RISK FACTORS AND OTHER CONSIDERATIONS

General Risk Warning

- *The price of securities can and does fluctuate, and any individual security may experience upward or downward movements, and may even become valueless. There is an inherent risk that losses may be incurred rather than profit made as a result of buying and selling securities.*
- *Past performance is not a guide to future performance.*
- *There is an extra risk of losing money when securities are issued by smaller companies. There may be a big difference between the buying price and the selling price of these securities.*
- *An investor deals in a range of investments each of which may carry a different level of risk.*

Prudence Required

The risk disclosure does not purport to disclose all the risks and other significant aspects of investing in these securities. An investor should undertake its, his or her own research and study on the trading of securities before commencing any trading activity. Investors may request information on the securities and Issuer thereof from the SEC, which are available to the public.

Professional Advice

An investor should seek professional advice if he or she is uncertain of, or has not understood, any aspect of the securities to invest in or the nature of risks involved in trading of securities specially those of high risk securities.

Risk Factors

An investment in the Bonds described in this Prospectus involves a certain degree of risk. A prospective purchaser of the Bonds should carefully consider the following factors, in addition to the other information contained in this Prospectus, in deciding whether to invest in the Bonds. This Prospectus contains forward-looking statements that involve risks and uncertainties. Robinsons Land adopts what it considers conservative financial and operational controls and policies to manage its business risks. Robinsons Land's actual results may differ significantly from the results discussed in the forward-looking statements. See section "Forward-Looking Statements" of this Prospectus. Factors that might cause such differences, thereby making the offering speculative or risky, may be summarized into those that pertain to the business and operations of Robinsons Land, in particular, and those that pertain to the over-all political, economic, and business environment, in general. These risk factors and the manner by which these risks shall be managed are presented below. RLC has enumerated these risk factors in what it believes to be the order of importance to RLC's business and operations at this time.

There are a number of risks and uncertainties which could affect RLC's business and results of operations. These include, but may not be limited to:

Risks related to the Company

The COVID-19 outbreak could continue to adversely affect the state of the Philippine economy and in turn have an adverse effect on RLC's business operations.

In 2020, the coronavirus disease ("**COVID-19**") entered the Philippines. Throughout 2020 until 2022, the country experienced numerous COVID-19 cases. As of June 3, 2022, there have been a total of 3.69 million cases in the Philippines. To address the pandemic, both the national and local government have issued various legislations and regulations. This includes the creation of the Inter-Agency Task Force tasked to respond to the infectious diseases emerging in the country. As a means to lower the probability of transmission among citizens, the government-imposed restrictions on travel, temporary closure of businesses, and prohibitions on social gatherings.

On March 12, 2020, the Philippine government placed Metro Manila under “community quarantine” starting on March 15, 2020, which, among others, restricted traveling through land, domestic air, and domestic sea from Metro Manila. On March 16, 2020, the President declared a state of calamity, imposing an enhanced community quarantine throughout the country in order to address the transmission of COVID-19. The enhanced community quarantine was thereafter extended until May 15, 2020 for areas considered “high-risk”, including Metro Manila. Under the enhanced community quarantine, the government mandated the temporary closure of non-essential shops and businesses, prohibited mass gatherings and all means of public transportation, and restricted traveling through air, sea and land in and out of Luzon, except for diplomats and uniformed workers (carrying medical supplies), among others.

On March 23, 2020, the Bayanihan to Heal as One Act was signed into law, imposing a 30-day grace period on residential rental payments falling due during the enhanced community quarantine (“**ECQ**”) without incurring interests, penalties, or other charges.

The Philippine government subsequently eased its quarantine restrictions in certain areas and placed Metro Manila under a modified enhanced community quarantine until May 31, 2020, and under a general community quarantine starting June 1, 2020 until June 30, 2020. Under the modified enhanced community quarantine, real estate activities limited to leasing was allowed to operate at full capacity, while real estate activities outside of leasing could only operate at a 50% on-site capacity.

On April 4, 2020, the Department of Trade and Industry (“**DTI**”) issued Memorandum Circular No. 20-12 providing concessions not only for residential rents of individuals but also for commercial rents of Micro, Small and Medium Enterprises (“**MSMEs**”) that have temporarily ceased operations due to the ECQ. The rent deferral was later applied to areas under modified enhanced community quarantine (“**MECQ**”) and general community quarantine (“**GCCQ**”).

On August 4, 2020, Metro Manila was placed under MECQ due to the spike in COVID-19 cases. In March 2021, a further spike in cases once again placed Metro Manila under ECQ from March 29, 2021 to April 11, 2021. Metro Manila was thereafter placed under MECQ until May 14, 2021, then eventually eased to GCCQ.

On September 11, 2020, the Bayanihan to Recover as One Act II was signed into law. The law also provided a minimum 30-day grace period for the payment of both residential and commercial rental fees of lessees not permitted to work and businesses ordered to cease operations during the community quarantine.

On July 30, 2021, the Delta variant entered the country which resulted in the sudden increase of COVID-19 cases in the Philippines. On January 15, 2022, the country had 39,004 new COVID-19 cases, the highest ever recorded for the Philippines. On April 27, 2022, the Philippines has reported its first case of Omicron BA.2.12, a subvariant of the Omicron variant which has caused a surge of COVID-19 cases in the United States. As of April 30, 2022, the Philippines had a total of 3,685,403 confirmed cases, 8,389 active cases, and 60,305 deaths.

The quarantine measures, especially when at its strictest, caused various businesses and economic activities to be adversely impacted. RLC’s commercial establishments could not operate at full capacity, and certain operations, such as the movie theatres, were completely closed causing loss of profit. The overall foot traffic in RLC’s commercial establishments and hotels have also declined. Consequently, RLC’s overall income has been reduced compared to its income before the pandemic.

From June 1 to 15, 2022, the government has placed Metro Manila and several other areas throughout the country under Alert Level 1. Under this Alert level, restrictions on travel, social gatherings, and business operations would be the loosest it has been in nearly two years after the pandemic. However, with the new Omicron BA.2.12 variant and other mutations that may occur in the future, the COVID-19 pandemic and the corresponding government measures to address COVID-19 remain uncertain. A change in quarantine guidelines providing for tighter restrictions on business operations and on-site capacity could adversely affect the performance of RLC.

RLC is cognizant of COVID-19's potential material impact on its financial performance, the execution of its plans and strategies, and its customers and employees should the situation persist in the longer-term. Nonetheless, its broad business footprint and diversified revenue stream helped cushion the blow of this unprecedented event on the Company. For more information on the impact on the Company's operations of COVID-19 and the measures the Company has undertaken to mitigate its effects, please refer to "*Description of Business – Recent Developments Relating to COVID-19*" section of the Prospectus.

RLC is highly dependent on the state of the Philippine economy and the Philippine property market.

The Company derives substantially all of its revenue and operating profits from its property investment and development activities in the Philippines. Demand for, and prevailing prices of, shopping mall and office leases, and the performance of the Philippine hotel business are directly related to the strength of the Philippine economy and the overall levels of business activity in the Philippines.

The Company's Commercial Centers Division is also directly affected by social trends, changing patterns on consumer spending and sentiment in the Philippines, which are in turn heavily influenced by economic, political and security conditions in the Philippines. On the development side of the Company's business, the Philippine property market is cyclical and property values are affected by the supply of, and demand for, comparable properties, the rate of economic growth, and the political developments in the country. The Company is also reliant on business from overseas Filipino workers and expatriate Filipinos, which contribute to the demand for its projects in the residential buildings and housing and land development divisions. This also exposes the Company to the performance of specific economies in which these concentrated groups of potential customers are located, including the United States of America, Italy and Saudi Arabia. The demand for new residential housing projects in the Philippines, in particular, has also fluctuated in the past as a result of prevailing economic conditions (including overall growth levels and interest rates), political and security situation in the Philippines, and other related factors.

Considerable economic and political uncertainties currently exist in the Philippines that could have adverse effects on consumer spending habits, construction costs, availability of labor and materials and other factors affecting the Company and its businesses. Significant expenditures associated with investment in real estate, such as real estate taxes, maintenance costs and debt payments, generally cannot be correspondingly reduced if changes in the Philippine property market or the Philippine economy cause an increase in these various cost components of the Company. Because of RLC's business concentration in the Philippines, reduced levels of economic growth in the country, adverse changes in the country's political or security situation, and weaker performance of the country's property development market generally could materially adversely affect RLC's profitability.

Hotel occupancy trends in the Philippines are affected by a variety of factors, including the COVID-19 pandemic and government regulations, general levels of business and tourist

travel to the Philippines, which are in turn influenced by general political and economic conditions within the country. The hotel business in the Philippines has suffered from time to time as the country faced a pandemic, political uncertainty, and heightened security concerns over terrorist activities and disruptions in the overall peace and order situation. The foregoing have also inhibited overall business activity in the country.

In addition, the strength of the Philippine economy is influenced and affected by global factors, including the performance of other world and regional economies, and the global economy, in general. Any negative change in the health situation and economic performance of other national economies, in particular, that of the United States of America, and/or the global economy, could adversely affect the Philippine economy and the Company's business.

Due to rising global inflation, the Company anticipates an increase in project development costs as a result of the increase in prices of key materials such as cement, steel bars. There has been volatility in cost over the last year resulting from multiple factors such as the sudden surge in "new normal" consumer demand, the rise of fuel prices i.e. gasoline and diesel due to the Russo-Ukrainian war and the supply chain challenges in the shipping industry, among others. Any further increase in cost could have a material adverse effect on the Company's business, financial condition and results of operations.

To mitigate this risk, RLC has, among other strategies, adopted a diversified business model with both an "investment" component and a "development" component. This broad business footprint provides RLC with a diversified earnings base. The "investment" component of the Company's business, principally its lifestyle commercial centers, office buildings, hotels and industrial facilities, provides the Company with steady, relatively predictable earnings and cash flow even during down-cycles in the property industry. On the other hand, the "development" component of the business, principally the residential condominiums and housing and land developments, capitalizes on the growth cycle of the residential sector and demand for build-and-sell commercial real estate products. All of the Company's business segments have healthy margins and are able to operate with zero cash burn. Furthermore, the Company's strong balance sheet including its low net gearing ratio provide ample cushion from the negative inflationary effects and headwinds brought about by rising fuel costs, interest and commodity prices.

