid-rise residential condominiums within a mixed-use resort development in Mactan, Cebu.
3. **Sonata Private Residences – Buildings 1 and 2** are part of a mixed-use Sonata Place community in Ortigas Center that has been masterplanned to consist of three residential condominiums, and one hotel. RLC was recognized by FIABCI as the Outstanding Developer in the Philippines for this Residential-Vertical project in 2016.
4. **The Residences at The Westin Manila Sonata Place (legal name Sonata Premier)** is the first Westin-branded Residences in Southeast Asia and the final residential tower in the Sonata Place mixed-use community.
5. **Signa Designer Residences Towers 1 and 2** is a joint venture project between Robinsons Land Corporation and Security Land Corporation in Makati CBD. Recognized in 2013 by the International Property Awards for Asia Pacific as the Best Residential Condominium in the Philippines.

The Company's Business Plan for its Luxuria Brand is to continue to acquire and launch properties in key central and strategic locations within Metro Manila ideal for low density vertical or horizontal developments. It sees potential to differentiate by combining prestigious addresses with distinctive features and amenities.

The following table sets forth RLC's existing land bank allocations for the development of new projects in the Luxuria segment as of September 30, 2016:

As of September 30, 2016, it was in various stages of negotiations for the acquisition of approximately 85 hectares of land in key regional cities throughout the Philippines.

iii. Office Buildings Division

RLC's Office Buildings Division develops office buildings for lease. The Office Buildings Division accounted for ₱ 2.91 billion or 13% of RLC's revenues and ₱2.63 billion or 22% of RLC's EBITDA in fiscal year 2016, and ₱2.24 billion or 11% of RLC's revenues and ₱2.11 billion or 20% of RLC's EBITDA in fiscal year 2015. As of September 30, 2016, the Company's Office Buildings Division had assets, valued on a historical cost less depreciation basis, of ₱12.67 billion.

RLC engages outside architects and engineers for the design of its office buildings developments. One recent trend affecting the Company's office tower design is the increasing presence of customer call centers and BPOs in the Philippines. The Company has secured a number of major customer call centers and BPOs as long-term tenants in its office building space and has focused on attracting their business, including custom-designing its office space with call center and BPO design requirements in mind. The Company believes, based on its own market research, that it is a leading provider of office space to BPOs in the Philippines.

As of September 30, 2016, the Office Buildings Division has completed thirteen (13) office developments with the completion of Tera Tower, Galleria Cebu Office and Robinsons Place Ilocos Office, and is building six more office building projects in Metro Manila and non-Metro Manila areas. 10. **Robinsons Galleria Cebu Office.** The office development is integrated with the mall. It is located at General Maxilom Avenue, corner Sergio Osmena Boulevard in Cebu City. It has a total gross leasable area of approximately 8,500 square meters. The office has its own lobby and RLC owns 100% of the gross floor area. Robinsons Galleria Cebu had just been completed in September 2016.
11. **Robinsons Place Ilocos Office.** This office development is integrated with the mall expansion. The office development has a gross leasable area of 7,500 square meters and it is 100% owned by RLC. It was just recently completed in September 2016.

iv. Hotels

RLC's hotels division owns and operates hotels within Metro Manila and other urban areas throughout the Philippines. For this fiscal year, RLC opened its second Go Hotels in the Mindanao region at Lanang, Davao City, a joint venture with Udenna Development Corporation. Go Hotels Lanang-Davao is the first franchise of gohotels.ph to open. RLC's hotels division currently has a portfolio of fifteen (15) hotel properties. As of September 30, 2016, the Company's Hotels Division had assets, valued on a historical cost less depreciation basis, of ₱3.87 billion.

The hotels division accounted for ₱1.81 billion or 8% of RLC's revenues and ₱0.66 billion or 6% of RLC's EBITDA in fiscal year 2016, and ₱1.75 billion or 9% of RLC's revenues and ₱0.62 billion or 6% of RLC's EBITDA in fiscal year 2015.

Although the hotels division is an important part of RLC's business, the Company considers its primary value to be as a complement to its other developments. Over the next years, we will see more Go Hotels and Summit Hotels in major cities of the country.

Serving over 1.8 million guests to date, Go Hotels has steadily increased its presence in the Philippines with ten (10) operational branches, offering a total of more than 1,300 rooms, in strategic cities across the country. Its thrust is to build in locations with high market demand. To support expansion of the brand, Go Hotels has also opened its business to franchising.

The table below sets out certain key details of RLC's hotel portfolio as of September 30, 2016:

As of September 30, 2016, the Company's Hotels Division has an average occupancy rate of 68%.

RLC's Crowne Plaza and Holiday Inn hotels are managed by Holiday Inn (Philippines), Inc., a subsidiary of the InterContinental Hotels Group ("InterContinental"), pursuant to a long-term management contract. The contract, which commenced in July 2005, has an initial term of ten years. On June 2015, the contract was extended for another 3 years and is extendible further upon mutual agreement between RLC and InterContinental. Holiday Inn has the sole and exclusive right to control the operational activities of each hotel. Holiday Inn's key management duties include, inter alia, handling all personnel matters, including those pertaining to the general manager and financial controller of each hotel, carrying out accounting and budgeting activities in consultation with RLC and operating each hotel in accordance with the operating standards for the appropriate hotel brand. It must also carry out advertising activities in connection with the international sales and marketing programs of the Holiday Inn and Crowne Plaza hotel chains (including use of web-based reservations systems). Holiday Inn receives management and incentive fees for managing these two properties. RLC employs all hotel employees except for key management personnel, including the general manager and financial controller of each hotel and other key personnel as determined by Holiday Inn.

RLC manages the Summit Circle Cebu (formerly Cebu Midtown Hotel), Summit Ridge Tagaytay, Summit Hotel Magnolia and the ten (10) Go Hotels directly.

In fiscal year 2016, the Company had one new Go Hotel branch in Lanang-Davao. There are additional Summit and Go Hotels in the pipeline slated to open in the next two years.

Roxaco-Vanguard Hotels Corporation (RVHC), a franchise of Go Hotels, also opened their first Go Hotel branch in Manila Airport Road. The Franchisee has four (4) more Go Hotels in Metro Manila under construction which will open in the coming months.

c) Significant Subsidiaries

As of September 30, 2016, RLC has six wholly-owned subsidiaries, one 80%-owned subsidiary and two 51%-owned subsidiaries, all of which are consolidated with the Company's financial statements.

On March 4, 2009, the Securities and Exchange Commission (SEC) approved the plan of merger of the Parent Company with wholly-owned subsidiaries, Robinsons Homes, Inc. (RHI), Trion Homes Development Corporation (THDC) and Manila Midtown Hotels and Land Corporation (MMHLC). The merger resulted to enhanced operating efficiencies and economies, increased financial strength through pooling of resources and more favorable financing and credit facilities. No Parent Company shares were issued in exchange for the net assets of RHI, THDC and MMHLC.

The merger was accounted for similar to a pooling of interest method because the combined entities were under common control, therefore, has no effect on the consolidated financial statements. The subsidiaries after the merger are RII, RRMC, RCL, RPMMC, AAI, ASN, GHDI, RLCRL and LPBLI.

Key details of each of RLC's subsidiary companies are set forth below.

1. **Robinson's Inn, Inc.** Robinson's Inn, Inc. (RII) was incorporated on October 19, 1988, has a registered share capital of 25,000,000 and is 100% owned by RLC. RII's principal business is to engage in the development and operation of apartelles, inns, motels, condominiums, apartments and other allied business, and to acquire, purchase, sell, assign or lease land, buildings and other improvements. RII is part of the Company's hotels division, and runs the Robinsons Apartelle which closed operations effective August 31, 2007.
2. **Robinsons Realty and Management Corporation.** Robinsons Realty and Management Corporation (RRMC) was registered with the Philippine Securities and Exchange Commission on May 16, 1988 primarily to acquire by purchase, lease, donation or otherwise, and to own, use, improve, develop, subdivide, sell, mortgage, exchange, lease and hold for investment or otherwise, real estate of all kinds.

3. ***Robinsons (Cayman) Limited.*** Robinsons (Cayman) Limited (RCL) was incorporated in Cayman Islands, British West Indies on March 25, 1997 with a registered authorized capital stock of US\$50,000.00 at \$1.00 per share, 1,000 shares of which is subscribed and paid up by the Parent Company. The company acts as a real estate agent on the international market, among others, for the Residential Division.
4. ***Robinsons Properties Marketing and Management Corporation.*** Robinsons Properties Marketing and Management Corporation (RPMMC) was incorporated on November 25, 1998, has a registered share capital of 1,000,000 and is 100%-owned by the Parent Company. RPMMC is part of the Company's residential division. RPMMC manages the marketing of the portfolio of residential and office units that are available for sale through the residential division's Robinsons Communities, Robinsons Residences, and Luxuria Brands. RPMMC's primary purpose is to acquire, own, use, sell, exchange, lease and develop real property of all kinds, and to market, manage or otherwise sell and convey buildings, houses, apartments and other structures of whatever kind together with their appurtenances.
5. ***Altus Angeles, Inc.*** Altus Angeles, Inc. (AAI) was incorporated on October 30, 2002, has a registered share capital of 400,000 and is 51%-owned by the Parent Company. AAI is a joint venture within the Company's Commercial Centers Division. AAI's principal business is to establish, manage and maintain commercial complexes, offer such services and merchandise of all kinds and to do and perform such acts as necessary or incidental to the accomplishment of the foregoing corporate business objects insofar as may be allowed by applicable rules and regulations.
6. ***Altus San Nicolas Corp.*** Altus San Nicolas Corp. (ASNC) was incorporated on March 28, 2007, has a registered share capital of 40,000,000 and is 100%-owned by the Parent Company starting March 2013. Prior to the buy out, ASNC is 80% owned by the Parent Company. ASNC's principal business is to establish, manage and maintain a commercial complex and to enter into all kinds of contracts, agreements, and obligations for the leasing of commercial space or the disposition, sale of goods and merchandise of all kinds and perform such acts and things necessary or incidental to the accomplishment of the foregoing corporate business and objects as may be allowed by applicable laws, rules and regulations, without engaging in retail business.
7. ***GoHotels Davao, Inc.*** GoHotels Davao, Inc. (GHDI) was incorporated on March 13, 2013, has a registered share capital of 100,000,000 and is 51%-owned by the Parent Company. GHDI is a joint venture within the Company's Hotels Division and Udenna Development Corporation (UDEVCO). GHDI's principal business is to establish, acquire, own, develop, operate and manage hotels and/or transient guest lodging services under the "gohotels.ph" mark and other similar and ancillary facilities and services related to the hospitality and allied industries, offer such services and merchandise to the public in connection with the operation of hotels and/or transient guest lodging services, and to make and enter into all kinds of contracts, agreements and obligations with any person, partnership, corporation or association for the leasing of commercial space or the disposition, sale, acquisition of goods, wares, merchandise, and services of all kinds and to do and perform such acts and things necessary or incidental to the accomplishment of the foregoing corporate business and objects as may be allowed by applicable laws, rules and regulations.
8. ***RLC Resources, Ltd.*** RLC Resources, Ltd. (RLCRL) was incorporated on September 10, 2001 in the British Virgin Islands as an International Business Company, has an initial registered share capital of 50,000, which was increased to 500,000 in fiscal year 2016 and is 100%-owned by the Parent Company. RLC Resources, Ltd.'s principal business is to purchase or otherwise acquire and undertake the whole or any part of the business, goodwill, assets and liabilities of any person, firm or company; to acquire an interest in, amalgamate with or enter into arrangements with any person, firm or company; to promote, sponsor, establish, constitute, form, participate in, organize, manage, supervise and control any corporation, company, fund, trust, business or institution; to purchase or otherwise acquire and hold, in any manner and upon any terms, and to underwrite, invest and deal in shares, stocks, debentures, debenture stock, annuities and foreign exchange, foreign currency deposits and commodities and enter into any interest rate exchange contracts, forward contracts, futures contracts and enforce all rights and powers incidental to the Company's interest therein.
9. ***Lingkod Pinoy Bus Liner, Inc.*** Lingkod Pinoy Bus Liner, Inc. (LPBLI) was incorporated on April 7, 2016 to engage in land transportation for the transportation and carriage of passengers, goods, and merchandise within any place in the Philippines.

d) Competition

i. Commercial Centers Division

RLC has two major competitors in its commercial centers division—SM Prime Holdings, Inc. (SM) and Ayala Land, Inc. (ALI). Each of these companies has certain distinct advantages over RLC, including SM's considerably larger mall portfolio and ALI's access to prime real estate in the heart of Metro Manila. In terms of total assets and equity accounts as of September 30, 2016, the mall segment of SM has ₱302.4 billion and ₱129.2 billion while the mall segment of ALI has ₱93.8 billion and ₱22.3 billion, respectively. There are a number of other players in the shopping mall business in the Philippines, but they are significantly smaller and, because of the high barriers to entry into the business (which include cost, branding, reputation, scale and access to prime real estate), RLC expects that it will continue to compete principally with these two major companies in this market sector for the foreseeable future. RLC has, however, recently seen an increase in the development of specialty malls by companies that are not traditional players in the industry, and it is unclear whether or how this trend might affect the competitive landscape. Shopping mall operators also face competition from specialty stores, general merchandise stores, discount stores, warehouse outlets, street markets and online stores.

RLC believes its strength is in its mixed-use, retail, commercial and residential developments. RLC operates on the basis of its flexibility in developing malls with different sizes depending on the retail appetite of the market per location. It is focused on balancing its core tenant mix and providing a more distinctive shopping mall experience to its loyal customers, as well as its ability to leverage the brand equity and drawing power of its affiliated companies in the retail trade business.

i. Residential Division

1. *Robinsons Luxuria*

The Robinsons Luxuria brand continues to develop projects that caters to the high-end market. It strives to compete with developers who have already established their names in tapping this slice of the market. RLC aims to increase its share of this elite market segment and steer buyers of competitors such as Ayala Land Premier, Rockwell Land (Rockwell), Century Properties and Megaworld Corporation (Megaworld) to its developments. Rockwell's total assets and equity accounts as of September 30, 2016 amounted to ₱39.8 billion and ₱15.1 billion, respectively; Century Properties' total assets and equity accounts as of September 30, 2016 amounted to ₱40.8 billion and ₱15.1 billion, respectively, while Megaworld's total assets and equity accounts as of September 30, 2016 amounted to ₱266.47 billion and ₱141.4 billion, respectively.

2. *Robinsons Residences*

RLC's competitors (Alveo Land, Megaworld, Filinvest, and Ortigas & Co.) under this segment targets the same market and offers similar products. There are also a number of players who try to compete in this segment of the market with one or two projects. Projects under Robinsons Residences remains one of the top of mind developments as a result of growing experienced sales and distribution network and convenient locations. Projects are found within Central Business Districts or a RLC mixed-use development.

3. *Robinsons Communities*

RLC Robinsons Communities in particular, has numerous competitors in the middle income segment. This is in part a function of the fact that as compared to other business areas, RLC does not enjoy the same "early mover" advantage. Currently, Robinsons Communities' competitors include companies like Avida Land (AL), Filinvest Land (FL), SM Development Corporation (SMDC) and DMCI Homes. As of September 30, 2016, total assets and equity accounts amounted to ₱125.5 billion and ₱57.7 billion, respectively, for FL while total assets and equity accounts of SM Prime Holdings Inc. (SMDC was ultimately merged with SM Prime Holdings thru SM Land in 2013) as of September 30, 2016 amounted to ₱457.2 billion and ₱227.4 billion, respectively. Based on public records and independent industry reports and its own market knowledge, the Company believes that it is among the top five middle-ranged condominium developers in the Philippines in

terms of revenues from sales. The Company believes that it can successfully compete in this market segment on the basis of its brand name, technical expertise, financial standing and track record of successfully completed, quality projects.

4. Robinsons Homes

Recognizing the growing housing market in the Philippines, RLC continues to embark on building subdivisions through its Robinsons Homes brand. For families aspiring to own their first home or upgrade to a better abode and neighborhood, Robinsons Homes provides them themed, master planned, secure and gated horizontal subdivisions in key urbanized cities nationwide ideal to start the good life. In order to cater to varying market profiles, Robinsons Homes launched its four sub-brands namely: *Happy Homes* for socialized housing, *Springdale* for our affordable market segment, *Brighton* for our mid-cost development and *Bloomfields* for our high-end market.

It stands in close competition with ALI, FL and Vista Land (VL). Total assets and equity accounts of VL as of September 30, 2016 amounted to ₱172.8 billion and ₱74.91 billion, respectively.

Robinsons Homes competes on the basis of location. It is a nationwide residential subdivision developer with projects in Laoag, Tarlac, Pampanga, Antipolo, Cavite, Batangas, Puerto Princesa, Bacolod, Cebu, Cagayan de Oro, Davao and General Santos. Robinsons Homes is creating not just subdivisions but is forming nurturing communities with lifestyle amenities and support developments in response to the changing lifestyle of Filipinos.