For further discussion of RLC's strategies, please refer to the section "*Description of Business – Corporate Strategy*" of this Prospectus.

Significant competition in the markets in which the Company operates could have an adverse effect on the Company's business.

RLC operates in a highly competitive industry. The Company's future growth and development is dependent, in large part, on the availability of large tracts of land suitable for development. As the Company and its competitors attempt to locate sites for development, it may become more difficult to locate parcels of suitable size in locations and at prices acceptable to the Company, particularly in Metro Manila and other urban areas. To the extent that the Company is unable to acquire suitable land at acceptable prices, its growth prospects could be limited and its business and results of operations could be adversely affected.

A number of other commercial center and residential developers and real estate services companies, some with greater financial and other resources and more attractive land banks than the Company, compete with RLC in various aspects of its business. Competition from other real estate developers and real estate services companies may adversely affect RLC's ability to develop and sell its properties, or attract and retain tenants, and continued

development by these and other market participants could result in saturation of the market for real estate, and in particular shopping malls. However, Robinsons Land believes that, at present, there is no single real estate developer that has a significant presence in all sectors of the property market.

RLC has mitigated the market risks it faces through carefully planned projects, innovation and clear product differentiation. RLC is the pioneer of fully integrated mixed-use developments in the Philippines, which provide ample cross-selling and demand stimulating opportunities and arrangements between and among its business divisions. RLC also remains confident that it can compete effectively on the basis of its well-established brand reputation with its many years of operation and a solid track record of completing projects on time and on specification. For further discussion of RLC's strengths and strategies, please refer to the sections on "*Description of Business – Competitive Strengths*" and "*Description of Business Corporate Strategy*" of this Prospectus.

The Company is exposed to reputational risks if it does not complete projects on time.

The Company is heavily reliant on its brand name and reputation in its property development business. If the Company experiences any particular difficulties with respect to any of its projects, including construction or infrastructure failures, design flaws, significant project delays, and quality control issues or otherwise, this could have a negative effect on the Company's reputation and make it more difficult to attract new customers to its other development projects. The Company cannot provide any assurance that such events will not occur in a manner that would adversely affect its results of operations or financial condition.

The performance of RLC's businesses could be affected by a number of factors, including:

- The national and international economic climate
- Trends in the retail industry
- Changes in laws and governmental regulations in relation to real estate
- Increased operating costs
- The inability to collect rent due to bankruptcy of tenants or otherwise
- Competition for tenants
- Changes in market rental rates
- The need to renovate, repair and re-let space and the costs thereof
- The quality and strategy of management
- The ability of RLC to provide adequate maintenance and insurance

RLC believes that one of its competitive strengths is that it has, over the years, developed a reputation for the quality of its projects and amenities, reliability in delivering projects on time, its convenient locations and affordability of its projects. RLC also has an experienced management team with a proven ability to execute the Company's business plan and achieve results. The Company believes that the market experience and knowledge that these key members of management possess and the business relationships they have developed with industry players and customers have been an integral part of the Company's success in the past and will be a driving force for its success in the future. RLC also benefits from its affiliation with the other businesses of JG Summit and Robinsons Retail Holdings, Inc. Aside from comprising the bulk of RLC's anchor tenants, the JG Summit group and its related companies provide RLC with experience and market data that help assess consumer spending and behavior patterns, and other important business information. For further discussion on RLC's strengths, please refer to the section "*Description of Business – Competitive Strengths*" of this Prospectus.

Developments in e-commerce and consumer technology could materially disrupt the Company's operations.

With the advent of technology, the real estate industry could face major disruption with investments pouring into e-commerce and AI-powered consumer technologies. As consumers grow accustomed to the on-demand, tech-based environment, it will be an expectation, not a perk, that real estate companies follow suit.

This tech push has transformed consumer behavior and the spending pattern of customers. E-commerce has commoditized most moderately-priced goods; and consumers can simply purchase or pay their bills online at sometimes much cheaper prices at the convenience of their homes. This rules out a lot of retailers who are major business partners of real estate companies.

As a real estate company, the Company must therefore, rethink its traditional tenant mix to identify those brick-and-mortar retailers who can sell against online retail. Real estate companies must also look for ways to converge clicks with bricks by exploring and capitalizing on other retail channels.

To mitigate this risk, the Company's offerings have evolved to more lifestyle-centric choices to better serve its customers especially in its mall business. It also keeps abreast with technology and platforms that can be used to understand the customer journey and interpret relevant data to form informative insights.

The occurrence of natural or other catastrophes, or severe weather conditions, may materially disrupt RLC's operations.

The Philippines has experienced a number of major natural catastrophes over the years, including typhoons, floods, droughts, volcanic eruptions and earthquakes. On January 12, 2020, the Taal Volcano erupted and caused ash falls and earthquakes in Southern Luzon, some parts of Central Luzon and Pangasinan in Ilocos Region, and in Metro Manila. The Philippine Institute of Volcanology and Seismology ("PHIVOLCS") issued an Alert Level 4, which means a hazardous explosive eruption may happen at any given moment. The explosion resulted to the suspension of classes, work schedules, and flights. On January 26, 2020, PHIVOLCS downgraded the classification to Alert Level 3, which means a decreased tendency towards hazardous eruption. The danger zone was likewise reduced from a 14-kilometer radius from the volcano's main crater, to a 7-kilometer radius. On February 14, 2020, PHIVOLCS further downgraded the classification to Alert Level 2, which means that there was a decreased unrest of the Taal Volcano given the less frequent volcanic earthquake activity, stabilizing ground deformation and weak steam and gas emissions at the main crater.

On December 16, 2021, Super Typhoon Rai, locally known as Typhoon Odette, was the strongest typhoon to hit the Philippines in 2021, causing serious damage to certain parts of the country, particularly the Visayas region. The typhoon made landfall with winds at 160 mph and increased by 85 mph within twenty-four hours. It also strengthened from a category 1 to a category 5 typhoon in the duration of its landfall in the Philippines. Among the most devastated areas brought about by Typhoon Rai was Cebu City and the island of Siargao.

There can be no assurance that the occurrence of such natural catastrophes will not materially disrupt RLC's businesses, financial condition and results of operations. These factors, which are not within the Company's control, could potentially have significant effects on the Company's projects, many of which are large, complex buildings that are susceptible to structural damage and failure.

RLC maintains comprehensive insurance policies against catastrophic perils including, but not limited to, typhoon, fire, flood and earthquake to cover its developments against loss from property damage and business interruption based on declared values for each project and location and on probable maximum loss scenarios. However, there can be no assurance that the Company will be adequately compensated for all damages and economic losses resulting from such natural or other catastrophes. RLC endeavors to mitigate this risk by keeping its properties and business in good working condition, insured to their full insurable value with financially sound and reputable insurers against loss or damage in such manner and to the same extent as customary for a business of the same character.

Robinsons Land's business is affected by regulation in the Philippines.

Robinsons Land operates a material part of its business in a regulated environment. Robinsons Land is subject to numerous environmental laws and regulations relating to the protection of the environment and human health and safety. These include laws and regulations governing air emissions, water and waste water discharges, odor emissions, and the management of, disposal of and exposure to hazardous materials.

In general, developers of real estate projects are required to submit project descriptions to regional offices of the Philippine Department of Environment and Natural Resources (“DENR”). For environmentally-sensitive projects or at the discretion of the regional office of the DENR, a detailed Environmental Impact Assessment may be required and the developer will be required to obtain an Environmental Compliance Certificate to certify that the project will not have an unacceptable environmental impact. There can be no assurance that current environmental laws and regulations applicable to the Company will not increase the costs of operating its facilities above currently projected levels or require future capital expenditures. In addition, RLC cannot predict what environmental, health, safety or other legislation or regulations will be amended or enacted in the future, how existing or future laws or regulations will be enforced, administered or interpreted, or the amount of future expenditures that may be required to comply with these environmental laws or regulations or to respond to environmental claims. See “*Regulatory and Environmental Matters.*” The introduction or inconsistent application of or changes in laws and regulations applicable to RLC’s business could have a material adverse effect on its business, financial condition and results of operations.

In addition, delays or other possible complications in obtaining the required regulatory and environmental permits could have a material adverse effect on RLC’s business, financial condition and results of operations.

To mitigate this risk, Robinsons Land keeps itself abreast of the latest compliance requirements as well as the latest technologies that enable it to implement existing sanitation, environment and safety laws, and other regulations at cost-efficient means, a strategy which has earned RLC recognitions and awards from local organizations. For further discussion of the regulatory and environmental matters, and applicable government approvals and permits, please refer to the sections “*Description of Business – Regulatory and Environmental Matters*” and “*Description of Business – Government Approvals and Permits*” of this Prospectus.

Robinsons Land's leverage creates a number of operating risks and might affect its ability to repay the Bonds.

The increase in debt of Robinsons Land could have certain adverse consequences. For example, it could:

- reduce Robinsons Land's ability to service its existing debt obligations, including the Bonds;
- affect Robinsons Land's ability to obtain additional financing for working capital, capital expenditures, debt service and other purposes;
- require Robinsons Land to divert a substantial portion of its cash flow from operations to debt service;
- affect Robinsons Land's flexibility in reacting to and taking advantage of developments and opportunities in the Philippine economy, the Philippine property development industry and its business; or
- place Robinsons Land at a competitive disadvantage to its competitors that have less debt.

Robinsons Land's ability to refinance or repay its debt depends on its successful financial and operating performance, which will be affected by a number of factors, many of which are beyond its control. If Robinsons Land is unable to refinance its debt, obtain necessary waivers or obtain new financing under these circumstances, Robinsons Land would have to consider various other financing options such as sale of assets, procurement of additional capital and other options available to Robinsons Land under applicable law. Robinsons Land might also have to modify, delay, or abandon its development and expansion plans. See sections "*Management's Discussion and Analysis of Financial Condition and Results of Operation*" and "*Description of Certain Other Debt*" of this Prospectus.