The Company believes that its market specific branding, reliability to deliver and consistent quality products at an affordable price has contributed to its ability to generate sales and its overall success.

ii. Office Buildings Division

The Company believes that competition for office space is principally on the basis of location, availability of space and quality of office space. The biggest competitors of the Company under this segment are ALI, Megaworld and SM. The Company competes in this market on the basis of the strategic locations of its buildings, including their proximity to the Company's malls and residences as part of mixed-use developments, and has also began to design its office space with BPO- and call center-specific requirements in mind, in order to better serve that market and make its office buildings more attractive to those potential tenants. The Company also believes that its established reputation for completing projects on time and true to its deliverables and commitment resulted to becoming one of the preferred choices or first in mind of call centers, BPO as well as local and multinational companies. The Company is committed in providing an excellent customer experience and satisfaction by developing office projects of high quality and reliability, meeting the evolving needs of its customers.

iii. Hotels Division

Philippine Tourism is highly influenced by general political and economic conditions within the country. The Philippines is a preferred destination in the global tourism industry because of its competitiveness in terms of pricing hotel rooms and airline ticket, natural resources and eco-tourism.

The 8 point agenda of the new administration has not been fully implemented, the focus being more oriented towards "war against drugs and corruption" in the country.

New administration budget proposal for 2017 provides a higher allocation to implement an infrastructure program which would cover both government funded and PPP projects within the next 2-3 years.

The Permanent Court of Arbitration (PCA) under UNCLOS has issued a sweeping verdict in favor of the Philippines in its case against China's territorial claims in the South China Sea. China has strongly condemned the verdict and tensions still continue over the Scarborough Shoal.

President Duterte agenda includes abolition of current practice of “ENDO” or end of contract for non-regular employees. Current labor practice is being blamed for preventing employees from gaining regular employment and receiving full benefits allowed by law.

However, concerns on safety and security/travel advisories, infrastructure and health and hygiene must be addressed. The hotel business has seen a continued stabilized situation due to remittances from Filipino overseas workers, the continued booming of business outsource processing & IT infrastructure projects in the Philippines, and the continuous drive of the local tour operators in developing affordable tour packages.

The tourism outlook in the Philippines seems optimistic, driven by the presence of low cost carriers and with several hotels opening in Makati, Ortigas, and Fort Bonifacio CBD. With total expected supply of 8,500 rooms from year 2016-2017, the DOT continues to attract in bound tourism by an aggressive global marketing campaign and brand awareness. The World Economic Forum (WEF), in its “Travel & Tourism Competitiveness Report 2013”, ranked the Philippines 12 places higher than in 2012 at 82nd overall and 16th regionally – the largest improvement of any country within the Asia-Pacific Region.

Thanks to an aggressive and highly successful global marketing campaign, under previous government, brand awareness is on the rise. Momentum looks to continue as current government too seems set to carry the baton with confirmation of Miss Universe Pageant at Manila in January 2017.

Taking advantage of the increasing inbound and outbound travels looking for accommodation, a number of local and foreign competitors have entered or signified interest to enter the country. These chains, considered competitors of the Company’s Go Hotels, include Red Planet, Fave Hotels of Indonesia, Microtel by Wyndham and the local Islands Stay Hotels. Other hotel chains which have also been growing geographically include Park Inn by Radisson, Novotel, Seda Hotels by Ayala, and Remington Hotel. These hotel chains cater to the mid-scale market and are thus considered competitors of the Company’s Summit Hotel brand. In the Ortigas Central Business District, new players such as Marco Polo, Citadines, Accor, Exchange Regency and Oakwood compete with the Company’s two IHG-managed hotels.

Crowne Plaza Manila Galleria has celebrated its 10th year of service in 2015, with this new service experience are yet to be expected to ensure Travelling for Success --- Sleep Advantage supporting the environment expected by our high achiever and Meetings Success, assuring a unique guest experience when conducting meetings and celebrating milestones.

Holiday Inn remains to be the only international mid-market brand in Ortigas which caters of both Leisure and Corporate Transient business in the area.

e) Sources and Availability of Raw Materials and Names of Principal Suppliers

Construction and development of malls, high-rise office and condominium units as well as land and housing construction are awarded to various reputable construction firms subject to a bidding process and management’s evaluation of the price and qualifications of and its relationship with the relevant contractor. Most of the materials used for construction are provided by the contractors themselves in accordance with the underlying agreements, although sometimes the Company will undertake to procure the construction materials when it believes that it has an advantage in doing so. The Company typically will require the contractor to bid for a project on an itemized basis, including separating the costs for project materials that it intends to charge the Company. If the Company believes that it is able to acquire any of these materials (such as cement or steel) at a more competitive cost than is being quoted to it, it may remove these materials from the project bid and enter into a separate purchase order for the materials itself, to reduce project costs.

f) Employees and Labor

As of September 30, 2016, RLC and its subsidiaries had a total of 7,789 employees, including 2,069 permanent full-time managerial and support employees and approximately 5,720 contractual and agency employees, grouped by business divisions as follows:

Business	Permanent Employees	Contract Employees	Total Employees
Commercial Centers Division	997	4,566	5,563
Office Buildings Division	26	292	318
Residential Division	430	279	709
Hotels Division.....	616	583	1,199
Total	<u>2,069</u>	<u>5,720</u>	<u>7,789</u>

The 2,069 permanent full-time managerial and support employees of RLC and its subsidiaries as of September 30, 2016 can be broken down by function as follows:

FUNCTION	NO. OF EMPLOYEES
Operational	713
Administrative	965
Technical	391
Total	2,069

The Company foresees an increase in its manpower complement to 2,172 employees in the ensuing twelve months.

Almost all of the Company's hotels division employees are covered by a collective bargaining agreement. Holiday Inn Manila Galleria hotel's collective bargaining agreement will mature on September 30, 2019 while Summit Circle Cebu (formerly Cebu Midtown Hotel) expired last September 30, 2016 with ongoing talks on renewal as date of writing. The Company's other employees are not unionized or party to collective bargaining agreements with the Company.

Vacation leaves, sick leaves, 13th month pay and retirement benefits are provided to employees, among others, subject to company policies and procedures.

g) Industry Risk

The Company substantially conducts its business activities in the Philippines where majority of its assets are located.

Demand for and prevailing prices of shopping mall and office leases, as well as the development of the Philippine hospitality sector are directly related to the strength of the Philippine economy and the overall levels of business activity in the Philippines.

RLC's Commercial Centers Division is directly affected by level of consumption, demographic makeup, social trends, changing spending patterns and consumer sentiment in the Philippines, which are in turn heavily influenced by economic, political and security conditions in the Philippines. The level of consumption is largely determined by the income levels of consumers which is supplemented by a large number of Overseas Filipino Workers (OFWs) and expatriate Filipinos employed in countries around the world. This exposes RLC to adjustments in the specific economies of the countries where OFWs are deployed.

As the fastest growing sector in the Philippine economy, the Information Technology-Business Process Management (IT-BPM) outsourcing industry drives office space demand which fuels the performance and profitability of RLC's Office Buildings Division. The growth of the IT-BPM sector is heavily reliant on the availability of Information and Communications Technology (ITC) hubs across the country which provide sufficient labor supply and upgraded talent ecosystem, good ITC infrastructure and service capabilities, efficient cost and overall business environment as a product of sound macroeconomic fundamentals and geopolitical climate in the country.

RLC's Hotels and Resorts Division, on the other hand, is anchored on the development of Philippine tourism which is contingent on the rate of response of the Philippine government to address infrastructure challenges across the country.

On the development side of the Company's business, RLC is engaged in both domestic and international residential property development. The property market has been cyclical where property values have been affected by confidence in the economy as well the interest rate environment.

Considerable economic and political uncertainties exist in the Philippines that could have adverse effects on consumer spending habits, construction costs, availability of labor and materials and other factors affecting the Company and its businesses. Significant expenditures associated with investment in real estate, such as real estate taxes, maintenance costs and debt payments, generally cannot be correspondingly reduced if changes in the Philippine property market or the Philippine economy cause a decrease in revenues from the Company's properties. Because majority of RLC's businesses are in the Philippines, reduced levels of economic growth, adverse changes in the country's political or security situation, or weaker performance of the country's property development market generally could materially adversely affect RLC's financial performance, position and profitability.

RLC operates in a highly competitive industry. The Company's future growth and development is dependent, in large part, on the availability and affordability of large tracts of land suitable for development. As the Company and its competitors attempt to locate sites for development, it may become more difficult to locate parcels of suitable size in locations and at prices acceptable to the Company, particularly in Metro Manila and other urban areas. To the extent that the Company is unable to acquire suitable land at acceptable prices, its growth prospects could be limited and its business and results of operations could be adversely affected.

A number of other commercial center and residential developers and real estate services companies, some with greater financial and other resources and more attractive land banks than the Company, compete with RLC in various aspects of its business. Competition from other real estate developers and real estate services companies may adversely affect RLC's ability to develop and sell its properties or attract and retain tenants, and continued development by these and other market participants could result in saturation of the market for commercial and residential real estate.

Item 2. Properties

Over the years, the Company has invested in a number of properties located across the Philippines for existing and future development projects. All of these properties are fully owned by the Company and none of which are subject to any mortgage, lien or any form of encumbrance. The Company also enters into joint venture arrangements with land owners in order to optimize their capital resources. Not only does this encourage raw land development for future projects but it also provides them exclusive development and marketing rights.

The following are locations of the Company's properties:

The Company owns all the land properties upon which all of its existing commercial centers are located, except for the following: (i) Robinsons Place Iloilo, (ii) Robinsons Cagayan de Oro, (iii) Robinsons Cainta, (iv) Robinsons Pulilan, and (v) Robinsons Place Jaro. These five land properties are leased at prevailing market rates. The leases for the Iloilo and Cagayan de Oro properties are for 50 years each and commenced in October 2001 and December 2002, respectively. The leases for the Cainta and Pulilan properties are for 25 years each and commenced in December 2003 and January 2008, respectively. Renewal options for Cainta and Pulilan are available to the Company. The lease for the Jaro, Iloilo property is for 30 years and commenced in March 2015. Total rent expense amounted to ₱180 million in 2016, ₱199 million in 2015 and ₱152 million in 2014.

Capital expenditure incurred for fiscal years 2016, 2015 and 2014 amounted to ₱26.7 billion, ₱16.8 billion and ₱14.1 billion, respectively, representing about 118%, 85% and 83% of revenues in those years, respectively.

The Company has allotted approximately ₱4.0 billion for capital expenditures in the Philippines for October to December 2016; wherein 65% will be spent on the construction and expansion of malls, offices and hotels, 26% for residential property developments and the balance of 9% on land acquisitions.

For calendar year 2017, the Company has budgeted approximately ₱16.0 billion for domestic capital expenditures which will be funded through internally generated cash from operations and borrowings. Approximately 53% will be allocated for the development of new and expansion of existing malls, offices and hotels, 25% is expected to be incurred for the completion of ongoing residential property developments while the remaining 22% will be spent on replenishing the landbank.

Item 3. Legal Proceedings

The Company and its subsidiaries and affiliates are subject to various civil and criminal lawsuits and legal actions arising in the ordinary course of business. In the opinion of RLC's management, none of the lawsuits or legal actions to which it is currently subject will materially affect the daily operations of its business nor will they have a material effect on the Company's consolidated financial position.

Item 4. Submission of Matters to A Vote of Security Holders

There were no matters submitted to a vote of security holders during the fourth quarter of the fiscal year covered by this report.

Item 5. Regulatory and Environmental Matters

b) Shopping Malls

Shopping mall centers are regulated by the local government unit of the city or municipality where the establishment is located. In line with this, mall operators must secure the required mayor's permit or municipal license before operating. In addition, no mall shall be made operational without complying first with the provisions of the fire code and other applicable local ordinances. Furthermore, shopping malls with food establishments must obtain a sanitary permit from the Department of Health. It is also compulsory for shopping malls discharging commercial waste water to apply for a waste water discharge permit from the DENR and to pay the fee incidental to the permit.

As a tourism-related establishment, shopping malls may obtain accreditation from the Department of Tourism. A shopping mall can only be accredited upon conformity with the minimum physical, staff and service requirements promulgated by the Department of Tourism.

c) Residential Condominium and Housing and Land Projects

Presidential Decree No. 957 as amended, is the principal statute which regulates the development and sale of real property as part of a condominium project or subdivision. Presidential Decree No. 957 covers subdivision projects and all areas included therein for residential, commercial, industrial and recreational purposes as well as condominium projects for residential or commercial purposes. The HLURB is the administrative agency of the Government which, together with local government units, enforces this decree and has jurisdiction to regulate the real estate trade and business.

All subdivision and condominium plans for residential, commercial, industrial and other development projects are subject to approval by the relevant local government unit in which the project is situated. The development of subdivision and condominium projects can commence only after the relevant government body has issued the development permit.

Further, all subdivision plans and condominium project plans are required to be filed with and approved by the HLURB. Approval of such plans is conditional on, among other things, the developer's financial, technical and administrative capabilities. Alterations of approved plans which affect significant areas of the project, such as infrastructure and public facilities, also require the prior approval of the relevant local government unit. Owners of or dealers in real estate projects are required to obtain licenses to sell before making sales or other dispositions of lots or real estate projects. Dealers, brokers and salesmen are also required to register with the HLURB. Project permits and licenses to sell may be suspended, cancelled or revoked by the HLURB by itself or upon a verified complaint from an interested party for reasons such as non-delivery of title to fully-paid buyers or deviation from approved plans. A license or permit to sell may only be suspended, cancelled or revoked after a notice to the developer has been served and all parties have been given an opportunity to be heard in compliance with the HLURB's rules of procedure and other applicable laws. Subdivision or condominium units may be sold or offered for sale only after a license to sell has been issued by the HLURB. The license to sell may be issued only against a performance bond posted to guarantee the completion of the construction of the subdivision or condominium project and compliance with applicable laws and regulations.

There are essentially two different types of residential subdivision developments, which are distinguished by different development standards issued by the HLURB. The first type of subdivision, aimed at low-cost housing, must comply with Batas Pambansa Blg. 220, which allows for a higher density of building and relaxes some construction standards. Other subdivisions must comply with Presidential Decree 957, which set out standards for lower density developments. Both types of development must comply with standards regarding the suitability of the site, road access, necessary community facilities, open spaces, water supply, the sewage disposal system, electrical supply, lot sizes, the length of the housing blocks and house construction.

Under current regulations, a developer of a residential subdivision is required to reserve at least 30% of the gross land area of such subdivision for open space for common uses, which include roads and recreational facilities. A developer of a commercial subdivision is required to reserve at least 3.5% of the gross project area for parking and pedestrian malls.

Further, Republic Act No. 7279 requires developers of proposed subdivision projects to develop an area for socialized housing equivalent to at least 20% of the total subdivision area or total subdivision project cost, at the option of the developer, within the same or adjacent regions, whenever feasible, and in accordance with the standards set by the HLURB. Alternatively, the developer may opt to buy socialized housing bonds issued by various accredited government agencies or enter into joint venture arrangements with other developers engaged in socialized housing development. The Company has benefited from providing low-income housing or projects of such types which are financially assisted by the government. These policies and programs may be modified or discontinued in the future. The Government may also adopt regulations which may have the effect of increasing the cost of doing business for real estate developers. Under current law, income derived by domestic corporations from the development and sale of socialized housing which currently, among other things, must have a basic selling price of no more than ₱300,000, is exempt from project related income taxes. Under the current Investment Priorities Plan issued by the Board of Investments, mass housing projects including development and fabrication of housing components, are eligible for government incentives subject to certain policies and guidelines. In the future, since the sale of socialized housing units comprise a portion of homes sold by the Company, any changes in the tax treatment of income derived from the sale of socialized housing units may affect the effective rate of taxation of the Company.

d) Hotels

The Philippine Department of Tourism promulgated the Hotel Code of 1987 (the “Hotel Code”) in order to govern the business and operation of all hotels in the Philippines. Investors that wish to operate a hotel must first register and apply for a license with the local government of the city or municipality where the hotel is located. For purposes of registration and licensing, hotels are classified into four groups: De Luxe Class, First Class, Standard Class and Economy Class. The Hotel Code provides minimum standards for the establishment, operation and maintenance of hotels depending on the hotel’s classification. The Philippine Department of Tourism is in the process of revising the current classification from Hotel Class System to Hotel Star Rating System.

A certificate of registration and license as a hotel will not be granted unless the relevant establishment has passed all the conditions of the Hotel Code, the Fire and Building Codes, Zoning Regulations and other municipal ordinances. Furthermore, hotels can only be opened for public patronage upon securing of a sanitary permit from the city or municipal health office having jurisdiction over the establishment. The Department of Tourism is the government agency which is tasked with the accreditation of hotels. The Department promulgates the minimum standards and procedures for hotel accreditation. While accreditation is non-compulsory, accredited hotels are given incentives by the Department of Tourism.

e) Zoning and Land Use

Under the agrarian reform law currently in effect in the Philippines and the regulations issued thereunder by the DAR, land classified for agricultural purposes as of or after 15 June 1988, cannot be converted to non-agricultural use without the prior approval of DAR.

Land use may be also limited by zoning ordinances enacted by local government units. Once enacted, land use may be restricted in accordance with a comprehensive land use plan approved by the relevant local government unit. Lands may be classified under zoning ordinances as commercial, industrial, residential or agricultural. While a procedure for change of allowed land use is available, this process may be lengthy and cumbersome.

f) Special Economic Zone

The Philippine Economic Zone Authority (“PEZA”) is a government corporation that operates, administers and manages designated special economic zones (“Ecozones”) around the country. Ecozones, which are generally created by proclamation of the President of the Philippines, are areas earmarked by the government for development into balanced agricultural, industrial, commercial, and tourist/recreational regions.

An Ecozone may contain any or all of the following: industrial estates, export processing zones, free trade zones, and tourist/recreational centers. PEZA registered enterprises locating in an Ecozone are entitled to fiscal and non-fiscal incentives such as income tax holidays and duty-free importation of equipment, machinery and raw materials.

Information technology ("IT") enterprises offering IT services (such as call centers, and business process outsourcing using electronic commerce) are entitled to fiscal and non-fiscal incentives if they are PEZA-registered locators in a PEZA-registered IT Park, IT Building, or Ecozone. An IT Park is an area which has been developed into a complex capable of providing infrastructures and other support facilities required by IT enterprises, as well as amenities required by professionals and workers involved in IT enterprises, or easy access to such amenities. An IT Building is an edifice, a portion or the whole of which, provides such infrastructure, facilities and amenities.

PEZA requirements for the registration of an IT Park or IT Building differ depending on whether it is located in or outside Metro Manila. These PEZA requirements include clearances or certifications issued by the city or municipal legislative council, the DAR, the National Water Resources Board, and the DENR.

The Company actively seeks PEZA registration of its buildings, as this provides significant benefits to the Company's tenants. PEZA registration provides significant tax incentives to those of the Company's customers that are PEZA-registered (they can, for example, avail themselves of income tax incentives such as income tax holidays or 5% gross income taxation), thereby making tenancy in the Company's PEZA-registered buildings potentially more attractive to them. As of fiscal year 2015, the Pioneer mixed-use complex was in a PEZA Ecozone, the Robinsons Equitable Tower and Robinsons Summit Center were PEZA-registered buildings. A number of malls are also PEZA-registered.

g) Effect of Existing or Probable Governmental Regulations on the Business

The existing regulatory and environmental/governmental regulations mentioned under "items 5a-e" as well as possible governmental regulations on the various business segments may affect the Company's profitability through possible reduction in revenues.

The aggregate cost of compliance with environmental laws covering all business segments including waste management, among others, amounted to ₱27.9 million in 2016, ₱20.8 million in 2015 and ₱20.4 million in 2014.

Item 9. Management Discussion and Analysis of Financial Condition and Results of Operation

a) Results of Operations and Financial Condition

RLC derives its revenues from real estate operations and hotel operations. Revenues from real estate operations account for approximately 92% of the Company's total revenues and are derived from the lease of commercial spaces in the various Robinsons malls, the lease and sale of space from RLC's office buildings, and the sale of residential units from the Company's various housing projects. Approximately 8% of total revenues are derived from hotel operations.

i. Year ended September 30, 2016 versus same period in 2015

RLC generated total gross revenues of P22.51 billion for fiscal year 2016, an increase of 14.2% from P19.71 billion total gross revenues for fiscal year 2015. EBIT grew 12.2% to P8.45 billion while EBITDA posted a 12.5% growth to P12.02 billion. Net income stood at P6.15 billion, up by 7.9% compared to last year.

The Commercial Centers Division accounted for P9.96 billion of the real estate revenues for the year versus P9.10 billion last year or a 9.4% increase. Rental revenues increased due to opening of new malls in Cebu City, Tagum (Davao), General Trias (Cavite) and Jaro (Iloilo). Also, the full year impact of Robinsons Place Antique and the expansion of Robinsons Novaliches, as well as the expansion of Robinsons Ilocos this year, contributed to the growth. Cinema revenues increased due to more blockbuster films released this year than last year and the operation of new cinemas in new malls. The Division's EBIT and EBITDA grew by 5.2% and 8.5%, respectively.

Revenues of Office Buildings Division grew by 30% to P2.91 billion from P2.24 billion over the same period last year. Revenue growth was mainly attributable to the contribution from new office developments completed in 2014 and 2015 namely Cyberscape Alpha, Cyberscape Beta and Tera Tower. System-wide occupancy rate ended at 96% as of September 30, 2016. The Division's EBIT and EBITDA showed positive variances of 27.9% and 25.0%, respectively.

The Residential Division realized revenues rose to P7.83 billion for the year versus P6.62 billion last year, an increase of 18.2%, due to higher level of buyers meeting the equity requirement of 15% in recognizing sales based on percentage of construction completion. Both EBIT and EBITDA have shown positive variances of 13.8% and 13.5 %, respectively.

The Hotels Division, a major contributor to the Company's recurring revenues, registered gross revenues of P1.81 billion as against last year's P1.75 billion. The 3.5% increase in hotel revenues principally came from the relatively new hotels namely Go Hotels Iloilo, Go Hotels Ortigas Center, Go Hotels Butuan, and Summit Hotels Magnolia. The hotel average occupancy rate is 68% in 2016. Hotels Division EBIT and EBITDA grew by 8.3% and 6.7%, respectively.

Interest income decreased to P18.1 million from P39.3 million last year due to lower average balance of cash and cash equivalents during the fiscal year 2016 resulting from higher level of capital expenditures and operating expenses.

Real estate cost and expenses went up by 19% to P9.34 billion from P7.84 billion last year. The opening of new malls raised the level of depreciation expense of Commercial Centers Division by P330 million or 14% while opening of new office buildings increased depreciation expense of the Office Buildings Division by P87 million or 16%. In addition, the higher level of realized sales of residential units brought cost of real estate sales to increase by P775.0 million or 24%. Furthermore, cinema expense rose by 10% or P69.8 million as a result of increase in cinema revenues.

General and administrative expenses went up by 11% to P3.40 billion due to higher taxes and licenses, salaries, insurance, donations, advertising and promotions and supplies expense, among others.

Interest expense significantly increased to P571.6 million due to higher level of short-term and long-term borrowings.

Total assets of the Company stood at P120.04 billion, a growth of 21% from

₱99.07 billion in 2015. Receivables (current and noncurrent net) increased by 30% or ₱2.29 billion to ₱10.02 billion due substantially to higher level of installment contracts receivables.

Subdivision land, condominium and residential units for sale increased by 67% to ₱25.85 billion due to purchase of land rights located in Chengdu Province, China, and higher level of capital expenditures for new and ongoing projects under the Residential division.

Investment Properties and Property and Equipment both increased by 12% to ₱71.90 billion and 27% to ₱4.46 billion, respectively. Increase in Investment Properties is due to acquisition of several land properties both for residential and commercial development. Moreover, the completion of construction of Robinsons malls in Maxilom-Cebu, Tagum, Jaro-Iloilo, Ilocos (expansion), General Trias-Cavite, redevelopment of Robinsons Galleria and installation of Solar Power facility in various malls, as well as the on-going construction of Robinsons Iligan, Naga and Pavia-Iloilo contributed to the increase in Investment Properties. On the other hand, the increase in Property and Equipment is due to expansion projects from all three hotel segments namely Go Hotels, Summit Hotels, and International.

Other current assets increased by 13% to ₱4.45 billion due to increase in advances to suppliers and contractors for mall, office buildings and residential constructions. On the other hand, other noncurrent assets decreased by 31% to ₱2.21 billion mainly due to return of bid deposit for land use rights amounting to ₱1.4 billion.

Accounts payable and accrued expenses went up by 34% to ₱7.94 billion due to higher level of capital expenditures and operating expenses this year.

Loans Payable (current and noncurrent) increased by 50% to ₱37.34 billion due to availment of additional term loans totaling ₱11.5 billion and short-term loans totaling ₱0.99 billion in 2016. Deposits (current and noncurrent) and Other liabilities went up by 16% to ₱9.83 billion due to higher level of deposits from real estate buyers.

Equity attributable to equity of the Parent Company as of September 30, 2016 stood at ₱61.34 billion, up by 8% from ₱56.66 billion last year due to the earnings during the year of ₱6.15 billion net of payment of dividends of ₱1.47 billion.

A summary of RLC's key performance indicators follows:

	2016	2015
Gross revenues	₱22.51 billion	₱19.71 billion
EBIT	8.45 billion	7.54 billion
EBITDA	12.02 billion	10.69 billion
Net income	6.15 billion	5.70 billion
Earnings per share	1.50	1.39
Net book value per share	14.98	13.84
Current ratio	2.25:1	1.98:1
Debt-to-equity ratio	0.61:1	0.44:1
Interest coverage ratio	6.06:1	7.91:1
Asset to equity ratio	1.95:1	1.74:1
Operating margin ratio	0.38:1	0.38:1

Capital expenditures for the fiscal year ended September 30, 2016 amounted to ₱26.7 billion. Funding for the capital expenditures was sourced from proceeds of short-term and long-term loans and internally generated funds.

ii. Year ended September 30, 2015 versus same period in 2014

RLC generated total gross revenues of ₱19.71 billion for fiscal year 2015, an increase of 15.6% from ₱17.05 billion total gross revenues for fiscal year 2014. EBIT grew 21% to ₱7.54 billion while EBITDA posted a 19.2% growth to ₱10.69 billion. Net income stood at ₱5.70 billion, up by 20.4% compared to last year.

The Commercial Centers Division accounted for ₱9.10 billion of the real estate revenues for the year versus ₱8.10

billion last year or a 12.3% increase. The newly opened malls in 2014 and 2015 namely, Robinsons Malolos, Robinsons Butuan, Robinsons Santiago, Robinsons Roxas, Robinsons Antipolo and Robinsons Las Pinas contributed to the increase in revenues. In addition, the reopening of Robinsons Tacloban in June 2014 contributed to the growth while most provincial malls also posted decent growth in rental revenues. The Division's EBIT and EBITDA grew by 9.2% and 11.3%, respectively.

The Residential Division realized revenues rose to ₱6.62 billion for the year versus ₱5.86 billion last year, an increase of 12.9%, due to higher level of buyers meeting the equity requirement of 15% in recognizing sales based on percentage of construction completion. Both EBIT and EBITDA have shown positive variances of 25.5% and 25.3 %, respectively.

Revenues of Office Buildings Division grew by 45.2% to ₱2.24 billion from ₱1.54 billion over the same period last year. This increase in lease income was due to new office buildings Cyberscape Alpha and Cyberscape Beta, both with occupancy rates of 100% as of September 30, 2015, respectively. The Division's EBIT and EBITDA showed positive variances of 50.1% and 42.6%, respectively.

The Hotels Division, a major contributor to the Company's recurring revenues, registered gross revenues of ₱1.75 billion as against last year's ₱1.53 billion. The 13.8% increase in hotel revenues was principally due to the opening of new Go Hotels Iloilo and Go Hotels Ortigas Center in January 2014 and August 2014, respectively, and the reopening of Go Hotels Tacloban in May 2014. The hotel average occupancy rate is 69% in 2015. Hotels Division EBIT and EBITDA grew by 26.0% and 17.6%, respectively.

Interest income increased to ₱39.3 million from ₱14.6 million last year due to higher average balance of cash and cash equivalents during the fiscal year 2015 resulting from the proceeds of fixed rate bonds.

Real estate cost and expenses went up by 11% to ₱7.84 billion from ₱7.06 billion last year. The opening of new malls raised the level of depreciation expense of Commercial Centers by ₱310 million or 15% while opening of new office buildings increased depreciation expense of the Office Buildings Division by ₱104 million or 24%. Furthermore, cinema expense rose by 21% or ₱120 million due to the operation of new cinemas in new malls.

Hotel expenses rose by 10% to ₱1.29 billion due substantially to higher level of cost of food and beverage, salaries and wages and contracted services among others, which were all due to higher level of operations brought about by the newly opened and re-opened Go Hotels branches.

General and administrative expenses went up by 19% to ₱3.05 billion due to higher commission expense, salaries, advertising and promotions and rent expense, among others.

Total assets of the Company stood at ₱99.07 billion, a growth of 16% from ₱85.37 billion in 2014. Receivables (current and noncurrent net) increased by 15% or ₱1.03 billion to ₱7.73 billion due substantially to higher level of installment contracts receivables.

Investment Properties and Property and Equipment both increased by 17% to ₱64.02 billion and 12% to ₱3.51 billion, respectively, due to acquisition of several land properties both for residential and commercial development. The completion of construction of Robinsons Las Pinas, Robinsons Novaliches expansion and Robinsons Antique during the fiscal year and ongoing mall constructions at Robinsons Maxilom, Robinsons Tagum, Robinsons General Trias and Robinsons Jaro Iloilo contributed to the increase. Other current and noncurrent assets increased by 25% to ₱3.95 billion and 145% to ₱3.2 billion, respectively, due to increase in advances to suppliers and contractors for mall and office buildings constructions and utility deposits.

Loans Payable (current and noncurrent) increased by 38% to ₱24.88 billion due to issuance of ₱12 billion fixed rate bonds in 2015. Deposits (current and noncurrent) and Other liabilities went up by 22% to ₱8.45 billion due to higher level of deposits from lessees of newly opened malls and higher deposits from real estate buyers.

Equity attributable to equity of the Parent Company as of September 30, 2015 stood at ₱56.66 billion, up by 8% from ₱52.44 billion last year due to the earnings during the year of ₱5.70 billion net of payment of dividends of ₱1.47 billion.

A summary of RLC's key performance indicators follows:

	2015	2014
Gross revenues	₱19.71 billion	₱17.05 billion
EBIT	7.54 billion	6.24 billion
EBITDA	10.69 billion	8.97 billion
Net income	5.70 billion	4.73 billion
Earnings per share	1.39	1.16
Net book value per share	13.84	12.81
Current ratio	1.98:1	1.41:1
Debt-to-equity ratio	0.44:1	0.34:1
Interest coverage ratio	7.91:1	6.96:1
Asset to equity ratio	1.74:1	1.62:1
Operating margin ratio	0.38:1	0.37:1

Capital expenditures for the fiscal year ended September 30, 2015 amounted to ₱16.8 billion. Funding for the capital expenditures was sourced from proceeds of short-term and long-term loans and internally generated funds.

iii. Year ended September 30, 2014 versus same period in 2013

RLC generated total gross revenues of ₱17.05 billion for fiscal year 2014, an increase of 7% from ₱15.90 billion total gross revenues for fiscal year 2013. EBIT grew 4% to ₱6.24 billion while EBITDA posted a 6.3% growth to ₱8.97 billion. Net income stood at ₱4.73 billion, up by 5.8% compared to last year.

The Commercial Centers Division accounted for ₱8.10 billion of the real estate revenues for the year versus ₱7.39 billion last year or a 9.7% increase. The newly opened malls namely, Robinsons Malolos, Robinsons Butuan, Robinsons Santiago, Robinsons Roxas and Robinsons Malabon contributed to the increase in revenues. In addition, Robinsons Magnolia, Robinsons Palawan and Robinsons Iloilo contributed to the growth while most provincial malls also posted decent growth in rental revenues. The Division's EBIT and EBITDA grew by 5.8% and 8.5%, respectively.

The Residential Division realized revenues rose to ₱5.86 billion for the year versus ₱5.58 billion last year, an increase of 5%, due to higher level of buyers meeting the equity requirement of 15% in recognizing sales based on percentage of construction completion. Both EBIT and EBITDA have shown positive variances of 0.9% and 0.6%, respectively.

Revenues of Office Buildings Division grew by 7% to ₱1.54 billion from ₱1.44 billion over the same period last year. This 7% increase in lease income was due to new office buildings Cyberscape Alpha and Cyberscape Beta, with occupancy rates of 46% and 68% as of September 30, 2014, respectively. The Division's EBIT and EBITDA showed positive variances of 3.7% and 6.5%, respectively.

The Hotels Division, a major contributor to the Company's recurring revenues, registered gross revenues of ₱1.53 billion as against last year's ₱1.50 billion. The 2.5% increase in hotel revenues was principally due to additional new Go Hotels Iloilo and Go Hotels Ortigas Center which opened in fiscal year 2014. The hotel average occupancy rate is 68% in 2014. Hotels Division EBIT grew by 5.6%, while EBITDA is flat at ₱527 million in 2014 and 2013.

Interest income decreased to ₱14.6 million from ₱113.4 million last year due to lower average balance of cash and cash equivalents during the fiscal year 2014.

Real estate cost and expenses went up by 8% to ₱7.06 billion from ₱6.56 billion last year. The opening of new malls raised the level of depreciation expense of Commercial Centers by ₱245 million or 13% while opening of new office buildings increased depreciation expense of the Office Buildings Division by ₱53 million or 14%. Furthermore, cinema expense rose by 19% or ₱90 million due to higher level of cinema operations which in turn resulted to higher cinema revenues.

Hotel expenses rose by 1.5% to ₱1.17 billion due substantially to higher level of cost of food and beverage, salaries

and wages and contracted services among others, which were all due to higher level of operations brought about by the newly opened Go Hotels branches.

General and administrative expenses went up by 17% due to higher salaries, advertising and promotions and insurance expense, among others.

Total assets of the Company stood at ₱85.37 billion, a growth of 14% from ₱74.89 billion in 2013. Receivables (current and noncurrent net) increased by 33% or ₱1.65 billion due substantially to higher level of installment contracts receivables.

Subdivision land, condominium and residential units for sale grew by 26% due to the reclassification of land from Investment Properties amounting to ₱1.76 billion as of September 30, 2014.

Investment Properties and Property and Equipment both increased by 9% due to acquisition of several land properties both for residential and commercial development. The completion of construction of Robinsons Malolos, Robinsons Butuan, Robinsons Santiago, Robinsons Roxas, Robinsons Malabon and Robinsons Antipolo during the fiscal year and ongoing mall constructions at Robinsons Maxilom and Robinsons Las Pinas contributed to the increase. While other noncurrent assets increased by 104% due to increase in utility deposits, and prepaid rental as a result of ASNC's (wholly-owned subsidiary of RLC) assignment to RLC of all its rights, interests and obligations under a long-term contract of lease of land located in Taguig City.