RLC manages this risk by maintaining a strong financial position and a balanced mix of investment and development businesses, which provides RLC with stability in revenue and earnings. Furthermore, all of RLC's existing debt obligations are fixed-rated and peso-denominated which provide a hedge against interest rate and foreign exchange fluctuations that would affect RLC's ability to meet its financial commitments especially in times of uncertainty. RLC maintains a conservative level of outstanding indebtedness, and has not defaulted in any of its debt obligations. It shall continue its strategy of compliance with its debt obligations by adopting the necessary internal controls in financial management and adopting good corporate governance policies that will ensure that transactions do not violate debt covenants.

Robinsons Land is subject to certain debt covenants.

The Bond Agreements and agreements for certain debts of Robinsons Land contain covenants that limit its ability to, among other things:

- incur additional long-term debt to the extent that such additional indebtedness results in a breach of a required financial ratio;
- materially change its nature of business;
- merge, consolidate, or dispose of substantially all its assets; and
- encumber, mortgage or pledge some of its assets.

Complying with these covenants may cause Robinsons Land to not take actions that it otherwise would take. Robinsons Land's failure to comply with these covenants would cause a default, which, if not waived, could result in the debt becoming immediately due and payable. In this event, Robinsons Land may not be able to repay or refinance such debt on terms that are acceptable to Robinsons Land or at all. See sections "*Management's Discussion and Analysis of Financial Condition and Results of Operations*," "*Description of Certain Other Debt*," and "*Description of the Bonds*" of this Prospectus.

Robinsons Land has historically taken a prudent stance in managing its debt obligations by ensuring that any corporate act, whether or not performed in the ordinary course of

business, does not violate any existing debt covenants. In the event that any significant corporate act or business transaction is seen to potentially affect its debt covenants that would lead to accelerating the payment of existing debt, Robinsons Land shall endeavor to obtain the necessary waivers in accordance with the relevant debt agreements.

The occurrence of certain events of default under Robinsons Land's other debt could affect Robinsons Land's ability to repay the Bonds.

A significant portion of the debt of Robinsons Land contains terms which allow a lender to accelerate Robinsons Land's debt if any event or change in circumstances occurs which, in the sole opinion of such lender, would materially impair Robinsons Land's ability to repay its debt. If any amount outstanding were to be accelerated, it could potentially trigger a cross-default under substantially all of the Company's debt. In which case, it may not be able to perform its payment obligations under the Bonds.

Robinsons Land has not defaulted in any of its debt obligations. It shall continue to comply with its debt obligations by adopting the necessary internal controls in financial management and adopting good corporate governance policies that will ensure that transactions do not violate debt covenants.

Risks related to the Philippines

Substantially all of the Company's operations and assets are based in the Philippines hence a slowdown in Philippine economic growth could adversely affect the Company's business.

Substantially all of the Company's business operations and assets are located in the Philippines. As a result, RLC's income and the results of its operations are generally influenced by the performance of the Philippine economy. The Philippines has experienced periods of slow or negative growth, high inflation, significant devaluation of the Peso and debt restructuring, and has been significantly affected by economic volatilities in the Asia-Pacific region.

There is still some uncertainty as to the economic prognosis in the US and in Europe, as well as the global economy in general, which could cause economic conditions in the Philippines to deteriorate.

Any downturn in the Philippine economy may negatively impact the general business conditions in the Philippines, which may materially or adversely affect the Company's operations, profitability and financial condition.

A domestic asset price bubble could adversely affect the Company's business.

One of the risks inherent in any real estate property market is the possibility of an asset price bubble. This occurs when there is a gross imbalance between the supply and demand in the property market, causing an unusual increase in asset prices, followed by a drastic drop in prices when the bubble bursts. In the Philippines, the growth of the real estate sector is mainly driven by low interest rates, robust remittances from Overseas Filipino Workers, and the fast-growing Business Process Outsourcing sector which is vulnerable to global economic changes.

The Company believes that the Philippine property sector is adequately protected against a domestic asset price bubble burst. The country has a very young demographic profile benefitting from rising disposable income. It likewise has one of the fastest growing emerging economies, registering Gross Domestic Product growth rates of 6.7% in 2017,

6.2% in 2018 and 5.9% in 2019, and the growth in the property sector is largely supported by infrastructure investments from both the public and private sectors and strong macroeconomic fundamentals. Due to the COVID-19 pandemic, the Gross Domestic Product declined by 9.5% in 2020. However, the country has steadily recovered since and the Gross Domestic Product (GDP) grew by 5.6% in 2021. The Asia Development Outlook forecasts that the Gross Domestic Product will continue to grow by 6.0% in 2022 and 6.3% in 2023. In addition, the *Bangko Sentral ng Pilipinas* has put in place prudential fiscal measures to safeguard the health of the local financial system.

There can be no assurance, however, that the Philippines will achieve strong economic fundamentals in the future. Changes in the conditions of the Philippine economy could materially and adversely affect the Company's business, financial condition and results of operations. To mitigate the risk, the Company shall continue to strengthen its diversified and well-balanced business portfolio by fortifying its resilient leasing businesses which provide strong recurring cash flows and revenue, by expanding residential products to cater to the demand of property buyers from various segments of the market, and by innovating new business formats that will propel the Company forward towards a more sustainable growth.

The Company's business operations and financial condition may be adversely affected by any political instability in the Philippines.

The Philippines has from time to time experienced political and military instability. The Philippine Constitution provides that in times of national emergency, when the public interest so requires, the government may take over and direct the operation of any privately-owned public utility or business. In the last few years, there has been political instability in the Philippines, including public and military protests arising from alleged misconduct by the previous administration.

In June 2016, the Philippines elected President Rodrigo Roa Duterte. Since he assumed office, President Duterte's administration has demonstrated commitment in implementing fiscal, monetary and trade policies that are consistent with the pursuit of rapid, broad-based economic growth. Among others, the administration is embarking on progressive tax reform and an ambitious infrastructure development agenda. However, perceptions over human rights and geopolitical issues may affect the overall sentiment on the Philippines and the business environment.

The 8-point agenda of the Duterte administration has not been fully implemented, with the focus being more oriented towards "war against drugs and corruption" in the country as well as the government's "Build" infrastructure program. The administration also had to realign its priorities to address the COVID-19 pandemic and its massive economic and social impact.

In May 2022, the Philippines elected both national and local government officials, including the President of the country. On May 25, 2022, Ferdinand Romualdez Marcos Jr. was officially proclaimed the next Philippine President. As President, he will determine the country's agendas and policies for the next six years.

No assurance can be given that the political environment in the Philippines will remain stable and any political instability in the future could reduce consumer demand, or result in inconsistent or sudden changes in regulations and policies that affect the Company's business operations, which could have an adverse effect on the results of operations and the financial condition of the Company.

In February 2022, Vladimir Putin authorized the use of military force, and the entry of Russian soldiers into the Ukrainian territory. Places across Ukraine, including Kyiv, the

national capital, were struck with missiles. Shortly afterwards, Russian Forces entered Ukraine prompting Ukrainian President Volodymyr Zelensky to enact martial law and general mobilization (the “Russo-Ukrainian War”). While the Company does not expect any material impact from the ongoing Russo-Ukrainian War to its current and future businesses, ongoing tensions may affect oil and commodity prices in the near to medium term. Any political or economic developments of a global scale could impact prices in general and disrupt supply chains, which could in turn increase the Company’s costs for the development of its future projects. The Company continuously monitors such developments abroad and will assess any direct and indirect impact that the Russo-Ukrainian War may have on its current and future businesses.

Acts of terrorism in the Philippines could lead to possible destabilization of the country which could have an adverse effect on the Company’s business, financial condition and results of operation.

The Philippines has been subject to a number of terrorist attacks in the past several years. The Philippine military has been in conflict with the communist New People’s Army, the Muslim separatist rebels and the Abu Sayyaf terrorist group, which is reported to have links with the Al-Qaeda terrorist network and which has been identified as being responsible for a number of kidnapping and terrorist activities in key cities in the southern part of the Philippines.

The Armed Forces of the Philippines (“**AFP**”) has clashed with members of several separatist groups seeking greater autonomy, including the Moro Islamic Liberation Front (“**MILF**”), the Moro National Liberation Front (“**MNLF**”) and the New People’s Army. These continued conflicts between the government and separatist groups could lead to further injuries or deaths by civilians and members of the AFP, which could destabilize parts of the country and adversely affect the country’s economy. Any such destabilization could cause interruption to parts of the Company’s business and materially and adversely affect its financial condition, results of operations and prospects.

On May 23, 2017, after a joint operation of the AFP and the Philippine National Police (“**PNP**”) was launched in Marawi City, Lanao del Sur to capture an alleged terrorist leader, prolonged fighting ensued between the AFP and PNP and a radical Islamist group called the “**Maute Group**.” The Maute Group is a local terrorist group inspired by the bigger extremist militant group known as the Islamic State in Iraq and Syria (“**ISIS**”). The attacks prompted President Rodrigo Duterte to declare martial law and suspend the writ of habeas corpus over the whole island of Mindanao. Hostilities have led to several casualties and substantial property damage. Based on news reports, up to 600,000 residents of Marawi City and nearby towns have been displaced as a result of the ongoing clashes between the Maute Group and government troops. On October 17, 2017, the government announced that the leaders of the Maute Group have been killed.

No assurance can be given that the country will not be subject to further acts of terrorism in the future. The possibility of terroristic activities could negatively affect the general economic conditions and operating environment in the Philippines, which could have a material impact on the Company’s business, financial condition and results of operations.

Public health epidemics or outbreaks of diseases could have an adverse effect on economic activity in the Philippines, and could materially and adversely affect the Company’s business, financial condition, and results of operations.