Loans Payable (current and noncurrent) increased by 42% due to availment of ₱10 billion term loans and additional short-term loans of ₱8 billion offset by payment of ₱10 billion bonds payable that matured in 2014. Accounts payable and accrued expenses increased by 17% due to higher level of capital and operational expenditures. Deposits (current and noncurrent) and Other liabilities went up by 12% to ₱6.92 billion due to higher level of deposits from lessees of newly opened malls and higher deposits from real estate buyers.

Equity attributable to equity of the Parent Company as of September 30, 2014 stood at ₱52.44 billion, up by 6.6% from ₱49.17 billion last year due to the earnings during the year of ₱4.74 billion net of payment of dividends of ₱1.47 billion.

Item 16. Certain Relationships And Related Party Transactions

RLC is a member of the JG Summit Group. The JG Summit Group comprise JG Summit and its subsidiaries. As of September 30, 2016, JG Summit and other companies within the JG Summit Group held 60.97% of the outstanding shares of the Company. JG Summit was incorporated in November 1990 as the holding company for a group of companies with diverse interests in branded consumer foods, agro-industrial and commodity food products, textile, telecommunications, petrochemicals, air transportation and financial services.

RLC and its subsidiaries, in their ordinary course of business, engage in transactions with companies in the JG Summit Group and other companies controlled by the Gokongwei Family. The most significant of these transactions include tenancy by various retail-related companies controlled by the Gokongwei Family in RLC's shopping malls as well as substantial intercompany loans. RLC's policy with respect to related party transactions is to ensure that these transactions are entered into on terms comparable to those available from unrelated third parties.

The Company's major related party transactions include leases of significant portions of its commercial centers and office buildings to companies controlled by the Gokongwei Family, including Robinsons Department Store, Robinsons Supermarket and Handyman Do-It-Best. Other affiliates from whom RLC earns rental income include Top Shop, Robinsons Bank and Cebu Pacific. Rental income paid to RLC by affiliates amounted to ₱2.181 billion, ₱1.877 billion and ₱1.630 billion for fiscal years 2016, 2015 and 2014, respectively.

RLC and its subsidiaries also maintain savings and current accounts and time deposits with Robinsons Bank (formerly Robinsons Savings Bank), an affiliated local commercial bank. These balances amounted to ₱105 million, ₱692 million and ₱617 million as of September 30, 2016, 2015 and 2014, respectively.

In addition to the foregoing transactions, JG Summit also provides RLC with certain corporate services including debt management, corporate finance, corporate planning, procurement, human resources, controller and treasury services, legal and corporate communications. For further information on the Company's related party transactions, including detailed breakdowns of amounts receivable from and amounts payable to affiliated companies, see Note 20 to the Company's financial statements as of and for the fiscal years ended September 30, 2016, 2015 and 2014.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
Robinsons Land Corporation
Level 2, Galleria Corporate Center
EDSA corner Ortigas Avenue, Quezon City, Metro Manila

We have audited the accompanying consolidated financial statements of Robinsons Land Corporation and its subsidiaries, which comprise the consolidated statements of financial position as at September 30, 2016 and 2015 and the consolidated statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended September 30, 2016, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Robinsons Land Corporation and its subsidiaries as at September 30, 2016 and 2015 and their financial performance and their cash flows for each of the three years in the period ended September 30, 2016, in accordance with Philippine Financial Reporting Standards.

ROBINSONS LAND CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

Robinsons Land Corporation (the Parent Company) is a stock corporation organized under the laws of the Philippines. The Parent Company and its subsidiaries are collectively referred herein as “the Group”.

The Group is engaged in the business of selling, acquiring, developing, operating, leasing and disposing of real properties such as land, buildings, shopping malls, commercial centers and housing projects, hotels and other variants and mixed-used property projects. The Group is 60.97% owned by JG Summit Holdings, Inc. (JGSHI or the Ultimate Parent Company). JGSHI is one of the country’s largest conglomerates, with diverse interests in branded consumer foods, agro-industrial and commodity food products, petrochemicals, air transportation and financial services.

The Parent Company’s shares of stock are listed and currently traded at the Philippine Stock Exchange (PSE).

The Parent Company’s principal executive office is located at Level 2, Galleria Corporate Center, EDSA corner Ortigas Avenue, Quezon City, Metro Manila.

The consolidated financial statements as of September 30, 2016 and 2015 and for each of the three years in the period ended September 30, 2016 were authorized for issue by the Parent Company’s Board of Directors (BOD) on January 6, 2017.

2. Basis of Preparation

The consolidated financial statements of the Group have been prepared under the historical cost basis and are presented in Philippine Peso (₱), the Parent Company’s functional currency. All amounts are rounded to the nearest peso unless otherwise indicated.

Statement of Compliance

The accompanying consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group as of September 30, 2016 and 2015, and for each of the three years in the period ended September 30, 2016.

The consolidated financial statements are prepared for the same reporting year as the Parent Company, using uniform accounting policies for like transactions and other events in similar circumstances.

An investee is included in the consolidation at the point when controls is achieved. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Non-controlling interests (NCI) pertain to the equity in a subsidiary not attributable, directly or indirectly to the Parent Company. NCI represent the portion of profit or loss and net assets in subsidiaries not owned by the Group and are presented separately in consolidated statement of income, consolidated statement of comprehensive income and consolidated statement of changes in equity and within equity in the consolidated statement of financial position, separately from equity holders' of the Parent Company.

Any equity instruments issued by a subsidiary that are not owned by the Parent Company are non-controlling interests, including preferred shares and options under share-based transactions, if any.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

The consolidated financial statements include the financial statements of the Parent Company and the following subsidiaries as of September 30:

As of September 30, 2016, 2015 and 2014, the Group has no subsidiary with material non-controlling interest that would require additional disclosures.

3. Changes in Accounting Policies

Standards Issued But Not Yet Effective

The Group has not applied the following PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations which are not yet effective as of September 30, 2016. This list consists of standards and interpretations issued, which the Group reasonably expects to be applicable at a future date. The Group intends to adopt these standards when they become effective. Unless otherwise indicated, adoption of these standards and interpretations are not expected to have any significant impact on the consolidated financial statements.

Effective January 1, 2016

- PFRS 10, *Consolidated Financial Statements*, PFRS 12, *Disclosure of Interests in Other Entities*, and PAS 28, *Investments in Associates and Joint Ventures - Investment Entities: Applying the Consolidation Exception (Amendments)*
- PFRS 11, *Joint Arrangements - Accounting for Acquisitions of Interests (Amendments)*
- PFRS 14, *Regulatory Deferral Accounts*
- PAS 1, *Presentation of Financial Statements - Disclosure Initiative (Amendments)*
- PAS 16, *Property, Plant and Equipment* and PAS 38, *Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortization (Amendments)*
- PAS 27, *Separate Financial Statements - Equity Method in Separate Financial Statements (Amendments)*
- Annual Improvements to PFRSs (2012-2014 cycle)
 - PFRS 5, *Non-current Assets Held for Sale and Discontinued Operations - Changes in Methods of Disposal*
 - PFRS 7, *Financial Instruments: Disclosures - Servicing Contracts*
 - PFRS 7, *Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements*
 - PAS 19, *Employee Benefits - Regional Market Issue regarding Discount Rate*
 - PAS 34, *Interim Financial Reporting - Disclosure of Information 'Elsewhere in the Interim Financial Report'*

Effective January 1, 2017

- PAS 7, *Cash Flow Statements - Disclosure Initiative (Amendments)*
- PAS 12, *Income Taxes - Recognition of Deferred Tax Assets for Unrealized Losses (Amendments)*

Effective January 1, 2018

- PFRS 9, *Financial Instruments*

In July 2014, the International Accounting Standards Board (IASB) issued the final version of International Financial Reporting Standards (IFRS) 9, *Financial Instruments*. The new standard (renamed as PFRS 9) reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions. Early application of previous versions of PFRS 9 (2009, 2010 and 2013) is permitted if the date of initial application is before February 1, 2015. The Group did not early adopt PFRS 9.

The adoption of PFRS 9 will have an effect on the classification and measurement of the Group's financial assets and impairment methodology for financial assets, but will have no impact on the classification and measurement of the Group's financial liabilities. The Group is currently assessing the impact of adopting this standard.

Effective January 1, 2019

- *PFRS 16, Leases*

On January 13, 2016, the IASB issued its new standard, PFRS 16, *Leases*, which replaces PAS 17, the current leases standard, and the related Interpretations.

Under the new standard (renamed as PFRS 16), lessees will no longer classify their leases as either operating or finance leases in accordance with PAS 17. Rather, lessees will apply the single-asset model. Under this model, lessees will recognize the assets and related liabilities for most leases on their statements of financial position, and subsequently, will depreciate the lease assets and recognize interest on the lease liabilities in their profit or loss. Leases with a term of 12 months or less or for which the underlying asset is of low value are exempted from these requirements.

The accounting by lessors is substantially unchanged as the new standard carries forward the principles of lessor accounting under PAS 17. Lessors, however, will be required to disclose more information in their financial statements, particularly on the risk exposure to residual value.

The new standard is effective for annual periods beginning on or after January 1, 2019. Earlier application is not permitted until the FRSC has adopted the new revenue recognition standard. When adopting PFRS 16, an entity is permitted to use either a full retrospective or a modified retrospective approach, with options to use certain transition reliefs. The Group plans to adopt the new standard on the required effective date. It is currently assessing the impact of the new standard and expects it to significantly impact its lease arrangements wherein the Group is a lessee as it will already recognize the related assets and liabilities in its statements of financial position.

In addition, the IASB has issued the following new standards that have not yet been adopted locally by the SEC and FRSC. The Group is currently assessing the impact of these new standards and plans to adopt them on their required effective dates once adopted locally.

- *IFRS 15, Revenue from Contracts with Customers*

IFRS 15 was issued in May 2014 by the IASB and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principals in IFRS 15 provide a more structured approach to measuring and recognizing revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018. Early adoption is permitted.

The Group is engaged in selling activities of real estate projects while construction is in progress or even before it has started. The Group is currently assessing the impact of IFRS 15 and plans to adopt the new standard on the required effective date once adopted locally.

4. Summary of Significant Accounting Policies

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the consideration received or receivable, taking into the account contractually defined terms of payment and excluding taxes or duty.

The following specific recognition criteria must also be met before revenue is recognized:

Rental income

The Group leases its commercial and office real estate properties to others through operating leases. Rental income on leased properties is recognized on a straight-line basis over the lease term and may include contingent rents based on a certain percentage of the gross revenue of the tenants, as provided under the terms of the lease contract. Contingent rents are recognized as revenue in the period in which they are earned.

Real estate sales

Revenue from sales of real estate and cost from completed projects is accounted for using the percentage of completion (POC). In accordance with Philippine Interpretations Committee (PIC) Q&A No. 2006-1, the POC is used to recognize income from sales of projects where the Group has material obligations under the sales contract to complete the project after the property is sold the equitable interest has been transferred to buyer and the costs incurred or to be incurred can be measured reliably. Under the POC method, revenue is recognized as the related obligations are fulfilled, measured principally on the basis of the estimated completion by reference to the actual costs incurred to date over the estimated total costs of project.

Revenue recognition commences when the construction is beyond preliminary stage (i.e., engineering, design work, construction contracts execution, site clearance and preparation, excavation and the building foundation are finished), and the required buyer's equity is met. Buyer's equity represents the percentage of collection over the total selling price that the buyer has paid the Group and it is at this collection level that the Group assesses that it is probable that the economic benefits will flow to the Group because of certainty of collection of the remaining balance of the selling price. This gives the buyer, a stake in the property, the level of which is sufficient enough to mitigate the risks of loss through default which would motivate the buyer to honor its obligations to the Group.

If any of the criteria under the percentage-of-completion method is not met, the deposit method is applied until all the conditions for recording a sale are met. Pending recognition of sale, cash received from buyers are presented under the "Deposits from real estate buyers" account which is shown as part of the "Deposits and other liabilities" account in the liabilities section of the consolidated statement of financial position.

Penalties are recognized as income when cash is received and forfeitures from cancelled sales and reservation fees are recognized as income when the cancellation of sales and reservation fees of buyers has been determined and established.

Amusement income

Revenue is recognized upon rendering of services.

Revenue from hotel operations

Revenue from hotel operations is recognized when services are rendered. Revenue from banquets and other special events are recognized when the events take place. Rental income on leased areas of the hotel is recognized on a straight-line basis over the lease term. Revenue from food and beverage are recognized when these are served. Other income from transport, laundry, valet and other related hotel services are recognized when services are rendered.

Interest income

Interest income is recognized as the interest accrues using the effective interest rate (EIR) method.

Gains

Gains represent other items that meet the definition of income and may, or may not, arise in the course of the ordinary activities of the Group. Gains represent increases in economic benefits and have the same nature as revenue. These are recognized as income when cash is realized.

Costs Recognition

Cost of Real Estate Sales

Cost of real estate sales is recognized consistent with the revenue recognition method applied. Cost of subdivision lots and housing units and condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land and its full development costs, which include estimated costs for future development works, as determined by the Group's in-house technical team.

The cost of inventory recognized in profit or loss on disposal is determined with reference to the specific costs incurred on the property, allocated to saleable area based on relative size and takes into account the percentage of completion used for revenue recognition purposes.

General and Administrative Expense

Costs and expenses are recognized in the consolidated statement of comprehensive income when decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

Costs and expenses are recognized in the consolidated statement of comprehensive income:

- On the basis of a direct association between the costs incurred and the earning of specific items of income;
- On the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association can only be broadly or indirectly determined; or
- Immediately when expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify or cease to qualify, for recognition in the consolidated statement of financial position as an asset.

Commission Expense

The Group recognizes commission expense when services are rendered by the broker and agent. Commission expense is recognized upon receipt of certain level of payment from the buyer comprising a substantial portion of the contract price and the capacity to pay and credit worthiness of buyers have been reasonably established for sales of real estate.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Current and Noncurrent Classification

The Group presents assets and liabilities in consolidated statement of financial position based on current/noncurrent classification. An asset is current when:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within 12 months after reporting date; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after reporting date.

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within 12 months after reporting date; or
- There is no unconditional right to defer the settlement of the liability for at least 12 months after reporting date.

The Group classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities, respectively.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of changes in value.

Financial Instruments - Initial Recognition and Subsequent Recognition

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

'Day 1' difference

Where the transaction price in a non-active market is different to the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the consolidated statement of comprehensive income unless it qualifies for recognition as some other type of asset or liability.

In cases where variables used is made of data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statement of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' difference amount.

Financial Assets

Initial recognition and measurement

Financial assets are classified as either financial assets at fair value through profit or loss (FVPL), loans and receivables, held-to-maturity (HTM) investment, available for sale (AFS) financial assets, or as derivatives designated as hedging instruments in an effective hedge as appropriate. All financial instruments are recognized initially at fair value plus, in the case of financial assets not recorded at FVPL, transaction costs that are directly attributable to the acquisition of financial assets.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

The Group's financial assets are of the nature of loans and receivables as of September 30, 2016 and 2015.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the EIR method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit or loss. The losses arising from impairment are recognized in the statement of profit or loss in finance costs for loans and in cost of sales or other operating expenses for receivables.

The Group's loans and receivables include cash and cash equivalents, receivables and refundable utility deposits included under "Other Current and Noncurrent Assets".

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or,
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of Financial Assets

The Group assesses, at each reporting date, whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event'), has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortized cost

For financial assets carried at amortized cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it

includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original EIR.

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognized in the statement of profit or loss. Interest income (recorded as finance income in the statement of profit or loss) continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans, together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Group. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to finance costs in the statement of profit or loss.

Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and other financial liabilities, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables are presented net of directly attributable debt issue or transaction costs.

The Group's financial liabilities include other financial liabilities as of September 30, 2016 and 2015.

Other Financial Liabilities

After initial recognition, other financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

The Group's other financial liabilities consists of accounts payable and accrued expenses, short-term loans, loans payable, and payable to affiliated companies and deposits from lessees which are both included under "Deposit and other liabilities".

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability

and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Debt Issue Costs

Transaction costs incurred in connection with the availments of long-term debt are deferred and amortized using effective interest method over the term of the related loans.

Customers' Deposits

Deposits from lessees

Deposits from lessees are measured initially at fair value. After initial recognition, customers' deposits are subsequently measured at amortized cost using EIR method.

The difference between the cash received and its fair value is deferred (included in the "Deposits and other liabilities" in the consolidated statement of financial position) and amortized using the straight-line method.

Deposits from real estate buyers

Deposits from real estate buyers represent mainly reservation fees and advance payments. These deposits will be recognized as revenues in the profit or loss as the related obligations are fulfilled to the real estate buyers. The deposits are recorded as "Deposits from real estate buyers" and reported under the "Deposits and other liabilities" account in the consolidated statement of financial position.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Subdivision Land, Condominium and Residential Units for Sale

Subdivision land, condominium and residential units for sale in the ordinary course of business are carried at the lower of cost and net realizable value (NRV). Cost includes land costs, costs incurred for development and improvement of the properties (i.e., planning and design costs, costs of site preparation, contractor's fees and other professional fees, property transfer taxes, construction overheads and other related costs) and borrowing costs on loans directly attributable to the projects which were capitalized during construction.

NRV is the estimated selling price in the ordinary course of business less cost of completion and estimated costs necessary to make the sale.

The cost of inventory recognized in the consolidated statement of comprehensive income is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on the relative size of the property sold.

Prepaid expenses

Prepaid expenses pertain to resources controlled by the Group as a result of past events and from which future economic benefits are expected to flow to the Group.

Value-added Tax (VAT)

Revenues, expenses, assets and liabilities are recognized net of the amount of VAT, except when the VAT incurred on a purchase of assets or services is not recoverable from the taxation

authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item is applicable.

The net amount of VAT recoverable from the taxation authority is included as part of “Other current assets” in the consolidated statements of financial position.

Investment Properties

Investment properties consist of properties that are held to earn rentals or for capital appreciation or both, and that are not occupied by the companies consolidated into the Group. Investment properties, except for land, are carried at cost less accumulated depreciation and amortization and any impairment in value. Land is carried at cost less any impairment in value. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the cost of day to day servicing of an investment property. Investment properties are depreciated and amortized using the straight-line method over their estimated useful lives (EUL) as follows:

	Years
Buildings	20
Building improvements	10
Land improvements	10

The useful life and depreciation and amortization method are reviewed periodically to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of investment properties.

Construction-in-progress (CIP) is stated at cost. This includes cost of construction and other direct costs. Borrowing costs that are directly attributable to the construction of investment properties are capitalized during the construction period. CIP is not depreciated until such time as the relevant assets are in the location and condition necessary for it to be capable of operating in the manner intended by management.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the profit and loss in the period of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by the end of owner occupation, commencement of an operating lease to another party. Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with a view to sale.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization and any impairment in value. The cost of an item of property and equipment includes its purchase price and any cost attributable in bringing the asset to the intended location and working condition. Cost also includes interest and other charges on borrowed funds used to finance the construction of property and equipment to the extent incurred during the period of construction and installation.

Expenditures incurred after the fixed assets have been put into operation, such as repairs and maintenance, are normally charged to expenses in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase

in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment.

Depreciation and amortization commences once the assets are available for use and is calculated on a straight-line basis over the estimated useful life of over the EUL as follow:

	Years
Buildings	20
Building improvements	10
Land improvements	5
Theater furniture and equipment	5
Other equipment	2.5

Assets under construction are transferred to a specific category of property and equipment when the construction and other related activities necessary to prepare the property and equipment for their intended use are completed and the property and equipment are available for service.

Other equipment includes china, glassware, silver and linen on stock used in hotel operations.

The useful life and depreciation and amortization method are reviewed and adjusted, if appropriate, at each financial year-end to ensure that the period and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit and loss in the period the asset is derecognized.

Impairment of Nonfinancial Assets

The Group assesses at each reporting date whether there is an indication that the Group's investment properties and property and equipment may be impaired. If any such indication exists, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is calculated as the higher of an asset's or cash-generating unit's fair value less cost to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets.

Where the carrying amount of an asset exceeds the recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset.

Impairment losses of continuing operations are recognized in the consolidated statement of comprehensive income in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If any such indication exists, the Group makes an estimate of recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying

amount of the asset is increased to the recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the assets in prior periods, such reversal is recognized in the consolidated statement of comprehensive income.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction, or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale, are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Interest and other financing costs incurred during the construction period on borrowings used to finance property development are capitalized as part of development costs (included in “Subdivision Land, Condominium and Residential Units for Sale”, “Properties and Equipment” and “Investment Properties” accounts in the Group’s consolidated statement of financial position). Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Capitalization of borrowing costs ceases when substantially all the activities necessary to prepare the asset for its intended use or sale are complete. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recorded. Capitalized borrowing cost is based on applicable weighted average borrowing rate for those coming from general borrowings.

All other borrowing costs are expensed in the period they occur and is recorded under “Interest expense.”

Equity

Capital stock is measured at par value for all shares issued. When the Group issues more than one capital stock, a separate account is maintained for each class of stock and the number of shares issued.

When the shares are sold at premium, the difference between the proceeds at the par value is credited to “Additional paid-in capital” account. Direct costs incurred related to equity issuance are chargeable to “Additional paid-in capital” account. If additional paid-in capital is not sufficient, the excess is charged against retained earnings.

Retained earnings represent accumulated earnings of the Group less dividends declared. The individual accumulated retained earnings of the subsidiaries are available for dividend distribution when they are declared by the subsidiaries as approved by their respective BOD.

Treasury Stock

Own equity instruments which are acquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in the profit and loss on the purchase, sale, issue or cancellation of the Parent Company’s own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Other equity reserve

Other equity reserve pertains to the difference between the consideration paid and the carrying value of the non-controlling interest acquired.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amounts are those that are enacted or substantively enacted at the reporting date in the countries where the Group operates and generates taxable income.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are earned at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow all as part of the deferred tax and to be recovered. The Group does not recognize deferred income tax assets and deferred tax liabilities that will reverse during the income tax holiday (ITH).

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Pension Expense

The Group has a noncontributory defined benefit plan. The net defined benefit liability or asset is the aggregate of the present value of the defined benefit liability at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plan is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service costs
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuary.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related liabilities). If the fair value of the plan assets is higher than the present value of the defined benefit liability, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit liability is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Termination benefit

Termination benefits are employee benefits provided in exchange for the termination of an employee's employment as a result of either an entity's decision to terminate an employee's employment before the normal retirement date or an employee's decision to accept an offer of benefits in exchange for the termination of employment.

A liability and expense for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of those benefits and when the entity recognizes related restructuring costs. Initial recognition and subsequent changes to termination benefits are measured in accordance with the nature of the employee benefit, as either post-employment benefits, short-term employee benefits, or other long-term employee benefits.

Employee leave entitlement

Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly within twelve months after the end of the annual reporting period is recognized for services rendered by employees up to the end of the reporting period.

Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement at inception date, and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets, and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a. there is a change in contractual terms, other than a renewal or extension of the arrangement;
- b. a renewal option is exercised or an extension granted, unless that term of the renewal or extension was initially included in the lease term;
- c. there is a change in the determination of whether fulfillment is dependent on a specified asset; or
- d. there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for any of the scenarios above, and at the date of renewal or extension period for the second scenario.

Group as a lessee

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as an expense in the profit and loss on a straight-line basis over the lease term. Minimum lease payments are recognized on a straight-line basis while the variable rent is recognized as an expense based on the terms of the leased contract.

Group as a lessor

Leases where the Group retains substantially all the risk and benefits of ownership of the assets are classified as operating leases. Lease payments received are recognized as income in the consolidated statement of comprehensive income on a straight-line basis over the lease term. Contingent rents are recognized as revenue in the period in which they are earned. Indirect costs incurred in negotiating an operating lease are added to the carrying value of the leased asset and recognized over the lease term on the same basis as the lease income.

Leases where the Group transfers substantially all the risk and benefits of ownership of the assets are classified as finance leases. The Group recognizes assets held under a finance lease in their consolidated statement of financial position as a receivable at an amount equal to the net investment in the lease. The lease payments received from the lessee are treated as repayments of principal and finance income. Initial direct costs may include commissions, legal fees and internal costs that are incremental and directly attributable to negotiating and arranging the lease. They are included in the measurement of the net investment in the lease at inception and reflected in the calculation of the implicit interest rate. The recognition of finance income should be based on a pattern reflecting a constant periodic rate of return on the lessor's net investment outstanding in respect of the finance lease.

Joint Operation

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. The Group recognize in relation to its interest in a joint operation its assets, including its share of any assets held jointly; liabilities, including its share of any liabilities incurred jointly; revenue from the sale of its share of the output arising from the joint operation; share of the revenue from the sale of the output by the joint operation; and expenses, including its share of any expenses incurred jointly.

Foreign currencies

The Group's consolidated financial statements are presented in Philippine Peso, which is also the Parent company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Translation for consolidation

On consolidation, the assets and liabilities of foreign operations are translated into Philippine Peso at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognized in the cumulative translation adjustment (CTA) in the statement of comprehensive income. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to profit or loss when the standard permits.

Earnings Per Share (EPS)

Basic EPS is calculated by dividing net income attributable to equity holders of the Parent Company by the weighted average number of common shares outstanding during the year. Diluted EPS is computed by dividing net income attributable to equity holder of the Parent Company by the weighted average number of common shares issued and outstanding during the period after giving effect to assumed conversion of potential common shares.

Operating Segment

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and services and serves different markets. Financial information on business segments is presented in Note 6 to the consolidated financial statements.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed when an inflow of economic benefits is probable.

Events After the Reporting Date

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the consolidated financial statements when material.

5. Significant Accounting Judgments and Estimates

The preparation of the consolidated financial statements in compliance with PFRS requires the Group to make judgment and estimates that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements, as they become reasonably determinable.

Judgments and estimates are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which has the most significant effect on the amounts recognized in the consolidated financial statements.

Revenue and cost recognition on real estate sales

Selecting an appropriate revenue recognition method for a particular real estate sale transaction requires certain judgment based on, among others:

- Buyer's commitment on the sale which may be ascertained through the significance of the buyer's initial investment; and
- Stage of completion of the project.

The Group has set a certain percentage of collection over the total selling price in determining buyer's commitment on the sale. It is when the buyer's investment is considered adequate to meet the probability criteria that economic benefits will flow to the Group.

Operating leases commitments - Group as lessee

The Group has entered into lease contracts to develop commercial or office properties on the leased land premises. Based on an evaluation of the terms and conditions of the arrangements, all the risks and benefits incidental to ownership of the leased land are not transferred to the Group.

Operating lease commitments - Group as lessor

The Group has entered into commercial and office property leases on its investment property portfolio. Based on an evaluation of the terms and conditions of the arrangements, the Group has determined that it retains all the significant risks and rewards of ownership of these properties and accounts for them as operating leases.

A number of the Group's operating lease contracts are accounted for as noncancellable operating leases and the rest are cancellable. In determining whether a lease contract is cancellable or not, the Group considers, among others, the significance of the penalty, including the economic consequence to the lessee.

Finance lease commitments - Group as lessor

The Group has entered into property leases on some of its real estate condominium unit property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, particularly the bargain purchase option and minimum lease payments, that the Group has transferred all the significant risks and rewards of ownership of these properties to the lessee and accounts for them as finance leases.

Distinction between investment properties and owner-occupied properties

The Group determines whether a property qualifies as investment property. In making its judgment, the Group considers whether the property is not occupied substantially for use by, or in operations of the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. Owner-occupied properties are attributable not only to the main property but also to the other assets used in the supply process.

Some properties are held to earn rentals or for capital appreciation and other properties are held for use in rendering of services or for administrative purposes. If these portions cannot be sold separately, the property is accounted for as investment property only if an insignificant portion is held for use in providing services or for administrative purposes. Judgment is applied in determining whether ancillary services are so significant that a property does not qualify as investment property. The Group considers each property separately in making its judgment.

Distinction between subdivision land (inventory) and land and land improvements (investment property)

The Group determines whether a property will be classified as “Subdivision land” or “Land and land improvements”. In making this judgment, the Group considers whether the property will be sold in the normal operating cycle (Subdivision land) or whether it will be retained as part of the Group’s strategic land banking activities for future development or sale which are yet to be finalized by the Group (Investment property).

Contingencies

The Group is currently involved in various legal proceedings and tax assessments. The estimate of the probable costs for the resolution of these claims has been developed in consultation with the internal and external counsel handling the defense on these matters and is based upon an analysis and judgment of potential results by the management. The Group currently does not believe these proceedings will have a material effect on the Group’s financial position. It is possible, that future results of operations could be materially affected by changes in the judgement or in the effectiveness of the strategies relating to these proceedings (see Note 34).

Estimates

The key estimates concerning the future and other key sources of estimation uncertainty at the reporting date that has a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed below.

Revenue and cost recognition

The Group’s revenue recognition policies require management to make use of estimates and assumptions that may affect the reported amounts of revenue and costs. The Group’s revenue and cost from real estate is recognized based on the percentage of completion measured principally on the basis of the estimated completion by reference to the actual costs incurred to date over the estimated total costs of the project. For the year ended September 30, 2016, 2015 and 2014, the real estate sales amounted to ₱7,194 million, ₱6,313 million and ₱5,647 million, respectively while cost of sales amounted to ₱3,982 million, ₱3,207 million and ₱3,071 million, respectively.

Allowance for impairment losses

The Group maintains allowance for impairment losses at a level considered adequate to provide for potential uncollectible receivables. The level of this allowance is evaluated by management based on the factors that affect the collectability of the accounts. For rental activities, these factors include, but are not limited to, the length of the Group’s relationship with the tenant, the tenant’s payment behavior and other known market factors. For real estate sales activities, these factors include the fact that title of the real estate properties will only transfer to the buyer if the receivables are fully settled and paid. The Group recognizes impairment losses based on the results of the specific/individual and collective assessment of its credit exposures.

The related balances follow (see Note 8):

	2016	2015
Receivables	₱10,069,753,795	₱7,775,943,787
Allowance for impairment losses	47,676,601	46,042,217

Useful lives of investment properties and property and equipment

The Group estimates the useful lives of the depreciable investment properties and property and equipment based on the period over which the assets are expected to be available for use. The Group reviews periodically the estimated useful lives of investment properties and property and equipment based on factors that include asset utilization, internal technical evaluation,

technological changes, environmental and anticipated use of the assets. It is possible that future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned. A reduction in the estimated useful lives of investment properties and property and equipment would increase the recorded depreciation and amortization expense and decrease the related asset accounts.

The related balances follow:

	2016	2015
Investment properties, excluding land (Note 11)		
Cost	₱67,979,470,213	₱58,400,974,146
Accumulated depreciation and amortization	24,323,342,677	21,341,700,039
Property and equipment (Note 12)		
Cost	9,611,961,132	8,074,510,249
Accumulated depreciation and amortization	5,152,345,180	4,567,292,833

Evaluation of net realizable value of real estate inventories

The Group adjusts the cost of its real estate inventories to net realizable value based on its assessment of the recoverability of the inventories. NRV for completed real estate inventories is assessed with reference to market conditions and prices existing at the reporting date and is determined by the Group in light of recent market transactions. NRV in respect of real estate inventories under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction and less estimated costs to sell. The amount and timing of recorded expenses for any period would differ if different judgments were made or different estimates were utilized.

As of September 30, 2016 and 2015, the Group's subdivision land, condominium and residential units for sale amounted to ₱25,849 million and ₱15,475 million, respectively (see Note 9).

Impairment of nonfinancial assets

The Group assesses the impairment of assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's net selling price and value in use. The net selling price is the amount obtainable from the sale of an asset in an arm's length transaction while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs.

In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Group is required to make estimates and assumptions that can materially affect the consolidated financial statements.

As of September 30, 2016 and 2015, the Group's investment properties amounted to ₱71,902 million and ₱64,016 million, respectively (see Note 11). The Group's property and equipment amounted to ₱4,460 million and ₱3,507 million as of September 30, 2016 and 2015, respectively (see Note 12).

The Group has no impairment of nonfinancial assets as of September 30, 2016 and 2015.

Recognition of deferred tax assets

Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that sufficient taxable income will be available against which the deductible temporary differences can be utilized. Significant management estimate is required to determine the amount of deferred tax asset that can be recognized, based upon the likely timing and level of future taxable income together with future tax planning. Deferred tax assets as of September 30, 2016 and 2015 amounted to ₱790 million and ₱716 million, respectively (see Note 27).

The Group has deductible temporary difference that is available for offset against taxable income or tax payable which deferred tax asset has not been recognized. This pertains to NOLCO of subsidiaries amounting to ₱4 million and ₱3 million as of September 30, 2016 and 2015, respectively. The related deferred tax assets amounted to ₱1 million as of September 30, 2016 and 2015 (see Note 27).

As of September 30, 2016 and 2015, the Group operates a hotel and has certain residential projects which enjoy the benefits of an ITH. As such, no deferred tax assets were set up on certain gross deductible temporary differences that are expected to reverse within the ITH period (see Note 33).

Pension cost

The determination of the obligation and cost of pension benefits is dependent on the selection of certain assumptions used in calculating such amounts. Those assumptions include, among others, discount rates and salary increase rates (see Note 29).

The cost of defined benefit pension plan and the present value of the pension liabilities are determined using actuarial valuations. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit liability. Future salary increases are based on expected future inflation rates and other relevant factors. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of Philippine government bonds with terms consistent with the expected employee benefit payout as of reporting date.

As of September 30, 2016 and 2015, the Group's present value of defined benefit obligations is shown in Note 29.

6. Operating Segments

Business Segments

The business segment is determined as the primary segment reporting format as the Group's risks and rates of return are affected predominantly by each operating segment.

Management monitors the operating results of its operating segments separately for the purpose of making decision about resource allocation and performance assessment. Group financing (including interest income and interest expense) and income taxes are managed on a group basis and are not allocated to operating segments. The Group evaluates performance based on earnings before interest, income tax, depreciation and amortization and other income(losses) (EBITDA). The Group does not report its results based on geographical segments because the Group currently only has revenue generating activities in the Philippines as the real estate development in China is still in the pre-operating stage.

The financial information on the operations of these business segments as shown below are based on the measurement principles that are similar with those used in measuring the assets, liabilities, income and expenses in the consolidated financial statements which is in accordance with PFRS except for EBITDA.

Cost and expenses exclude interest, taxes, depreciation and amortization.