On January 30, 2020, the Department of Health announced that a 38-year old Chinese female from Wuhan, China, the epicenter of cases of the 2019 coronavirus disease (“**COVID-19**”), who arrived in Cebu City from Hong Kong, tested positive for the virus. On

February 2, 2020, the Department of Health announced that a 44-year old Chinese male, also from Wuhan, China, was confirmed to have the COVID-19 and subsequently passed away. This was the first confirmed death outside of China. In view of the rising number of cases of the COVID-19, the Duterte Administration announced on February 2, 2020 that the Philippines is imposing a temporary travel ban against entry of any person, regardless of nationality, except Filipino citizens and holders of Permanent Resident Visas issued by the Philippine government, directly coming from China, and its special administrative regions. The travel bans also included persons who within fourteen (14) days immediately preceding arrival in the Philippines has been to China and its special administrative regions. A mandatory quarantine of fourteen (14) days was imposed upon Filipinos and Permanent Resident Visa holders coming from China and its special administrative regions.

On January 30, 2020, the WHO declared the COVID-19 outbreak a Public Health Emergency of International Concern, and subsequently, with the continued increase in the number of confirmed cases throughout the world, a pandemic on March 11, 2020. In response to the pandemic, on March 12, 2020, the Philippine government placed Metro Manila under Community Quarantine (“**CQ**”) starting on March 15, 2020, which, among others, restricted traveling through land, domestic air, and domestic sea from Metro Manila. On the second day of the implementation of the said CQ, the Philippine government declared a Luzon-wide enhanced community quarantine (“**ECQ**”) to arrest the continuing effect of the disease. The ECQ mandated the temporary closure of non-essential shops and businesses, prohibited mass gatherings and all means of public transportation, and restricted traveling through air, sea and land in and out of Luzon, except for diplomats and uniformed workers (carrying medical supplies), among others. On April 7, 2020, the Philippine government extended the ECQ. The Philippine government subsequently eased its quarantine restrictions in certain areas and placed Metro Manila under a modified enhanced community quarantine (“**MECQ**”) until May 31, 2020, and under a general community quarantine (“**GCQ**”) starting June 1, 2020 until June 15, 2020, which was further extended to June 30, 2020.

On August 4, 2020, Metro Manila was again placed under MECQ due to the spike in COVID-19 cases. On September 11, 2020, the Bayanihan to Recover as One Act was signed into law providing stimulus packages to vulnerable sectors of the country as a measure to alleviate the negative effects of the pandemic. The law also provided a moratorium for the payment of both residential and commercial rental fees.

In March 2021, a spike in cases once again placed Metro Manila under ECQ from March 29, 2021 to April 11, 2021. Metro Manila was thereafter placed under MECQ until May 14, 2021, then to GCQ. On July 30, 2021, the Delta variant entered the country which resulted in the sudden increase of COVID-19 cases in the Philippines. On January 15, 2022, the country had 39,004 new COVID-19 cases with a positivity rate of 43.2%, the highest ever recorded for the Philippines. The number of new cases has then steadily decreased, with an average positivity rate of 1.6% for April 2022. However, on April 27, 2022, the Philippines has reported its first case of Omicron BA.2.12, a subvariant of the Omicron variant which has caused a surge of COVID-19 cases in the United States. As of April 30, 2022, the Philippines had a total of 3,685,403 confirmed cases, 8,389 active cases, and 60,305 deaths.

As of the date of this Prospectus, Metro Manila is under Alert Level 1, while other areas continue to be placed under other levels of community quarantine and there is no assurance that the various areas will not be placed under more stringent community quarantine in the future. The Philippines continues to be challenged as mobility and commercial activity in retail remains limited due to the restrictions and slow roll-out of the vaccination.

If the outbreak of COVID-19, or any public health epidemic in the Philippines increases in severity, it could have an adverse effect on economic activity in the Philippines, and could materially and adversely affect the Company's business, financial condition and results of operations.

RLC is cognizant of COVID-19's potential material impact on its financial performance, the execution of its plans and strategies, and its customers and employees should the situation persist in the longer-term. Nonetheless, its broad business footprint and diversified revenue stream helped cushion the blow of this unprecedented event on the Company. For more information on the impact on the company's operations of COVID-19 and the measures the Company has undertaken to mitigate its effects, please refer to "*Description of Business – Recent Developments Relating to COVID-19*" section of the Prospectus.

The implementation of the second package of the Comprehensive Tax Reform Program ("CTRP") may have a negative effect on the Company.

On December 17, 2017, President Rodrigo Duterte signed into law Republic Act No. 10963 (the "**TRAIN Law**"), which was implemented beginning January 1, 2018. The TRAIN Law, which contains the first package of the tax reforms, increased the excise tax on fuel and other petroleum products, the capital gains tax, and the stock transaction tax on sale of shares, among others. The second package of CTRP, formerly the Corporate Income Tax and Incentives Reform Act ("**CITIRA**"), and now referred to as the Corporate Recovery and Tax Incentives for Enterprises Act ("**CREATE**") or Republic Act No. 11534 became effective on April 11, 2021. Under CREATE, the Government will no longer grant perpetual fiscal incentives such as the 5% tax on gross income earned ("**GIT**"). Registered business enterprises whose projects or activities were granted only an income tax holiday ("**ITH**") prior to the effectivity of CREATE are given a transitory period and may continue to avail themselves of the ITH for the remaining period after CREATE takes effect, while those currently availing of the 5% GIT prior to the effectivity of CREATE are allowed to continue availing themselves of the said tax incentive for 10 years from the effective date of CREATE. Existing activities may avail of the incentives under CREATE, provided that the activities are included in the Strategic Investment Priority Plan ("**SIPP**"), and subject to the criteria and conditions in the SIPP. The SIPP will be formulated upon effectivity of CREATE by the BOI, in coordination with the Fiscal Incentives Review Board, Investment Promotion Agencies ("**IPA**") (as defined under CREATE; includes PEZA), other government agencies administering tax incentives, and the private sector. The SIPP will be submitted to the President for approval and is subject to revision every three years.

Some of the Company's projects entitled to the 5% Special Corporate Income Tax ("**SCIT**") incentive under PEZA have already been transferred to a REIT vehicle which is entitled to other tax incentives far greater than those provided under the aforementioned IPA. Furthermore, despite the imposition of a sunset clause on the availment of some tax incentives, the Company was and will be able to benefit from the reduction in corporate income tax to from 30% to 25% under CREATE.

Territorial disputes with China and a number of Southeast Asian countries

The Philippines, China and several Southeast Asian nations have been engaged in a series of long standing territorial disputes over certain islands in the West Philippine Sea, also known as the South China Sea. The Philippines maintains that its claim over the disputed territories is supported by recognized principles of international law consistent with the United Nations Convention on the Law of the Sea ("**UNCLOS**"). The Philippines made several efforts during the course of 2011 and 2012 to establish a framework for resolving these disputes, calling for multilateral talks to delineate territorial rights and establish a framework for resolving disputes.

Despite efforts to reach a compromise, a dispute arose between the Philippines and China over a group of small islands and reefs known as the Scarborough Shoal. In April and May 2012, the Philippines and China accused one another of deploying vessels to the shoal in an attempt to take control of the area, and both sides unilaterally imposed fishing bans at the shoal. These actions threatened to disrupt trade and other ties between the two (2) countries, including a temporary ban by China on Philippine banana imports, as well as a temporary suspension of tours to the Philippines by Chinese travel agencies. Since July 2012, Chinese vessels have reportedly turned away Philippine fishing boats attempting to enter the shoal, and the Philippines has continued to protest China's presence there. In January 2013, the Philippines sent notice to the Chinese embassy in Manila that it intended to seek international arbitration to resolve the dispute under UNCLOS. China has rejected and returned the notice sent by the Philippines requesting arbitral proceedings. In June 2019, 22 fishermen and owners of Philippine fishing boat Gem-Ver were abandoned in the West Philippine Sea after a Chinese vessel rammed and sunk the boat while it was anchored at the Recto (Reed) Bank in the middle of the West Philippine Sea. On April 28, 2022, it has been reported that the parties have agreed to a ₱6 Million compensation settlement.

Should these territorial disputes continue or escalate further, the Philippines and its economy may be disrupted and the Company's operations could be adversely affected as a result. In particular, this may lead both countries to impose trade restrictions on the other's imports. The Philippines' interests in fishing, trade and offshore drilling, the volume of trade between the Philippines and China, and the supply of steel available to the Philippines may be adversely affected, which in turn may affect, among other things, real estate and infrastructure development and general economic and business conditions in the Philippines.

Risks related to the Bonds

The Bonds do not have the benefit of any security.

The Bonds have a negative pledge status and will not be secured by any collateral or assets of the Company. As of the date of this Prospectus, the Company's borrowings are clean and are not secured by any of its assets.

Robinsons Land may not be able to redeem Bonds come maturity date.

RLC will be required to redeem the Bonds at the maturity date. It might be that, at the maturity date, the Company may not have sufficient cash on hand or may not be able to arrange the financing to redeem the Bonds in time, or on acceptable terms, or at all. The Company's ability to redeem the Bonds in such an event may also be limited by the terms of other debt instruments of the Company. The Company's failure or inability to repay or redeem the Bonds would constitute an event of default under the Bonds, which could lead to a default under the terms of RLC's other debt agreements.

As at the date of this Prospectus, the Company has not defaulted in any of its borrowings. The Company's businesses provide strong recurring cash flows that enable the Company to maintain its gearing ratio at manageable levels. The Company likewise believes that, as at the date of this Prospectus, it has sufficient resources which will allow it to service the principal and interest of the Bonds.

There can be no assurance that ratings on the Bonds will be retained over its life.

There is no assurance that the rating of the Bonds will be retained throughout its life. The rating is not a recommendation to buy, sell, or hold securities and may be subject to revision, suspension, or withdrawal at any time by the assigning rating organization.

The Bonds may be subjected to liquidity risk.

The market for corporate debt securities in the Philippines, are substantially smaller, less liquid and more concentrated than other securities markets. RLC cannot guarantee whether there will be an active trading market for the Bonds or if the liquidity of the Bonds will be sustained throughout its life. Even if the Bonds are listed on the PDEX, the trading of the Bonds may be subject to extreme volatility at times, in response to fluctuating interest rates, developments in local and international capital markets and the overall market for debt securities among other factors. There can be no assurance that the Bonds may be easily disposed of at prices and volumes at instances best deemed appropriate by their holders.

As active trading of the Bonds is highly dependent on the bondholders, the Company has no control over this risk. However, the Company actively cooperates in efforts aimed at improving the capital markets in the Philippines.

The pricing of the Bonds may be subject to market and interest rate risk.

The Bonds' price may be subjected to market and interest rate fluctuations, which may lead to an appreciation or reduction in the value of the Bonds. If market interest rates decrease relative to the coupon rate of the Bonds, the price of the Bonds, when sold in the secondary market, may increase. Conversely, if market interest rates increase relative to the interest rate of the Bonds, the price of the Bonds, when sold in the secondary market, may decrease. Thus, there is a possibility that an investor or bondholder could receive lower proceeds than his initial investment if he decides to sell the Bonds in the secondary market.

The economic interests and incentives of the Joint Issue Managers, Joint Lead Underwriters, and Joint Bookrunners may result in a conflict with those of an investor in the Bonds.

Each Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner, and its corresponding affiliates, and/or counterparties, have economic interests or incentives which may be in conflict with an investor's interests in the Bonds. There can be no assurance that conflicts of interest among the Company, the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners, and its corresponding affiliates, and/or counterparties, will be resolved in favor of the Bondholders. If the interests of RLC, or the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners conflict with the interests of the Bondholders, the Bondholders could be disadvantaged by the actions that the Company chooses to pursue. In addition, each Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner and each Selling Agent will be receiving fees in relation to the Offer. For a more detailed discussion on the fees to be paid to the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners and the Selling Agents, please refer to the section on "*Plan of Distribution*". Nonetheless, each Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner, and Selling Agent is regulated by the relevant regulatory bodies that require each of the Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner, and Selling Agent to have its own Corporate Governance Manual that promotes good governance and takes into account the interest of all stakeholders, including its customers or clients (which includes the bondholders). The Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners and the Selling Agents also have their respective compliance, risk management and internal control measures to ensure that proper safeguards are in place in dealing with customers or clients.

The Bonds may not be the suitable investment for a prospective investor.

Each potential investor in the Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should: (i) have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained in this Prospectus; (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Bonds and the impact the Bonds will have on its overall investment portfolio; (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Bonds, including where the currency for principal or interest payments is different from the potential investor's currency; (iv) understand thoroughly the terms of the Bonds and be familiar with the behavior of any relevant financial markets; and (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate, foreign exchange rate and other factors that may affect its investment and its ability to bear the applicable risks.

PHILIPPINE TAXATION

The following is a discussion of the material Philippine tax consequences of the acquisition, ownership and disposition of the Bonds. This general description does not purport to be a comprehensive description of the Philippine tax aspects of the Bonds and no information is provided regarding the tax aspects of acquiring, owning, holding or disposing of the Bonds under applicable tax laws of other applicable jurisdictions and the specific Philippine tax consequence in light of particular situations of acquiring, owning, holding and disposing of the Bonds in such other jurisdictions. This discussion is based upon laws, regulations, rulings, and income tax conventions (treaties) in effect at the date of this Prospectus.

The tax treatment of a holder of Bonds may vary depending upon such holder's particular situation, and certain holders may be subject to special rules not discussed below. This summary does not purport to address all tax aspects that may be important to a Bondholder.

PROSPECTIVE PURCHASERS OF THE BONDS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF A BOND, INCLUDING THE APPLICABILITY AND EFFECT OF ANY LOCAL OR FOREIGN TAX LAWS.

As used in this section, the term "resident alien" refers to an individual whose residence is within the Philippines and who is not a citizen thereof; a "non-resident alien" is an individual whose residence is not within the Philippines and who is not a citizen of the Philippines. A non-resident alien who is actually within the Philippines for an aggregate period of more than 180 days during any calendar year is considered a "non-resident alien doing business in the Philippines," otherwise, such non-resident alien who is actually within the Philippines for an aggregate period of 180 days or less during any calendar year is considered a "non-resident alien not doing business in the Philippines." A "resident foreign corporation" is a non-Philippine corporation engaged in trade or business within the Philippines; and a "non-resident foreign corporation" is a non-Philippine corporation not engaged in trade or business within the Philippines.

PHILIPPINE TAXATION

On January 1, 2018, Republic Act No. 10963, otherwise known as the Tax Reform for Acceleration and Inclusion ("**TRAIN**") took effect. The TRAIN Law amended provisions of the Tax Code, including provisions on Income Tax, Documentary Stamp Tax, tax on interest income and other distributions, Capital Gains Tax on the sale and disposition of securities, Estate Tax, and Donor's Tax. The TRAIN Law was thereafter amended by Republic Act No. 11534 or the Corporate Recovery and Tax Incentives for Enterprises Act ("**CREATE**").

TAXATION OF INTEREST

The Tax Code provides that interest-bearing obligations of Philippine residents are Philippine-sourced income subject to Philippine income tax. Interest income derived by Philippine resident individuals from the Bonds is thus subject to income tax, which is withheld at source, at the rate of 20% based on the gross amount of interest. Generally, interest on the Bonds received by non-resident foreign individuals engaged in trade or business in the Philippines is subject to a 20% final withholding tax rate; while that received by non-resident foreign individuals not engaged in trade or business is subject to a 25% final withholding tax rate. Interest income received by domestic corporations and resident foreign corporations is subject to a 20% final withholding tax rate. Interest income received by non-resident foreign corporations is subject to a 25% final withholding tax rate. Interest income received by domestic corporations, resident foreign corporations and non-resident foreign corporations is subject to a 20% final withholding tax rate. The tax imposed on the interest is final withholding tax, which constitutes a final settlement of Philippine income tax liability

with respect to such interest.

The foregoing rates are subject to further reduction by any applicable tax treaties in force between the Philippines and the country of residence of the non-resident owner. Most tax treaties to which the Philippines is a party generally provide for a reduced tax rate of 15% in cases where the interest arises in the Philippines and is paid to a resident of the other contracting state. However, most tax treaties also provide that reduced withholding tax rates shall not apply if the recipient of the interest who is a resident of the other contracting state, carries on business in the Philippines through a permanent establishment and the holding of the relevant interest-bearing instrument is effectively connected with such permanent establishment.

On March 31, 2021, the Bureau of Internal Revenue streamlined the documentary requirements and procedure for availing tax treaty benefits including income derived by nonresident Bondholders on the interest payments. Under BIR RMO No. 14-2021, the Bureau of Internal Revenue distinguishes a Request for Confirmation and a Tax Treaty Relief Application (“**TTRA**”). If the withholding agent or income payer outright applies the exemption or preferential rate, then a Request for Confirmation with supporting documents shall be filed. If the withholding agent or income payer uses the regular rate, the non-resident shall need to file a TTRA with supporting documents. After submitting either the Request for Confirmation or the TTRA, the Bureau shall determine whether the submission shall be granted or denied. Pursuant to such, additional documents may be asked from the income payor. If the withholding tax rate applied is lower than the rate that should have been applied on an item of income pursuant to the treaty, or that the nonresident income recipient is not entitled to treaty benefits, then the submission shall be denied and the withholding agent or income payer must pay the deficiency taxes plus penalties. On the other hand, if the withholding rate applied is proper or higher, then the Bureau will issue a certificate confirming that the nonresident income recipient’s entitlement to the treaty benefits.

TAX-EXEMPT STATUS

Bondholders who are exempt from or are not subject to final withholding tax on interest income or who claims to be entitled to reduced tax treaty rates shall, in addition to the documents required to be submitted together with the Application to Purchase, be required to submit the following requirements to the relevant Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners. The Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners shall then forward the same to the Registrar and Paying Agent, subject to approval by the Company as after the same is evaluated as being sufficient in form and substance:

- (a) a valid, current and subsisting BIR certified true copy of the tax exemption certificate, ruling or opinion issued by the BIR addressed to the Applicant confirming the exemption in accordance with BIR Revenue Memorandum Circular No. 8-2014 including any clarification, supplement or amendment thereto;
- (b) with respect to tax treaty relief, a copy of the duly filed request for confirmation or application for TTRA, whichever is applicable;
- (c) an original of the duly notarized undertaking, in the prescribed form, executed by (i) the Corporate Secretary or any authorized representative, who has personal knowledge of the exemption or entitlement to preferential tax treaty rates based on his official functions, if the Applicant purchases the Bonds for its account, or (ii) the Trust Officer, if the Applicant is a universal bank authorized under Philippine law to perform trust and fiduciary functions and purchase the Bonds pursuant to its management of tax-exempt entities (i.e. Employee Retirement Fund, etc.), declaring and warranting

the Bondholder's tax-exempt status or preferential rate entitlement, undertaking to immediately notify the Issuer and the Registrar and Paying Agent of any suspension or revocation of the tax-exemption certificates or preferential rate entitlement and agreeing to indemnify and hold the Issuer, the Registrar and Paying Agent and the Paying Agent free and harmless against any claims, actions, suits, and liabilities resulting from the non-withholding of the required tax; and

- (d) such other documentary requirements as may be reasonably required under the applicable regulations of the relevant taxing or other authorities; provided that the Issuer shall have the exclusive discretion to decide whether the documents submitted are sufficient for purposes of applying the exemption or the reduced rate being claimed by the Bondholder on the interest payments to such Bondholder provided further that, all sums payable by the Issuer to tax-exempt entities shall be paid in full without deductions for Taxes, duties, assessments, or government charges (or with reduced rates, as the case may be), subject to the submission by the Bondholder claiming the benefit of any exemption or preferential rate of reasonable evidence of such exemption or preferential rate treatment to the Registrar and Paying Agent.