The Group derives its revenue from the following reportable units:

Commercial Center Division - develops leases and manages shopping malls/commercial centers all over the Philippines.

Residential Division - develops and sells residential condominium spaces, as well as high-end horizontal residential projects.

Office Buildings Division - develops and leases out office spaces.

Hotel Division - owns and operates a chain of hotels in various locations in the Philippines.

The financial information about the operations of these business segments is summarized as follows:

The revenue of the Group consists mainly of sales to domestic customers. Inter-segment revenue accounted for under PFRS and on an arm's length basis arising from lease arrangements amounting ₱67 million, ₱55 million and ₱47 million in 2016, 2015 and 2014, respectively, are eliminated in consolidation.

The carrying amount of assets located outside the Philippines amounted to ₱10,098 million as of September 30, 2016.

No operating segments have been aggregated to form the above reportable segments. Capital expenditures consists of additions to property and equipment and investment properties.

Significant customers in lease arrangements under commercial center division include the affiliated entities (see Note 20). Rental income arising from the lease of commercial properties to affiliated companies which are not part of the Group and therefore not eliminated amounted to about ₱2,181 million, ₱1,877 million and ₱1,630 million in 2016, 2015 and 2014, respectively.

The following table shows a reconciliation of the total EBITDA to total income before income tax:

	2016	2015	2014

Balances at end of year	₱25,849,498,584	₱15,474,711,341

Borrowing cost capitalized amounted to ₱376 million and ₱66 million in 2016 and 2015, respectively. The capitalization rate used to determine the amount of borrowing costs eligible for capitalization in 2016 and 2015 is 4.45% and 4.54%, respectively. These amounts were included in the construction and development costs incurred (see Notes 11 and 16).

The amount of subdivision land, condominium and residential units for sale recognized as cost of sales in the consolidated statement of comprehensive income amounted to ₱3,982 million, ₱3,207 million and ₱3,071 million for the years ended September 30, 2016, 2015 and 2014, respectively (see Note 22).

On September 18, 2015, the Group paid the Chinese Government bid deposit amounting to ₱1,440 million to join the bidding for the purchase of land rights located in Chengdu Province, China. The bid deposit was presented as “Deposit for land use right” as of September 30, 2015 (see Note 13). On October 20, 2015, the Contract for Assignment of the Rights to the Use of State-Owned Land was awarded to the Group.

In May 2016, the Masterplan had been completed which was submitted for approval to the Chinese government in the same month. The estimated time of approval from Chinese government will be in first quarter of 2017, and the project will take around 5 years to be completed.

Under the Contract, the Group is entitled to transfer, lease, mortgage all or part of the state-owned construction land use right to a third party. Upon receipt of the Certificate of State-owned Land Use Right Assignment, the land title will be subdivided into Individual Property Titles which will be issued to unit owners one year after completion of the development and turn-over of the units to the buyers. When all or part of the state-owned construction land use right is transferred, through sale of commercial units and high-rise condominium units to buyers, the rights and obligations specified in the Contract and in the land registration documents shall be transferred accordingly to the buyer. The use term will be the remaining years as of the date of transfer based on the original use term specified in the Contract.

When the use term under the Contract expires (residential: 70 years and commercial: 40 years) and the land user continues using the assigned land under the Contract, an application for renewal shall be submitted to the Chinese government not less than one (1) year prior to the expiration of the use term.

There are no subdivision land, condominium and residential units for sale as of September 30, 2016 and 2015 that are pledged as security to liabilities.

Investment properties consisted mainly of land held for appreciation, shopping malls/commercial centers and office buildings that are held to earn rentals.

In 2016, the Group transferred ₱113 million worth of investment properties to subdivision land, condominium and residential units for sale for the Group's residential project and in 2015, ₱1,264 million worth of subdivision land, condominium and residential units for sale were transferred to investment properties (see Note 9).

For the year ended September 30, 2016 and 2015, ₱39 million and ₱268 million net cost of investment properties were transferred to property and equipment for use in operations of the Group (see Note 12).

In 2016, the Group transferred ₱110 million worth of other current assets to investment properties.

Depreciation and amortization expense charged to operations amounted to ₱2,982 million, ₱2,633 million and ₱2,309 million for the years ended September 30, 2016, 2015 and 2014, respectively (see Notes 22 and 24).

Borrowing costs capitalized amounted to about ₱447 million and ₱881 million in 2016 and 2015, respectively. These amounts were included in the consolidated statement of cash flows under additions to investment properties. The capitalization rate used to determine the amount of borrowing costs eligible for capitalization in 2016 and 2015 is 4.45% and 4.54%, respectively.

The fair value of investment properties which has been determined based on valuations performed by independent professional qualified appraisers exceeds its carrying cost. The fair value represents the amount at which the assets could be exchanged between a knowledgeable, willing buyer and a knowledgeable, willing seller in an arm's length transaction at the date of valuation.

The fair value as of September 30, 2016 and 2015 amounted to ₱174,087 million and ₱163,577 million, respectively, which are based on independent third party appraisal reports, dated September 30, 2013 which are updated by the management for 2015 and 2016.

The fair value of the investment properties was arrived at using Income Approach in 2016 and 2015. The income approach, is based on the premise that the value of a property is directly related to the income it generates. This approach converts anticipated future gains to present worth by projecting reasonable income and expenses for the subject property.

The fair value of the investment properties disclosed in the consolidated financial statements is categorized within level 3 of the fair value hierarchy.

Description of valuation techniques used and key inputs to valuation on malls and office buildings included under investment properties as of September 30, 2016 and 2015 follows:

Property	Valuation technique	Significant unobservable inputs	Range (weighted average)
Malls	DCF method	discount rate	10%
		capitalization rate	8.0%-9.0%
		growth rate	0.0%-17.0%
		occupancy rate	72.0%-100.0%
Office buildings	DCF method	discount rate	10.0%
		capitalization rate	7.5%
		growth rate	4.0%-10%
		occupancy rate	35.0%-100.0%

The discounted cash flows, or DCF, valuation uses a fundamental approach in valuing the future economic benefits of a projected income stream.

The valuation process significantly consists of the following steps:

- Estimation of the revenues generated;
- Estimation of the costs and expenses related to the operations of the development;
- Estimation of an appropriate discount rate and other significant assumptions; and
- Discounting process using an appropriate discount rate to arrive at an indicative market value

Rental income derived from investment properties amounted to ₱10,556 million, ₱9,288 million, and ₱7,956 million for the years ended September 30, 2016, 2015 and 2014, respectively (see Note 21).

Property operations and maintenance costs arising from investment properties amounted to ₱504 million, ₱395 million and ₱369 million for the years ended September 30, 2016, 2015 and 2014, respectively (see Note 22).

There are no investment properties as of September 30, 2016 and 2015 that are pledged as security to liabilities.

In 2016, the Group transferred subdivision land, condominium and residential units for sale to property and equipment amounting ₱50 million (see Note 9).

Depreciation and amortization expense charged to operations amounted to ₱590 million, ₱517 million and ₱423 million for the years ended September 30, 2016, 2015 and 2014, respectively (see Notes 22 and 24).

The following are the costs of property and equipment that are fully depreciated as of September 30, 2016 and 2015 but still used in operations:

	2016	2015
Building and improvements	₱637,223,766	₱626,351,142
Other equipment	232,872,426	209,849,927
Land improvements	698,241	698,241
	₱870,794,433	₱836,899,310

There are no property and equipment items as of September 30, 2016 and 2015 that are pledged as security to liabilities.

13. Other Noncurrent Assets

	2016	2015
Advances to suppliers and contractors	₱890,750,324	₱522,140,862
Utility deposits (Notes 31 and 32)	605,906,349	502,712,451
Prepaid rent	432,867,917	462,689,924
Advances to lot owners (Note 30)	190,078,577	190,078,577
Deposit for land use right	–	1,441,097,460
Others	90,586,649	81,917,868
	₱2,210,189,816	₱3,200,637,142

Advances to suppliers and contractors represent advance payment to suppliers or contractors which will be applied against the final billing.

Utility deposits consist primarily of bid bonds and meter deposits. These are deposits to utility companies in order to continue the availment of their services.

Prepaid rent pertains to advance rentals of the 25-year operating lease agreement between Bases Conversion and Development Authority (BCDA) and ASNC (a wholly-owned subsidiary). The contract is for the long-term and development of approximately 5,000 sqm Lawton Corporate Center along Lawton Avenue, Bonifacio South, Taguig City. Subsequently, the said contract was assigned to the Parent Company through a Deed of Assignment wherein ASNC assigns all its rights, interests, and obligations on the contract of lease with approval of BCDA as provided for under the contract.

Upon the expiration of the initial lease period, the Parent Company has the option to purchase the property or to renew its lease term. Should the Parent Company exercise its option to purchase the property, the purchase price shall be based on the fair market value including the permanent improvements. Otherwise, the ownership of all buildings and permanent improvements constructed by the Parent Company on the property shall automatically be transferred to BCDA.

Therefore, should the Parent Company opt to renew its lease over the property, the new lease rate for the 25-year extension period shall cover the land as well as the buildings and permanent improvements transferred to BCDA. The fixed lease for the initial year of the lease extension period shall be 5% of the average fair market value of the property on the 25th year of the lease including the permanent improvements constructed therein.

Advances to lot owners consist of advance payments to land owners which will be applied against the acquisition cost of the real properties that will be acquired.

Deposit for land use right pertains to bid deposit advanced for the acquisition of land use right of a property located in Chengdu Province, China. This was reclassified as part of subdivision land, condominium and residential units for sale upon submission of the masterplan to the Chinese government last May 2016 (see Note 9).

Others include deposit to various joint venture partners representing share in an ongoing real estate development which will be liquidated at the end of joint venture agreement. This deposit will be realized through the Group's share in the completed units or share in the sales proceeds of the units, depending on the agreement with the other party.

14. Accounts Payable and Accrued Expenses

	2016	2015
Accounts payable	₱5,124,929,438	₱3,301,667,947

Other accrued payable	161,807,699	159,228,366
	₱7,935,993,181	₱5,904,742,249

Accounts payable mainly includes unpaid billings from suppliers and contractors related to construction activities.

Taxes and licenses payable, accrued salaries and wages, accrued interest payable and accrued contracted services are normally settled within one (1) year.

Accrued rent expense represents accrual for film rentals.

Other accrued payable includes insurance payable and accrued utilities.

15. Deposits and Other Current Liabilities

	2016	2015
Deposits from lessees (Notes 17, 31 and 32)	₱1,718,651,535	₱1,674,062,682
Deposits from real estate buyers (Note 17)	2,400,490,000	1,336,361,420
Payables to affiliated companies (Notes 20, 31 and 32)	130,906,253	115,024,457
Others	172,851,707	185,410,000
	₱4,422,899,495	₱3,310,858,559

Deposits from lessees (including noncurrent portion shown in Note 17) represent cash received in advance equivalent to three (3) to six (6) month rent which shall be refunded to lessees at the end of lease term. These are initially recorded at fair value, which was obtained by discounting its future cash flows using the applicable rates of similar types of instruments. The accretion expense on these deposits, recognized in “others” under cost of rental services, amounted to ₱67 million, ₱64 million and ₱78 million in 2016, 2015 and 2014, respectively (see Notes 22 and 26).

Included in the ‘Deposit from lessees’ are unearned rental income amounting to ₱281 million and ₱249 million as of September 30, 2016 and 2015, respectively. The rental income on amortization of unearned rental income included in “Rental income” amounted to ₱67 million, ₱63 million and ₱77 million in 2016, 2015 and 2014, respectively.

Deposits from real estate buyers (including noncurrent portion shown in Note 17) represent cash received in advance which shall be applied against the total contract price as soon as the contractual obligation of the real estate buyer has begun.

Deposits from real estate buyers also include cash collections in excess of the installment contract receivables recognized under the percentage-of-completion method.

For the nature, terms and conditions of the payables to affiliated companies please refer to Note 20 to the consolidated financial statements.

Others pertain to amount payable to the Parent Company's co-stockholders in its subsidiaries.

Treasury Shares

On October 22, 2009, the Parent Company's BOD approved the creation and implementation of a share buy-back program allotting up to ₱1,000 million to reacquire a portion of the Parent Company's issued and outstanding common shares, representing approximately 3.1% of current market capitalization.

As of September 30, 2016, the Parent Company has a total of 17,698,000 treasury shares with a total purchase price of ₱222 million at an average price of ₱12.53 per share.

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to these ratios in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital structure or issue capital securities. No changes have been made in the objective, policies and processes as they have been applied in previous years.

The Group monitors its use of capital structure using a debt-to-capital ratio which is gross debt divided by total equity. The Group includes within gross debt all interest-bearing loans and borrowings, while capital represents total equity. Following is a computation of the Group's debt-to-capital ratio as of September 30, 2016 and 2015.

	2016	2015
(a) Loans payable (Note 16)	₱37,539,100,000	₱25,048,897,460
(b) Capital	₱61,342,712,563	₱56,660,206,908
(c) Debt-to-capital ratio (a/b)	0.61:1	0.44:1

The Group's policy is to limit the debt-to-capital ratio at the 1.5:1 level. This policy is consistent with the requirements under the Group's debt covenants with lenders.

Other Equity Reserve

On March 6, 2013, the Parent Company acquired the remaining 20% non-controlling interest in Altus San Nicolas Corp. (ASNC), increasing its ownership interest from 80% to 100%. Cash consideration of ₱198 million was paid to the non-controlling shareholders. The total carrying value of the net assets of ASNC at the date of acquisition was ₱578 million, and the 20% equivalent of the carrying value of the remaining non-controlling interest acquired was ₱111 million. The difference of ₱87 million between the consideration and the carrying value of the interest acquired was booked in "Other equity reserve" account within equity.

20. Related Party Transactions

Related party transactions are made under the normal course of business. Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions; and the parties are subject to common control or common significant influence. Affiliates are entities that are owned and controlled by the Ultimate Parent Company and neither a subsidiary or associate of the Group. These affiliates are effectively sister companies of the Group by virtue of ownership of the Ultimate Parent Company. Related parties may be individuals or corporate entities.

There were no potential dilutive shares in 2016, 2015 and 2014.

29. Employee Benefits

Pension Plans

The Group has funded, noncontributory, defined benefit pension plans covering all of its regular employees.

It provides benefits based on a number of month's salary for every year of service. Under the existing regulatory framework, Republic Act 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The pension funds are being administered and managed through JG Summit Multi-Employer Retirement Plan (the “Plan”), with Robinsons Bank Corporation (RBC) as Trustee. The plans provide for retirement, separation, disability and death benefits to their members. The Group, however, reserves the right to discontinue, suspend or change the rates and amounts of their contributions at any time on account of business necessity or adverse economic conditions. The retirement plan has an Executive Retirement Committee, which is mandated to approve the plan, trust agreement, investment plan, including any amendments or modifications thereto, and other activities of the Plan. Certain members of the BOD of the Parent Company are represented in the Executive Retirement Committee. RBC manages the plan assets based on the mandate as defined in the trust agreement.

The components of pension expense (included in “Personnel expenses” under “Costs and General and administrative expenses” in the consolidated statements of comprehensive income) follow:

	2016	2015	2014
Service cost	₱32,296,274	₱29,575,052	₱28,555,085

Accrued trust and management fee payable	(9,456)	(5,899)
	₱151,524,899	₱128,885,679

The composition of the fair value of the Fund includes:

- *Cash and cash equivalents* - include savings and time deposit with various banks and special deposit account with Bangko Sentral ng Pilipinas.
- *Investment in debt instruments* - include investment in long-term debt notes and retail bonds issued by locally listed entities.
- *Accrued interest receivable and other receivable* - include interest earned from investments and receivable from affiliated companies.
- *Accrued trust and management fee payable* - pertains mainly to charges of trust or in the management of the plan.

The fund has no investment in the Parent Company as of September 30, 2016, 2015 and 2014.

The plan assets have diverse investments and do not have any concentration risk.

The management performs an asset-liability matching strategy annually. The overall investment policy and strategy of the Group's defined benefit plans is guided by the objective of achieving an investment return which, together with contributions, ensures that there will be sufficient assets to pay pension benefits as they fall due while also mitigating the various risk of the plans.

The overall expected rates of return on assets are based on the market expectations prevailing as at the reporting date, applicable to the period over which the obligation is settled.

The Group expects to contribute ₱42 million to the defined benefit pension plans in 2016.

The average duration of the defined benefit obligation of the Group as of September 30, 2016 and 2015 is 15 years.

The principal assumptions used to determine the pension benefits of the Group follow:

	2016	2015	2014
Discount rate	3.93% to 4.85%	4.65%	4.52% to 5.02%
Rate of salary increase	5.00%	5.00%	5.50%

There are no unusual or significant risks to which the Plan exposes the Group. However, in the event a benefit claim arises under the Retirement Plan and the Retirement Fund is not sufficient to pay the benefit, the unfunded portion of the claim shall immediately be due and payable from the Group to the Retirement Fund.

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the retirement benefit obligation as of September 30, 2015, assuming if all other assumptions were held constant. The balances below show the addition/reduction in pension obligation assuming assumptions are changed:

		Increase (decrease) on pension liabilities	
		2016	2015
Discount rates	+1.00%	(₱41,523,152)	(₱29,238,214)
	-1.00%	48,094,773	33,636,983
Salary increase rates	+1.00%	₱44,969,563	₱32,053,384
	-1.00%	(39,848,946)	(28,504,312)

Shown below is the maturity analysis of the undiscounted benefit payments of the Group:

	2016	2015

More than 20 years	379,998,070	281,247,087

30. Interest in Joint Operations

The Group has entered into joint venture agreements with various landowners and other companies with various percentage interests in these joint operations depending on the value of the land or investment against the estimated development costs. These joint venture agreements entered into by the Group relate to the development and sale of subdivision land, condominium and residential units, with certain level of sharing in the proceeds of sale of developed units.

The Group's joint venture agreements typically require the joint venture partner to contribute the land free from any lien, encumbrance and tenants or informal settlers to the project, with the Group bearing all the cost related to the land development and the construction of subdivision land, condominium and residential units, including the facilities.

Sales and marketing costs are allocated to both the Group and the joint operations partner. The projects covering the joint venture agreement are expected to be completed within two to three years. Each joint operations party has committed to contribute capital based on the terms of the joint venture agreement.

Interest in joint projects with Harbour Land Realty and Development Corp and Federal Land, Inc. (Jointly Controlled Operations)

On February 7, 2011, the Parent Company entered into a joint venture agreement with Harbour Land Realty and Development Corp (HLRD) and Federal Land, Inc. (FLI) to develop a project called Axis Residences located along Pioneer Street in Mandaluyong City. The construction of the planned 2-phase residential condominium has commenced in March 2012. One tower of first phase was completed on September 2015.

The agreed contributions of the parties follow:

- a. The Parent Company: Road lot valued at ₱89 million and development costs amounting ₱1,390 million
- b. FLI: Development costs amounting ₱739 million
- c. HLRD, an affiliate of FLI: Four (4) adjoining parcels of land valued at ₱739 million located along Pioneer St., Mandaluyong City, 21,109 sqm

Further, the sharing of saleable units (inventories) of real estate revenue, cost of real estate sales and any common expenses incurred, are as follows: the Parent Company-50% and FLI-50%.

31. Financial Risk Management Objectives and Policies

The Group's principal financial instruments, comprise of loans payable, receivables from affiliated companies, payables to affiliated companies, receivables and cash and cash equivalents. The main purpose of these financial instruments is to raise fund for the Group's operations. The Group has various other financial assets and liabilities such as trade and other receivables and trade and other payables, which arise directly from its operations.

The main risks currently arising from the Group's financial instruments are foreign currency market risk, liquidity risk, interest rate risk and credit risk. The BOD reviews and approves policies for managing each of these risks and they are summarized below, together with the related risk management structure.

Risk Management Structure

The Group's risk management structure is closely aligned with that of the Parent Company. The BOD of the Parent Company and the respective BODs of each subsidiary are ultimately responsible for the oversight of the Group's risk management processes that involve identifying, measuring, analyzing, monitoring and controlling risks.

The risk management framework encompasses environmental scanning, the identification and assessment of business risks, development of risk management strategies, design and implementation of risk management capabilities and appropriate responses, monitoring risks and risk management performance, and identification of areas and opportunities for improvement in the risk management process.

Each BOD has created the board-level Audit Committee (AC) to spearhead the managing and monitoring of risks.

Audit Committee

The AC shall assist the Group's BOD in its fiduciary responsibility for the over-all effectiveness of risk management systems, and both the internal and external audit functions of the Group. Furthermore, it is also the AC's purpose to lead in the general evaluation and to provide assistance in the continuous improvements of risk management, control and governance processes.

The AC also aims to ensure that:

- a. financial reports comply with established internal policies and procedures, pertinent accounting and audit standards and other regulatory requirements;
- b. risks are properly identified, evaluated and managed, specifically in the areas of managing credit, market, liquidity, operational, legal and other risks, and crisis management;
- c. audit activities of internal and external auditors are done based on plan, and deviations are explained through the performance of direct interface functions with the internal and external auditors; and
- d. the Group's BOD is properly assisted in the development of policies that would enhance the risk management and control systems.

Enterprise Risk Management Group (ERMG)

To systematize the risk management within the Group, the ERMG was created to be primarily responsible for the execution of the enterprise risk management framework. The ERMG's main concerns include:

- a. recommending risk policies, strategies, principles, framework and limits;
- b. managing fundamental risk issues and monitoring of relevant risk decisions;
- c. providing support to management in implementing the risk policies and strategies; and
- d. developing a risk awareness program.

Support groups have likewise been created to explicitly manage on a day-to-day basis specific types of risks like trade receivables, supplier management, etc.

Compliance with the principles of good corporate governance is also one of the objectives of the BOD. To assist the BOD in achieving this purpose, the BOD has designated a Compliance Officer who shall be responsible for monitoring the actual compliance with the provisions and requirements of the Corporate Governance Manual and other requirements on good corporate governance, identifying and monitoring control compliance risks, determining violations, and recommending penalties on such infringements for further review and approval of the BOD, among others.

Risk Management Policies

The main risks arising from the use of financial instruments are foreign currency risk, liquidity risk, interest rate risk, credit risk and equity price risk. The Group's policies for managing the aforementioned risks are summarized below.

Market risk

Foreign Currency Risk

Foreign currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises from financial instruments that are denominated in United States Dollar (USD) which result primarily from movement of the Philippine Peso (PHP) against the USD.

The Group does not have any foreign currency hedging arrangements.

The table below summarizes the Group's exposure to foreign currency risk:

	September 30			
	2016		2015	
Assets				
Cash and cash equivalents	\$8,749,344	₱422,243,318	\$452,009	₱21,212,782
Liabilities				
Accounts payable and accrued expenses	482,830	23,301,362	100,410	4,712,251
Net foreign currency-denominated assets	\$8,266,514	₱398,941,956	\$351,599	₱16,500,531

The exchange rates used to translate the Group's USD-denominated assets and liabilities as of September 30, 2016 and 2015 follow:

	2016	2015
US Dollar - Philippine Peso exchange rate	₱48.26 to US\$1.00	₱46.93 to US\$1.00

The following table sets forth the impact of the range of reasonably possible changes in the USD-PHP exchange rate on the Group's income before income tax for the year ended September 30, 2016 and 2015.

Reasonably Possible Changes in USD-PHP Exchange Rates	Change in Income Before Income Tax
2016	
2.0% PHP appreciation	(₱7,978,839)
2.0% PHP depreciation	7,978,839
2015	
2.0% PHP appreciation	(₱330,011)
2.0% PHP depreciation	330,011

Sensitivity to foreign exchange rates is calculated on the Group's foreign currency denominated assets and liabilities, assuming a more likely scenario of foreign exchange rate of USD-PHP that can happen within 12 months after reporting date using the same balances of financial assets and liabilities as of reporting date.

The Group does not expect the impact of the volatility on other currencies to be material.

Liquidity risk

Liquidity risk is the risk arising from the shortage of funds due to unexpected events or transactions. The Group manages its liquidity profile to be able to finance the capital expenditures and service the maturing debts. To cover the financing requirements, the Group intends to use internally generated funds and proceeds from debt and equity offerings.

The following table summarizes the maturity profile of the Group's financial assets and financial liabilities as of September 30, 2016 and 2015, based on contractual undiscounted cash flows. The table also analyses the maturity profile of the Group's financial assets in order to provide a complete view of the Group's contractual commitments. The analysis into relevant maturity groupings is based on the remaining period at the end of the reporting period to the contractual maturity dates.

Balances due within six (6) months equal their carrying amounts, as the impact of discounting is insignificant.

The Group seeks to manage its liquidity profile to be able to service its maturing debts and to finance capital requirements. The Group maintains a level of cash and cash equivalents deemed

sufficient to finance operations. As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund-raising activities. Fund-raising activities may include bank loans and capital market issues both onshore and offshore.

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk for changes in market interest rates relates primarily to the Group's long-term debt obligation with a floating interest rate.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debts, whenever it's advantageous to the Group. As of September 30, 2016 and 2015, 100% of the Group's loans payable are at a fixed rate of interest.

The Group has no financial instruments with variable interest rates exposed to interest rate risk as of September 30, 2016 and 2015.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily from cash and cash equivalents and receivables).

The Group trades only with recognized, creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis. These measures result in the Group's exposure to impairment loss as not significant.

With respect to credit risk arising from the Group's financial assets, which comprise of cash and cash equivalents and receivables, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

a. Credit risk exposure

The table below shows the gross maximum exposure to credit risk of the Group as of September 30, 2015, and 2014 without considering the effects of collaterals and other credit risk mitigation techniques:

	2016	2015
Cash and cash equivalents (net of cash on hand)	₱1,120,767,257	₱1,167,730,897
Receivables - net		
Trade receivables		
Installment contract receivable	8,198,622,057	6,197,079,304
Accrued rent receivable	721,628,537	518,174,550
Rental receivables	651,916,299	406,863,718
Hotel operations	176,201,938	193,412,713
Affiliated companies	17,561,348	22,478,004
Other receivables	256,147,015	391,893,281
Other assets		
Utility deposits	613,037,932	508,098,523
	₱11,755,882,383	₱9,405,730,990

The credit risk on installment contracts receivables is mitigated because the corresponding title to the subdivision units sold under this arrangement is transferred to the buyers only upon full payment of the contract price.

b. Risk concentrations of the maximum exposure to credit risk

Concentrations arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographical location. Such credit risk concentrations, if not properly managed, may cause significant losses that could threaten the Group's financial strength and undermine public confidence. Given the Group's diverse base of counterparties, it is not exposed to large concentrations of credit risks.

c. Credit quality per class of financial assets

The table below shows the credit quality by class of financial assets as of September 30, 2016, and 2015, gross of allowance for credit and impairment losses:

High grade cash and cash equivalents are short-term placements and working cash fund placed, invested, or deposited in foreign and local banks belonging to the top ten (10) banks, including an affiliate bank, in the Philippines in terms of resources, profitability and credit standing.

High grade accounts, other than cash and cash equivalents, are accounts considered to be of high value. The counterparties have a very remote likelihood of default and have consistently exhibited good paying habits. Receivable from installment contract receivables are considered high grade as title of the real estate property of the subject receivable passes to the buyer once fully paid. Standard grade accounts are active accounts with propensity of deteriorating to mid-range age buckets. These accounts are typically not impaired as the counterparties generally respond to credit actions and update their payments accordingly.

Substandard grade accounts are accounts which have probability of impairment based on historical trend. These accounts show propensity to default in payment despite regular follow-up actions and extended payment terms.

d. Impairment assessment

The Group recognizes impairment losses based on the results of the specific/individual and collective assessment of its credit exposures. Impairment has taken place when there is a presence of known difficulties in the servicing of cash flows by counterparties, infringement of the original terms of the contract has happened, or when there is an inability to pay principal or interest overdue beyond a certain threshold. These and the other factors, either singly or in tandem with other factors, constitute observable events and/or data that meet the definition of an objective evidence of impairment.

The two methodologies applied by the Group in assessing and measuring impairment include: (1) specific/individual assessment and (2) collective assessment.

Under specific/individual assessment, the Group assesses each individually significant credit exposure for any objective evidence of impairment, and where such evidence exists, accordingly calculates the required impairment. Among the items and factors considered by the Group when assessing and measuring specific impairment allowances are: (a) the timing of the expected cash flows; (b) the projected receipts or expected cash flows; (c) the going concern of the counterparty's business; (d) the ability of the counterparty to repay its obligations during financial crises; (e) the availability of other sources of financial support; and (f) the existing realizable value of collateral. The impairment allowances, if any, are evaluated as the need arises, in view of favorable or unfavorable developments.

With regard to the collective assessment of impairment, allowances are assessed collectively for losses on receivables that are not individually significant and for individually significant receivables when there is no apparent evidence or not yet objective of individual impairment. A particular portfolio is reviewed on a periodic basis, in order to determine its corresponding appropriate allowances. The collective assessment evaluates and estimates the impairment of the portfolio in its entirety even though there is no objective evidence of impairment on an individual assessment.

32. Financial Instruments

The carrying amount of cash and cash equivalents, trade receivables (except installment contract receivables), other receivables, utility deposits, receivable and payable to affiliated companies and accounts payable and accrued expenses are approximately equal to their fair value due to the short-term nature of the transaction.

Set out below is a comparison of carrying amounts and fair values of installment contracts receivables, deposits from lessees and loans payable that are carried in the consolidated financial statements.

	2016		2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Installment contract receivable	₱8,198,622,057	₱7,865,123,351	₱6,197,079,304	₱5,929,676,551
Deposits from lessees	3,914,332,274	3,626,438,968	3,570,202,736	3,321,479,742
Loans payable	37,344,505,604	53,404,190,133	24,881,953,999	36,008,446,254

The fair values of installment contract receivables, customers' deposits and loans payable are based on the discounted value of future cash flows using the applicable rates for similar types of loans and receivables as of reporting date. The discount rates used range from 2.3% to 5.8% in 2016 and 1.7% to 5.6% in 2015.

Fair Value Hierarchy

The Group uses the following hierarchy for determining the fair value of financial instruments:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The fair value of installment contracts receivables, deposits from lessees and loans payable disclosed in the consolidated financial statements is categorized within level 3 of the fair value hierarchy. There has been no reclassification from Level 1 to Level 2 or 3 category.

ROBINSONS LAND CORPORATION
1st Quarter CY 2017 PERFORMANCE

I. Consolidated Operations

Consolidated net income attributable to equity holders of Parent Company for the period ended March 31 amounted to ₱1,380.3 million, down by 11%. EBIT and EBITDA declined by 6% and 2% to ₱1,968.3 million and ₱2,920.3 million, respectively, for the three months ended March 31, 2017.

Total real estate revenues were slightly down by 2% to ₱4,977.8 million against last year's ₱5,053.8 million, while hotel revenues were up by 6% to ₱456.0 million. Detailed analyses of the various segments are presented in the succeeding paragraphs.

Real estate costs were slightly down by 4% to ₱2,122.2 million while hotel expenses were up by 6% to ₱338.6 million due to the expenses of the new hotels. General and administrative expenses were up by 16% to ₱1,004.7 million because of higher taxes and licenses, commissions, and salaries, among others.

II. Segment Operations

The Commercial Centers Division contributed 49% or ₱2,689.3 million to the Company's gross revenues, posting an 11% growth due to same mall rental revenue growth of 3% and rental revenue contribution of the new malls namely Robinsons General Trias, Robinsons Tagum, and Robinsons Place Jaro. Amusement revenue went up by 29% to ₱484.4 million. The Division's EBIT and EBITDA showed positive variances of 11% from ₱888.5 million same period last year to ₱983.4 million this year; and 10% from ₱1,559.3 million same period last year to ₱1,722.2 million this year, respectively.

The Residential Division contributed 29% or ₱1,554.3 million to the Company's revenues. EBIT and EBITDA decreased by 40% to ₱387.9 million and 38% to ₱402.5 million, respectively.

The Office Buildings Division contributed 14% or ₱734.2 million to the Company's revenues, up by 8% from last year's ₱682.6 million. EBIT and EBITDA increased by 5% to ₱479.6 million and 4% to ₱633.1 million, respectively.

The Hotels Division contributed 8% or ₱456.0 million to the Company's revenues, up by 6% versus last year of the same period. The Division posted a system-wide occupancy rate of 68% as of March 31, 2017. The Division's EBIT and EBITDA both showed positive variances of 8% from last year's ₱108.8 million to ₱117.4 million this year; and from ₱150.5 million same period last year to ₱162.5 million this year, respectively, due to the existing Go and Summit hotels.

III. Financial Resources and Liquidity

Cash and Cash Equivalents increased by 113% to ₱3,062.2 million due to additional long-term loans. Subdivision Land and Condominium and Residential Units slightly increased by 2% to ₱26,406.6 million. Receivables (current and non-current) were at the same level as last year at ₱9,880.3 million. Other assets (current and non-current) increased by 4% to ₱8,614.8 million due to additional utility deposits made for new malls and offices. Accounts payable and accrued expenses were higher by 8% to ₱11,405.3 mainly due to the declaration of dividends payable in May 2017. Deposits and Other Liabilities (current and non-current) increased by 4% to ₱9,672.9 million due to additional buyers' deposits. Total loans increased by ₱3,301.2 million to ₱42,672.6 million mainly due to availment of additional long-term loans.

As of March 31, 2017, total assets of the Company stood at ₱129,286.0 million while total equity amounted to ₱62,768.5 million.

RLC's financial position remains solid, with a debt to equity ratio of 0.69:1 as of March 31, 2017 and 0.63:1 as of December 31, 2016. Cash stood at ₱3,062.2 million and ₱1,436.2 million as of March 31, 2017 and December 31, 2016, respectively. Current ratio stood at 1.84:1 from last year's 1.34:1. Earnings per share for the three months of this year decreased to ₱0.34 per share from last year's ₱0.38 per share. Net book value excluding minority interest in consolidated subsidiary stood at ₱15.26 per share as of March 31, 2017 compared to ₱15.29 per share as of December 31, 2016.

ROBINSONS LAND CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

Robinsons Land Corporation (the Parent Company) is a stock corporation organized under the laws of the Philippines. The Parent Company and its subsidiaries will collectively be referred herein as “the Group”.

The Group is engaged in the business of selling, acquiring, developing, operating, leasing and disposing of real properties such as land, buildings, shopping malls, commercial centers and housing projects, hotels and other variants and mixed-used property projects. The Group is 60.97% owned by JG Summit Holdings, Inc. (JGSHI or the Ultimate Parent Company). JGSHI is one of the country’s largest conglomerates, with diverse interests in branded consumer foods, agro-industrial and commodity food products, petrochemicals, air transportation and financial services.