Transfers taking place in the electronic Registry Book after the Bonds are listed in PDEX may be allowed between taxable and tax-exempt entities without restriction provided the same are in accordance with the relevant rules, conventions and guidelines of PDEX and PDTC. A selling or purchasing Bondholder claiming tax-exempt status is required to submit the following documents to the Issuer, upon submission of the account opening documents to the Registrar: (i) a written notification of the sale or purchase, including the tax status of the selling or buying party; and (ii) an indemnity agreement wherein the new Bondholder undertakes to indemnify the Issuer for any tax that may later on be assessed on the Issuer on account of such transfer.

VALUE-ADDED TAX

Gross receipts arising from the sale of the Bonds in the Philippines by Philippine-registered dealers in securities and lending investors shall be subject to a 12% value-added tax. The term **"gross receipt"** means gross selling price less cost of the securities sold.

"Dealer in securities" means a merchant of stock or securities, whether an individual partnership or corporation, with an established place of business, regularly engaged in the purchase of securities and their resale to customers, that is, one who as a merchant buys securities and sells them to customers with a view to the gains and profits that may be derived therefrom.

GROSS RECEIPTS TAX

Bank and non-bank financial intermediaries performing quasi-banking functions are subject to gross receipts tax on gross receipts derived from sources within the Philippines in accordance with the following schedule:

On interest, commissions and discounts from lending activities as well as income from financial leasing, on the basis of remaining maturities of instruments from which such receipts are derived:

Maturity period is five (5) years or less	5%
Maturity period is more than five (5) years	1%

In case the maturity period referred above is shortened through pre-termination or otherwise redeemed by the Issuer pursuant to the terms and conditions of the Bonds, then the maturity

period shall be reckoned to end as of the date of pre-termination for purposes of classifying the transaction and the correct rate shall be applied accordingly.

Net trading gains realized within the taxable year on the sale or disposition of the Bonds by banks and nonbank financial intermediaries performing quasi-banking functions shall be taxed at 7%.

Meanwhile, other non-bank financial intermediaries doing business in the Philippines are subject to gross receipts tax of five percent (5%) on the gross receipts derived by, from interests, commissions, discounts, and all other items treated as gross income.

DOCUMENTARY STAMP TAX

A documentary stamp tax is imposed upon the issuance of debentures and certificates of indebtedness issued by Philippine companies, such as the Bonds, at the rate of ₱1.50 for each ₱200.00, or fractional part thereof, of the issue price of such debt instruments; provided that, for debt instruments with terms of less than one year, the documentary stamp tax to be collected shall be of a proportional amount in accordance with the ratio of its term in number of days to 365 days.

The documentary stamp tax is collectible wherever the document is made, signed, issued, accepted, or transferred, when the obligation or right arises from Philippine sources, or the property is situated in the Philippines. Any applicable documentary stamp taxes on the original issue shall be paid by the Issuer for its own account.

No documentary stamp tax is imposed on the subsequent sale or disposition of the Bonds in a secondary market or through an exchange; provided that such subsequent sale or disposition is not in the Philippines or there is no change in the maturity date or the material terms and conditions of the Bonds.

TAXATION ON SALE OR OTHER DISPOSITION OF THE BONDS

Income Tax

Any gain realized from the sale, exchange or retirement of bonds will, as a rule, form part of the gross income of the sellers, for purposes of computing the relevant taxable income subject to the regular rates of 20-35% effective January 1, 2018 until December 31, 2022 and 15%-35% effective January 1, 2023 for individuals or 20-25% for domestic and foreign corporations, as the case may be. If the bonds are sold by a seller, who is an individual and who is not a dealer in securities, who has held the bonds for a period of more than twelve (12) months prior to the sale, only 50% of any capital gain will be recognized and included in the sellers' gross taxable income.

However, under the Tax Code, any gain realized from the sale, exchange or retirement of bonds, debentures and other certificates of indebtedness with an original maturity date of more than five (5) years (as measured from the date of issuance of such bonds, debentures or other certificates of indebtedness) shall not be subject to income tax. Moreover, any gain arising from such sale, regardless of the original maturity date of the bonds, may be exempt from income tax pursuant to various income tax treaties to which the Philippines is a party, and subject to procedures prescribed by the BIR for the availment of tax treaty benefits.

The Bondholder will recognize gain or loss upon the sale or other disposition (including a redemption at maturity) of the Bonds in an amount equal to the difference between the amount realized from such disposition and such Bondholder's basis in the Bonds. Such gain or loss is likely to be deemed a capital gain or loss assuming that the Bondholder has held

the Bonds as capital assets.

Estate and Donor's Tax

The transfer by a deceased person, whether a Philippine resident or non-Philippine resident, to his heirs of the Bonds shall be subject to an estate tax which is levied on the net estate of the deceased at a fixed rate of 6%. A Bondholder shall be subject to donor's tax on the transfer of the Bonds by gift at the fixed 6% based on the total gifts in excess of ₱250,000 made during the calendar year, whether the donor is a stranger or not.

The estate tax and the donor's tax, in respect of the Bonds, shall not be collected (a) if the deceased, at the time of death, or the donor, at the time of the donation, was a citizen and resident of a foreign country which, at the time of his death or donation, did not impose a transfer tax of any character in respect of intangible personal property of citizens of the Philippines not residing in that foreign country; or (b) if the laws of the foreign country of which the deceased or donor was a citizen and resident, at the time of his death or donation, allows a similar exemption from transfer or death taxes of every character or description in respect of intangible personal property owned by citizens of the Philippines not residing in the foreign country.

In case the Bonds are transferred for less than an adequate and full consideration in money or money's worth, the amount by which the fair market value of the Bonds exceeded the value of the consideration may be deemed a gift and may be subject to donor's taxes. However, the transfer of the Bonds made in the ordinary course of business (a transaction which is a bona fide, at arm's length, and free from any donative intent), will be considered as made for an adequate and full consideration in money or money's worth.

The Company plans to use approximately ₱[3.45] billion in case the Oversubscription Option is not exercised, or approximately ₱[5.20] billion, in case the Oversubscription Option is exercised, out of the net proceeds from the Offer to repay the Company's short-term

obligations. In case the actual proceeds are less than the projected proceeds, repayment of short-term loans availed from BPI, Metrobank and Mizuho will be prioritized.

While awaiting disbursements, the Company may deposit the funds in time deposits or special deposit accounts and/or invest the same in Philippine government Peso-denominated securities.

No amount of proceeds shall be used to reimburse any officer, director, employee, or stockholder for services rendered, assets previously transferred, money loaned or advanced, or otherwise.

The foregoing discussion represents a best estimate of the use of proceeds of the Offer based on the Company's current plans and anticipated expenditures. In the event there is any change in the Company's current plans, including force majeure, market conditions and other circumstances, the Company will carefully evaluate the situation and may temporarily or permanently reallocate the proceeds for future projects, discharge maturing debt obligations or other uses, and/or hold such funds in investments, whichever is better for the Company's and its stockholders' interest taken as a whole. The Company's cost estimates may also change as these plans are developed further, and actual costs may be different from budgeted costs. For these reasons, timing and actual use of the net proceeds may vary from the foregoing discussion and the Company's management may find it necessary or advisable to alter its plans. In the event of any substantial deviation or substantial adjustment in the planned use of proceeds, the Company shall inform the SEC and the Bondholders at least thirty (30) days prior to the implementation of such substantial deviation or substantial adjustment.

In the event that the Oversubscription Option is partly exercised or not exercised at all during the Offer Period, or in case the Company is not able to raise the full amount of the Offer, the Company shall use internally generated funds and/or available bank lines to the extent the proceeds of the Offer are insufficient to fund its requirements.

In the event of an oversubscription, the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners, in consultation with the Issuer, may increase the size of the Offer by up to [Five] Billion Pesos (P[5,000,000,000]). The Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners shall have exclusive rights and priority to exercise the Oversubscription Option. In the event that the Oversubscription Option is partly exercised or not exercised at all during the Offer Period, the unexercised portion shall be automatically cancelled. The bonds shall form part of the remaining bonds in the shelf available for issuance within the shelf period. There is no arrangement for any of the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners to return to the Issuer any unsold Bonds.

The underwriting fees and any selling fees to be paid by the Company in relation to the Offer shall be equivalent to [0.3875]% of the gross proceeds of the Offer. This shall be inclusive of fees to be paid to the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners and any commissions to be paid to the sub-underwriters and selling agents, if any.

For the purpose of complying with their commitments under the Underwriting Agreement, the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners may, under such terms and conditions not inconsistent with the provisions of the Underwriting Agreement, particularly the underwriting commitment of the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners, enter into agreements with sub-underwriters, and appoint selling agents for the

The Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners have no direct relations with the Company in terms of ownership by either of their respective major stockholder/s, and have no right to designate or nominate any member of the Board of Directors of the Company.

The obligations of each of the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners will be joint, and not solidary, and nothing in the Underwriting Agreement shall be deemed to create a partnership or joint venture between or among any of the Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners or to constitute them as agents of each other. Unless otherwise expressly provided in the Underwriting Agreement, the failure by a Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner to carry out its obligations thereunder shall neither relieve the other Joint Issue Managers, Joint Lead Underwriters and Joint Bookrunners of their obligations under the same Underwriting Agreement, nor shall any Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner be responsible for the obligation of another Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner.

Each Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner or its affiliates may purchase the Bonds for its own account. Such transactions may be carried out as bilateral trades with selected counterparties and separately from any existing sale or resale of the Bonds to which this Prospectus relates (notwithstanding that such selected counterparties may also be a purchaser of the Bonds). As a result of such transactions, a Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner or its affiliates may hold long or short positions relating to the Bonds. Each of the Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner and its affiliates may also engage in investment or commercial banking and other dealings in the ordinary course of business with the Issuer or its affiliates from time to time and may receive fees and commissions for these transactions. Each Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner or its affiliates may also purchase the Bonds for asset management and/or proprietary purposes but not with a view to distribute or may hold the Bonds on behalf of clients or in the capacity of investment advisors. While each Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner and its affiliates have policies and procedures to deal with conflicts of interests, any such transactions may cause a Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner or its affiliates or its clients or counterparties to have economic interests and incentives which may conflict with those of an investor in the Bonds. Each Joint Issue Manager, Joint Lead Underwriter and Joint Bookrunner may

receive returns on such transactions and has no obligation to take, refrain from taking or cease taking any action with respect to any such transactions based on the potential effect on a prospective investor in the Bonds.