The Parent Company’s shares of stock are listed and currently traded at the Philippine Stock Exchange (PSE).

The Parent Company’s principal executive office is located at Level 2, Galleria Corporate Center, EDSA corner Ortigas Avenue, Quezon City, Metro Manila.

On May 10, 2016, the Board of Directors approved the change of Parent Company’s reporting period from fiscal year ending September 30 to calendar year ending December 31.

On July 18, 2016, the Parent Company filed its Amended By-Laws with SEC, amending the Parent Company’s year end from fiscal year ending September 30 to calendar year ending December 31. On August 1, 2016, the BIR issued a certificate granting the Parent Company the change in accounting period.

2. Basis of Preparation

The interim condensed consolidated financial statements as of March 31, 2017 and December 31, 2016 and for the three months ended March 31, 2017 and 2016 have been prepared in compliance with Philippine Accounting Standards (PAS) 34, *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements as of December 31, 2016.

The interim condensed consolidated financial statements have been prepared under the historical cost convention method and are presented in Philippine Pesos (₱), the Group’s functional currency. All amounts are rounded to the nearest peso unless otherwise indicated.

Basis of Consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Group (see Note 1) as of March 31, 2017 and December 31, 2016 and for the three months ended March 31, 2017 and 2016.

All intercompany balances, transactions, income and expense and profit and loss are eliminated in full.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control and continue to be consolidated until the date such control ceases.

Non-controlling interests (NCI) pertain to the equity in a subsidiary not attributable, directly or indirectly to the Parent Company. NCI represent the portion of profit or loss and net assets in subsidiaries not owned by the Group and are presented separately in consolidated statement of income, consolidated statement of comprehensive income and consolidated statement of changes in equity and within equity in the consolidated statement of financial position, separately from equity holders' of the Parent Company.

3. Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted the following new accounting pronouncements starting October 1, 2016. Adoption of these pronouncements did not have any significant impact on the consolidated financial position or performance unless otherwise indicated.

- Amendments to PFRS 10, PFRS 12 and PAS 28, *Investment Entities: Applying the Consolidation Exception*
- Amendments to PFRS 11, *Accounting for Acquisitions of Interests in Joint Operations*
- PFRS 14, *Regulatory Deferral Accounts*
- Amendments to PAS 1, *Disclosure Initiative*
- Amendments to PAS 16 and PAS 38, *Clarification of Acceptable Methods of Depreciation and Amortization*
- Amendments to PAS 16 and PAS 41, *Agriculture: Bearer Plants*
- Amendments to PAS 27, *Equity Method in Separate Financial Statements*
- Annual Improvements to PFRSs 2012 - 2014 Cycle
 - Amendment to PFRS 5, *Changes in Methods of Disposal*
 - Amendment to PFRS 7, *Servicing Contracts*
 - Amendment to PFRS 7, *Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements*
 - Amendment to PAS 19, *Discount Rate: Regional Market Issue*
 - Amendment to PAS 34, *Disclosure of Information 'Elsewhere in the Interim Financial Report'*

Standards Issued But Not Yet Effective

The Group has not applied the following PFRS, Philippine Accounting Standards (PAS) and Philippine Interpretations which are not yet effective as of December 31, 2016. This list consists of standards and interpretations issued, which the Group reasonably expects to be applicable at a future date. The Group intends to adopt these standards when they become effective. Unless otherwise indicated, adoption of these standards and interpretations are not expected to have any significant impact on the consolidated financial statements.

Effective beginning on or after January 1, 2017

- *Amendment to PFRS 12, Clarification of the Scope of the Standard (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)*
The amendments clarify that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.
- *Amendments to PAS 7, Statement of Cash Flows, Disclosure Initiative*
The amendments to PAS 7 require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses). On initial application of the amendments, entities are not required to provide comparative information for preceding periods. Early application of the amendments is permitted.
- *Amendments to PAS 12, Income Taxes, Recognition of Deferred Tax Assets for Unrealized Losses*
The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognized in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact. Early application of the amendments is permitted.

Effective beginning on or after January 1, 2018

- *Amendments to PFRS 2, Share-based Payment, Classification and Measurement of Share-based Payment Transactions*
The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and if other criteria are met. Early application of the amendments is permitted.
- *Amendments to PFRS 4, Insurance Contracts, Applying PFRS 9, Financial Instruments, with PFRS 4*
The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the forthcoming insurance contracts standard. They allow entities to choose between the overlay approach and the deferral approach to deal with the transitional challenges. The overlay approach gives all entities that issue insurance contracts the option to recognize in other comprehensive income, rather than profit or loss, the volatility that could arise when PFRS 9 is applied before the new

insurance contracts standard is issued. On the other hand, the deferral approach gives entities whose activities are predominantly connected with insurance an optional temporary exemption from applying PFRS 9 until the earlier of application of the forthcoming insurance contracts standard or January 1, 2021.

The overlay approach and the deferral approach will only be available to an entity if it has not previously applied PFRS 9.

- *PFRS 15, Revenue from Contracts with Customers*
PFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under PFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in PFRS 15 provide a more structured approach to measuring and recognizing revenue.

The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under PFRSs. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018.

The Group is currently assessing the impact of adopting this standard.

- *PFRS 9, Financial Instruments*
PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition and Measurement*, and all previous versions of PFRS 9.
The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

The adoption of PFRS 9 will have an effect on the classification and measurement of the Group's financial assets and impairment methodology for financial assets, but will have no impact on the classification and measurement of the Group's financial liabilities. The adoption will also have an effect on the Group's application of hedge accounting and on the amount of its credit losses.

The Group is currently assessing the impact of adopting this standard.

- *Amendments to PAS 28, Measuring an Associate or Joint Venture at Fair Value (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)*
The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at fair value through profit or loss. They also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized;

(b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. The amendments should be applied retrospectively, with earlier application permitted.

- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*
The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.
The amendments should be applied prospectively to changes in use that occur on or after the beginning of the annual reporting period in which the entity first applies the amendments. Retrospective application is only permitted if this is possible without the use of hindsight.
- Philippine Interpretation IFRIC 22, *Foreign Currency Transactions and Advance Consideration*
The interpretation clarifies that in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the nonmonetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration. The interpretation may be applied on a fully retrospective basis. Entities may apply the interpretation prospectively to all assets, expenses and income in its scope that are initially recognized on or after the beginning of the reporting period in which the entity first applies the interpretation or the beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the interpretation.

Effective beginning on or after January 1, 2019

- PFRS 16, *Leases*
Under the new standard, lessees will no longer classify their leases as either operating or finance leases in accordance with PAS 17, *Leases*. Rather, lessees will apply the single-asset model. Under this model, lessees will recognize the assets and related liabilities for most leases on their balance sheets, and subsequently, will depreciate the lease assets and recognize interest on the lease liabilities in their profit or loss. Leases with a term of 12 months or less or for which the underlying asset is of low value are exempted from these requirements.

The accounting by lessors is substantially unchanged as the new standard carries forward the principles of lessor accounting under PAS 17. Lessors, however, will be required to disclose more information in their financial statements, particularly on the risk exposure to residual value.

Entities may early adopt PFRS 16 but only if they have also adopted PFRS 15. When adopting PFRS 16, an entity is permitted to use either a full retrospective or a modified retrospective approach, with options to use certain transition reliefs.

The Group is currently assessing the impact of adopting PFRS 16.

Deferred effectivity

- Amendments to PFRS 10 and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture.

The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3, *Business Combinations*. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council postponed the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

4. Significant Accounting Judgments and Estimates

The preparation of the interim condensed consolidated financial statements in compliance with PFRS requires the Group to make judgment and estimates that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements, as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

5. Operating Segment

In 2009, the Group adopted PFRS 8, *Operating Segment* which replaces PAS 14, *Segment Reporting*, which adopted a management approach to segment reporting. Under this approach, the information reported would be that which management uses internally for evaluating the performance of operating segments and allocating resources to those segments.

The Group evaluates performance based on net income, Operating income (net income after adding provisions for income tax and deducting/adding other income/losses) and EBITDA (net income after adding provisions for income tax, deducting/adding other income/losses and adding depreciation and amortization).

The Group derives its revenue from the following reportable units:

Commercial Centers Division - develops, leases and manages shopping malls/commercial centers all over the Philippines.

Residential Division - develops and sells residential condominium spaces, as well as horizontal residential projects.

Office Buildings Division - develops and leases office spaces.

Hotel Division - owns and operates a chain of hotels in various locations in the Philippines.

The financial information about the operations of these business segments is summarized as follows:

The Group generally accounts for inter-segment sales and transfers as if the sales and transfers were to third parties at current market prices.

Segment information of the Group does not include geographical segments since its operations are concentrated in the Philippines.

The revenue of the Group consists mainly of sales to external customers. Inter-segment revenue arising from lease arrangements are eliminated on consolidation.

Treasury Shares

On October 22, 2009, the Parent Company's BOD approved the creation and implementation of a share buy-back program allotting up to ₱1,000 million to reacquire a portion of the Parent Company's issued and outstanding common shares, representing approximately 3.1% of current market capitalization.

As of March 31, 2017, the Parent Company has repurchased a total of 17,698,000 shares for a total purchase price of ₱222 million at an average price of ₱12.53 per share.

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value. The Group manages its capital structure and makes adjustments to these ratios in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital structure or issue capital securities. No changes have been made in the objective, policies and processes as they have been applied in previous years.

The Group monitors its use of capital structure using a debt-to-capital ratio which is gross debt divided by total equity. The Group includes within gross debt all interest-bearing loans and borrowings, while capital represents total equity. Following is a computation of the Group's debt-to-capital ratio as of March 31, 2017 and December 31, 2016.

	March 31, 2017	December 31, 2016
(a) Loans payable (Note 15)	₱42,864,640,900	₱39,510,000,000
(b) Equity	₱62,490,049,110	₱62,577,315,611
(c) Debt-to-capital ratio (a/b)	0.69:1	0.63:1

The Group's policy is to have a debt-to-capital ratio of not exceeding 2:1 level. This policy is consistent with the requirements under the Group's debt covenants with lenders.

18. Retained Earnings

Restriction

A portion of the unappropriated retained earnings representing the undistributed net earnings of subsidiaries amounting to ₱1,390 million as of March 31, 2017 and ₱1,275 million as of December 31, 2016 are not available for dividend declaration until received in the form of dividends. Also ₱16,000 million of retained earnings appropriated for future and ongoing expansions are also not available for dividends.

Retained earnings are further restricted for payment of dividends to the extent of the cost of shares held in treasury.

Dividends declared

The BOD declared cash dividends in favor of all its stockholders as follows:

	2017	2016
Date of declaration	March 13, 2017	March 9, 2016
Date of payment	May 2, 2017	April 22, 2016

Dividend per share	₱0.36	₱0.36
Total dividends	₱1,473,779,046	₱1,473,779,046

Appropriation

On September 27, 2016, the BOD approved the reversal of the retained earnings it appropriated during the fiscal year ended September 2015 amounting to ₱17,000 million as the related projects to which the retained earnings were earmarked were completed already. The amount was originally earmarked for the continuing capital expenditures of the Group for subdivision land, condominium and residential units for sale, investment properties and property and equipment.

On the same date, the BOD also approved the appropriation of ₱16,000 million, out of the unappropriated retained earnings, to support the capital expenditure requirements of the Group for various projects approved by the Executive Committee during meetings held in September 2016. These projects and acquisitions are expected to be completed in various dates in 2017 to 2021.

19. Earnings Per Share

Earnings per share amounts as of March 31 were computed as follows:

20. Financial Risk Management Objectives and Policies

The Group's principal financial instruments, comprise of loans payable, deposit from lessees, receivables from affiliated companies, payables to affiliated companies, receivables and cash and cash equivalents. The main purpose of these financial instruments is to raise fund for the Group's operations. The Group has various other financial assets and liabilities such as trade and other receivables and trade and other payables, which arise directly from its operations.

The main risks currently arising from the Group's financial instruments are foreign currency market risk, liquidity risk, interest rate risk and credit risk. The BOD reviews and approves policies for managing each of these risks and they are summarized below, together with the related risk management structure.

Risk Management Structure

The Group's risk management structure is closely aligned with that of the Parent Company. The BOD of the Parent Company and the respective BODs of each subsidiary are ultimately responsible for the oversight of the Group's risk management processes that involve identifying, measuring, analyzing, monitoring and controlling risks.

The risk management framework encompasses environmental scanning, the identification and assessment of business risks, development of risk management strategies, design and implementation of risk management capabilities and appropriate responses, monitoring risks and risk management performance, and identification of areas and opportunities for improvement in the risk management process.

Each BOD has created the board-level Audit Committee (AC) to spearhead the managing and monitoring of risks.

Audit Committee

The AC shall assist the Group's BOD in its fiduciary responsibility for the over-all effectiveness of risk management systems, and both the internal and external audit functions of the Group. Furthermore, it is also the AC's purpose to lead in the general evaluation and to provide assistance in the continuous improvements of risk management, control and governance processes.

The AC also aims to ensure that:

- a. financial reports comply with established internal policies and procedures, pertinent accounting and audit standards and other regulatory requirements;
- b. risks are properly identified, evaluated and managed, specifically in the areas of managing credit, market, liquidity, operational, legal and other risks, and crisis management;
- c. audit activities of internal and external auditors are done based on plan, and deviations are explained through the performance of direct interface functions with the internal and external auditors; and
- d. the Group's BOD is properly assisted in the development of policies that would enhance the risk management and control systems.

Enterprise Risk Management Group (ERMG)

To systematize the risk management within the Group, the ERMG was created to be primarily responsible for the execution of the enterprise risk management framework. The ERMG's main concerns include:

- a. recommending risk policies, strategies, principles, framework and limits;
- b. managing fundamental risk issues and monitoring of relevant risk decisions;
- c. providing support to management in implementing the risk policies and strategies; and
- d. developing a risk awareness program.

Support groups have likewise been created to explicitly manage on a day-to-day basis specific types of risks like trade receivables, supplier management, etc.

Compliance with the principles of good corporate governance is also one of the objectives of the BOD. To assist the BOD in achieving this purpose, the BOD has designated a Compliance Officer who shall be responsible for monitoring the actual compliance with the provisions and requirements of the Corporate Governance Manual and other requirements on good corporate governance, identifying and monitoring control compliance risks, determining violations, and recommending penalties on such infringements for further review and approval of the BOD, among others.

Risk Management Policies

The main risks arising from the use of financial instruments are foreign currency risk, liquidity risk, interest rate risk, credit risk and equity price risk. The Group's policies for managing the aforementioned risks are summarized below.

Market risk

Foreign Currency Risk

Foreign currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises from financial instruments that are denominated in United States Dollar (USD) which result primarily from movement of the Philippine Peso (PHP) against the USD.

The Group does not have any foreign currency hedging arrangements.

Liquidity risk

Liquidity risk is the risk arising from the shortage of funds due to unexpected events or transactions. The Group manages its liquidity profile to be able to finance the capital expenditures and service the maturing debts. To cover the financing requirements, the Group intends to use internally generated funds and proceeds from debt and equity offerings.

The Group seeks to manage its liquidity profile to be able to service its maturing debts and to finance capital requirements. The Group maintains a level of cash and cash equivalents deemed sufficient to finance operations. As part of its liquidity risk management, the Group regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund-raising activities. Fund-raising activities may include bank loans and capital market issues both onshore and offshore.

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk for changes in market interest rates relates primarily to the Group's long-term debt obligation with a floating interest rate.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily from cash and cash equivalents and receivables).

The Group trades only with recognized, creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis. These measures result in the Group's exposure to impairment loss as not significant.

With respect to credit risk arising from the Group's financial assets, which comprise of cash and cash equivalents and receivables, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

21. Financial Instruments

The carrying amount of cash and cash equivalents, trade receivables (except installment contract receivables), other receivables, utility deposits, receivable and payable to affiliated companies and accounts payable and accrued expenses are approximately equal to their fair value due to the short-term nature of the transaction.

Set out below is a comparison of carrying amounts and fair values of installment contracts receivables, deposits from lessees and loans payable that are carried in the consolidated financial statements.

	March 31, 2017		December 31, 2016	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Installment contracts receivables	₱7,761,930,977	₱7,441,397,976	₱7,826,804,227	₱7,503,592,251
Deposits from lessees	4,138,921,078	3,792,487,907	4,033,457,966	3,695,852,197
Loans payable	42,672,648,606	57,201,545,169	39,371,477,678	52,776,413,753

The fair values of installment contracts receivables, deposits from lessees and loans payable are based on the discounted value of future cash flows using the applicable rates for similar types of loans and receivables as of reporting.

Fair Value Hierarchy

The Group uses the following hierarchy for determining the fair value of financial instruments:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly;

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The fair value of installment contracts receivables, deposits from lessees and loans payable disclosed in the consolidated financial statements is categorized within level 3 of the fair value hierarchy. There has been no reclassification from Level 1 to Level 2 or 3 category.

22. Commitments and Contingencies

Under the contract to sell covering the sale of subdivision land and houses, residential condominium units, office building units, the Group is obligated to complete and deliver the sold units on agreed delivery dates. Moreover, estimated costs to complete sold units amounted to ₱1,012.9 million and ₱979 million as of March 31, 2017 and December 31, 2016, respectively.