Upon listing of the Bonds in PDEX, the Issuer shall disclose any transactions in accordance with the applicable PDEX disclosure rules.

General

The offering and issuance of up to [Ten] Billion Pesos (₱10,000,000,000) with an Oversubscription Option of up to [Five] Billion Pesos (₱5,000,000,000) (collectively, the “**Bonds**”) was authorized by a resolution of the Board of Directors of Robinsons Land Corporation (the “**Issuer**” or “**RLC**”) on [•].

The Bonds shall be constituted by a Trust Agreement to be executed on or about [•] 2022 (the “**Trust Agreement**”) by and between the Issuer and [BDO Unibank, Inc. – Trust and Investments Group] (the “**Trustee**,” which term shall, wherever the context permits, include all other persons or companies for the time being acting as trustee or trustees under the Trust Agreement). The description of the terms and conditions of the Bonds (“**Terms and Conditions**”) set out below includes summaries of, and is subject to, the detailed provisions of the Trust Agreement. The Trustee has no interest in or relation to the Issuer which may conflict with the performance of its functions.

A Registry and Paying Agency Agreement shall be executed on or about [•] (the “**Registry and Paying Agency Agreement**”) in relation to the Bonds between the Issuer and the Philippine Depository & Trust Corp. (“**PDTC**”) as paying agent (the “**Paying Agent**”) and registrar (the “**Registrar**”). PDTC has no interest in or relation to the Issuer which may conflict with the performance of its functions.

Copies of the Trust Agreement and the Registry and Paying Agency Agreement are available for inspection during regular business hours at the specified offices of the Trustee and the Registrar. The holders of the Bonds (the “**Bondholders**”) are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Agreement and are deemed to have notice of those provisions of the Registry and Paying Agency Agreement applicable to them.

Form and Denomination

The Bonds shall be issued in scripless form and shall be offered and sold through a general public offering in the Philippines. The Bonds shall be issued in minimum denominations of [Fifty Thousand] Pesos (₱50,000) each and in multiples of [Ten Thousand] Pesos (₱10,000) thereafter, and shall be transferable and traded in denominations of [Ten Thousand] Pesos (₱10,000) in the secondary market.

A Master Certificate of Indebtedness representing each of the Bonds sold in the Offer shall be issued to and registered in the name of the Trustee for the benefit of the Bondholders.

Title

Legal title to the Bonds shall be shown in the register of Bondholders (the “**Registry Book**”) maintained by the Registrar. A notice confirming the principal amount of the Bonds purchased by each Applicant in the Offer shall be issued by the Registrar to all Bondholders following the Issue Date. Upon any assignment, title to the Bonds shall pass by recording of the transfer from the transferor to the transferee in the electronic Registry Book maintained by the Registrar. Settlement in respect of such transfer or change of title to the Bonds, including the settlement of any cost arising from such transfers, including, but not limited to, documentary stamps taxes, if any, arising from subsequent transfers, shall be for the account of the relevant Bondholder.

Bond Rating

The Bonds have been rated PRS Aaa with a Stable Outlook by Philippine Rating Services Corporation (“**PhilRatings**”). Obligations rated PRS Aaa with a Stable Outlook are of the highest quality with minimal credit risk. RLC’s capacity to meet its financial commitment on the obligation is strong.

The rating and outlook assigned reflects the following key considerations: a) RLC’s solid competitive position; b) healthy liquidity; c) sound capitalization; and d) its solid fundamentals to temper the immediate adverse impact of the quarantine restrictions and the coronavirus disease (“**COVID-19**”) pandemic in the short-term, and help recovery in the medium- to long-term.

The rating is subject to regular annual reviews, or more frequently as market developments may dictate, for as long as the Bonds are outstanding. After Issue Date, the Trustee shall likewise monitor the compliance by the Issuer with certain covenants in relation to the Bonds through regular annual reviews.

Transfers of the Bonds

Registry Book

The Issuer shall cause the Registry Book to be kept by the Registrar, in electronic form. The names and addresses of the Bondholders and the particulars of the Bonds held by them and of all transfers of Bonds shall be entered into the Registry Book. Transfer of ownership shall be effected through the book-entry transfers in the scripless Registry Book.

As required by Circular No. 428-04 issued by the BSP, the Registrar shall send each Bondholder a written statement of registry holdings at least quarterly (at the cost of the Issuer) and a written advice confirming every receipt or transfer of the Bonds that is effected in the Registrar’s system (at the cost of the Bondholder). Such statement of registry holdings shall serve as the confirmation of ownership of the relevant Bondholder as of the date thereof. Any and/or all requests of Bondholders for certifications, reports, or other documents from the Registrar, except as provided herein, shall be for the account of the requesting Bondholder.

Transfers; Tax Status

No transfers of the Bonds may be made during the period intervening between the Record Date and any relevant date when payment of principal or interest is due.

Other than as stated above, Bondholders may transfer their Bonds at any time, regardless of tax status of the transferor vis-à-vis the transferee. Should a transfer between Bondholders of different tax status occur on a day which is not an Interest Payment Date (such as but not limited to a transfer between a taxable and non-taxable person, or between parties who claim the benefit of a tax treaty or other such similar situations), tax exempt entities trading with tax-paid entities shall be treated as non-tax exempt entities for the Interest Period within which such transfer occurred. Transfers taking place in the Registry Book after the Bonds are listed on PDEX shall be allowed between taxable and tax-exempt entities without restriction and observing the tax exemption of tax exempt entities, if and/or when so allowed under and in accordance with the relevant rules, conventions and guidelines of PDEX and PDTC.

The Bondholders shall be responsible for monitoring and accurately reflecting their tax status in the Registry Book. The payment report to be prepared by the Registrar and submitted to the Issuer in accordance with the Registry and Paying Agency Agreement, which shall be the basis of payments on the Bonds on any Payment Date, shall reflect the tax status of the Bondholders as indicated in their accounts as of the Record Date.

A Bondholder claiming tax-exempt status is required to submit a written notification of the sale or purchase to the Trustee and the Registrar, including the tax status of the transferor or transferee, as appropriate, together with the supporting documents specified under *"Payment of Additional Amounts; Taxation"*, below, within three (3) days from the settlement date for such transfer before such tax-exempt status shall be accepted by the Issuer.

Secondary Trading of the Bonds

The Issuer intends to list the Bonds on the PDEX on Issue Date to facilitate secondary market trading. The Bonds will be traded in a minimum board lot size of [•] Pesos (₱ [•]) as a minimum, and in multiples of Ten Thousand Pesos (₱[10,000]) in excess thereof for as long as any of the Bonds are listed on PDEX. Secondary market trading and settlement of the Bonds on PDEX shall be governed by applicable PDEX rules. Transactions on the Bonds after the Issue Date (secondary market trading and non-trade transactions) are subject to the standard trading, clearing, settlement, depository maintenance and transfer fees of PDEX and PDTC, or capital gains taxes, as applicable.

The Registrar shall not reflect any transfers in the Registry Book where the same are defined as "Restricted Transfers" in the Registry and Paying Agency Agreement, such as:

- (i) transfers between persons of varying tax status occurring on a day which is not an Interest Payment Date, such as but not limited to a transfer between a taxable and non-taxable person; or between parties who claim the benefit of a tax treaty or other such similar situations, tax-exempt entities trading with non-tax exempt entities shall be treated as non-tax-exempt entities for the Interest Period within which such transfer occurred;
- (ii) transfers during a Closed Period. **"Closed Period"** means the periods during which the Registrar shall not record any transfer or assignment of the Bonds, specifically: (a) the period of two (2) Business Days preceding any Interest Payment Date or the due date for any payment of the principal amount of the Bonds; or (b) the period when any Bonds have been previously called for redemption; and
- (iii) transfers by Bondholders with deficient documents.

Ranking

The Bonds constitute direct, unconditional, unsecured, and unsubordinated Peso-denominated obligations of the Issuer and shall rank *pari passu* and ratably without any preference or priority (except for any statutory preference or priority applicable in the winding-up of the Issuer) amongst themselves and at least *pari passu* with all other outstanding unsecured and unsubordinated obligations (contingent or otherwise, present and future) of the Issuer, other than obligations preferred by law other than the preference or priority established by Article 2244(14)(a) of the Civil Code of the Philippines.

The Bonds shall not constitute or create bonded indebtedness.

Interest

Interest Payment Dates

Each Bond bears interest on its principal amount from and including Issue Date at the rate of [•]% per annum for the Series E bonds and [•]% per annum for the Series F bonds payable [quarterly] in arrears starting on [•] as the first Interest Payment Date, and on the [•] day of [•] and [•] of each year at which the Bonds are outstanding as the subsequent Interest Payment Dates. If the Interest Payment Date is not a Business Day, interest will be paid on the next succeeding Business Day, without adjustment to the amount of interest to be paid. The last Interest Payment Date shall fall on the Maturity Date or the immediately succeeding Business Day if such date is not a Business Day, without any adjustment to the amount due.

The cut-off date in determining the existing Bondholders entitled to receive interest or principal or any other amount due under the Bonds shall be two (2) Business Days immediately preceding the relevant Interest Payment Date or Maturity Date (the “**Record Date**”). Hence, the Record Date shall be the reckoning day in determining the Bondholders entitled to receive interest, principal or any other amount due under the Bonds. No transfers of the Bonds may be made during this period intervening between the Record Date and the relevant Interest Payment Date.

Interest Accrual

Each Bond shall cease to accrue and bear interest from the Issue Date up to and including the relevant Early Redemption Date and Maturity Date, as defined in the discussion on “*Final Redemption*”, below, unless, upon due presentation, payment of the principal in respect of the Bond then outstanding is not made, is improperly withheld, or refused by the Issuer, in which case the Penalty Interest (see “*Penalty Interest*” below) shall apply.

Determination of Interest Amount

The interest shall be calculated on the basis of a 30E/360 day count basis, consisting of twelve (12) months of thirty (30) days each and, in the case of an incomplete month, the number of days elapsed on the basis of a month of thirty (30) days.

Call Option

Issuer has the right, but not the obligation, to redeem (in whole but not in part) the outstanding Bonds before the relevant Maturity Date on any one of the following Call Option Dates below, or the immediately succeeding Business Day if such date is not a Business Day, in accordance with the following schedule:

For the Series F Bonds:

Call Option Dates	Call Option Price
12 th to 15 th Interest Payment Date	101.0%
16 th to 19 th Interest Payment Date	100.5%

The amount payable to the Bondholders in respect of any such redemption shall be calculated as the sum of (i) the Call Option Price applied to the principal amount of the then outstanding Bonds being redeemed and (ii) all accrued interest on the Bonds as of the Call Option Date.

Should the Issuer elect to exercise the Call Option, it shall do so by delivery of an original and three (3) copies of a notice of such exercise to the Trustee, submitted during business hours on a date no earlier than sixty (60) days and no later than thirty (30) days prior to the Call Option Date. Once executed, completed and delivered to the Trustee, a Call Option notice is irrevocable.

Upon receipt of a Call Option notice fully complying with these Terms and Conditions as set out in this section, the Trustee shall notify the Bondholders thereof by transmitting such notice through any of the means prescribed under “*Notice to the Bondholders*” of these Terms and Conditions.

Notwithstanding anything to the contrary, in the event the Issuer has delivered a Call Option notice to the Trustee, any interest payment due on the Interest Payment Date immediately preceding the Call Option Date shall be paid on such Call Option Date.

Redemption and Purchase

Final Redemption

Unless previously purchased, redeemed or cancelled, the Bonds shall be redeemed at par or 100% of face value on their respective Maturity Dates. However, if the relevant Maturity Date is not a Business Day, payment of all amounts due on such date will be made by the Issuer through the Paying Agent, without adjustment to the amount of interest and principal to be paid, on the succeeding Business Day.

Redemption for Taxation Reasons

The Bonds may be redeemed at the option of the Issuer in whole, but not in part, at any time, upon giving not less than thirty (30) nor more than sixty (60) days’ notice to the Bondholders, through the Trustee (which notice shall be irrevocable) should payments under the Bonds become subject to additional Taxes, if:

- (i) prior to the giving of such notice, the Issuer determines and provides the Trustee an opinion of legal counsel or written advice of a qualified tax expert, such legal counsel or tax expert being from an internationally recognized law or accountancy firm reasonably acceptable to the Trustee, that it has or will become obliged to pay additional Taxes as a result of any change in, or amendment to, the laws or regulations of the Philippines or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the Issue Date; and

- (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it.

Upon redemption by the Issuer for taxation reasons, the Bonds shall be redeemed at their principal amount, together with interest accrued to the date fixed for the redemption of the Bonds and such additional sum, if any, as will result in ensuring that the Bondholders, shall receive the same amount as if such increased or additional tax were not paid by the Issuer, notwithstanding the payment by the Issuer of the increase or additional tax, provided that no such notice of redemption shall be given earlier than ninety (90) days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts.

Prior to giving notice of redemption, the Issuer shall deliver to the Trustee a certificate signed by two (2) directors of the Issuer stating that the obligation referred to in (i) above cannot be avoided by the Issuer taking reasonable measures available to it and the Trustee shall be entitled to accept such certificate as sufficient evidence of the satisfaction of the condition precedent set out in (ii) above, in which event it shall be conclusive and binding on the Bondholders. Upon receipt by the Trustee of a redemption notice from the Issuer hereunder, the Trustee shall transmit the same notice to the Bondholders.

For the avoidance of doubt, the right of the Issuer to redeem the Bonds may be exercised prior to the Issuer becoming obliged to pay the additional or increased taxes. Upon redemption, the Issuer shall not be liable for any additional or increased taxes which it has not yet become obliged to pay on or prior to the date of redemption.

If the Issuer does not redeem the Bonds then all payments of principal and interest in respect of the Bonds shall be made free and clear of, and without withholding or deduction for, any such new or additional taxes, duties, assessments or governmental charges, unless such withholding or deduction is required by applicable law. The Bondholders shall not have any right to cause the Issuer to redeem the Bonds due to taxation reasons.

Redemption due to Change in Law or Circumstance

If any provision of the Trust Agreement or any of the related documents is or shall become, for any reason, invalid, illegal, or unenforceable to the extent that it shall become, for any reason, unlawful for the Issuer to give effect to its rights or obligations hereunder, or to enforce any provisions of the Trust Agreement or any of the related documents in whole or in part, or any law shall be introduced to prevent or restrain the performance by the parties hereto of their obligations under the Trust Agreement or any other related documents, the Issuer shall provide the Trustee an opinion of legal counsel confirming the foregoing, such legal counsel being from an internationally recognized law firm reasonably acceptable to the Trustee.

Thereupon, the Trustee, upon notice to the Issuer, shall declare the principal of the Bonds, including all accrued interest and other charges thereon, if any, to be immediately due and payable, and upon such declaration, the same shall be immediately due and payable without any pre-payment penalty, notwithstanding anything in the Trust Agreement or in the Bonds to the contrary.

Purchase and Cancellation

The Issuer may at any time purchase any of the Bonds at any price in the open market or by tender or by contract at any price, in accordance with PDEx rules, as may be amended from time to time at any price, without any obligation to purchase (and the Bondholders shall not be obliged to sell) Bonds *pro rata* from all Bondholders. Any Bonds so purchased shall be redeemed and cancelled and may not be re-issued. Upon listing of the Bonds on PDEx,

the Issuer shall disclose any such transactions in accordance with the applicable PDEX disclosure rules.

Payments

The principal of, interest on, and all other amounts payable on the Bonds shall be paid by the Issuer through the Paying Agent to the Bondholders by crediting of the settlement accounts designated by each of the Bondholders. The principal of, and interest on, the Bonds shall be payable in Philippine Pesos. The Issuer shall ensure that so long as any of the Bonds remain outstanding, there shall at all times be a Paying Agent for the purposes of the Bonds. The Issuer may terminate the appointment of the Paying Agent, as provided in the Registry and Paying Agency Agreement. In the event the appointed office of any institution shall be unable or unwilling to continue to act as the Paying Agent, the Issuer shall appoint the Makati City branch office of such other leading institution in the Philippines authorized to act in its place, able to perform the same functions as the Paying Agent, and agreed upon among the Trustee, the Majority Bondholders and the Issuer. The Paying Agent may not resign its duties or be removed without a successor having been appointed.

Any amounts payable on the Bonds shall be paid to the Bondholders appearing on the Registry Book as of the relevant Record Date.

The Paying Agent shall open and maintain a Payment Account, which shall be operated solely and exclusively by the said Paying Agent in accordance with the Paying Agency and Registry Agreement, provided that beneficial ownership of the Payment Account shall always remain with the Bondholders. The Payment Account shall be used exclusively for the payment of the relevant interest and/or principal on each payment date. The Paying Agent shall maintain the Payment Account for six (6) months from Maturity Date or date of early redemption. Upon closure of the Payment Account, any balance remaining in such Payment Account shall be returned to the Issuer and shall be held by the Issuer in trust and for the irrevocable benefit of the Bondholders with unclaimed interest and principal payments

Payment of Additional Amounts; Taxation

Interest income on the Bonds is subject to a final withholding tax at rates between 20% and 30% depending on the tax status of the relevant Bondholder and subject to its claim of tax exemption or preferential withholding tax rates under relevant law, regulation, or tax treaty. Except for such final withholding tax and as otherwise provided, all payments of principal and interest, including penalty interest, are to be made free and clear of any deductions or withholding for or on account of any present or future taxes or duties imposed by or on behalf of the Republic of the Philippines, including, but not limited to, issue, registration, or any similar tax or other taxes and duties, including interest and penalties, if any. If such taxes or duties are imposed, the same shall be for the account of the Issuer; provided, however, that the Issuer shall not be liable for the following:

- (a) Income tax on any gain by a holder of the Bonds realized from the sale, exchange or retirement of the said Bonds;
- (b) The applicable final withholding tax on interest, including penalty interest, earned on the Bonds prescribed under the Tax Code, as amended and its implementing rules and regulations as may be in effect from time to time. Interest income on the Bonds is subject to a final withholding tax at rates between 20% and 30%, depending on the tax status of the relevant Bondholder and subject to its claim of tax exemption or preferential withholding tax rates under relevant law, regulation or tax treaty. An investor who is exempt from the aforesaid withholding tax, or is subject to a preferential withholding tax

rate shall be required to submit the following requirements to the Registrar, subject to approval by the Issuer after the same is evaluated as being sufficient in form and substance:

- (i) a certified true copy of the original tax exemption certificate, ruling or opinion issued by the BIR addressed to the Applicant confirming the exemption, and certified by an authorized officer of the Applicant as being a true copy of the original on file with the Applicant;
 - (ii) a duly notarized undertaking, in the prescribed form, executed by (ii.a) the Corporate Secretary or any authorized representative, who has personal knowledge of the exemption based on his official functions, if the Applicant purchases the Bonds for its account, or (ii.b) the Trust Officer, if the Applicant is a universal bank authorized under Philippine law to perform trust and fiduciary functions and purchase the Bonds pursuant to its management of tax-exempt entities (*i.e.*, Employee Retirement Fund, etc.), declaring and warranting such entities' tax exempt status or preferential rate entitlement, with an undertaking to immediately notify the Issuer and the Registrar and Paying Agent of any suspension or revocation of the tax exemption certificates or preferential rate entitlement, and agreeing to indemnify and hold the Issuer and the Registrar and Paying Agent free and harmless against any claims, actions, suits, and liabilities resulting from the non-withholding of the required tax; and
 - (iii) such other documentary requirements as may be required by the Issuer and/or the Registrar, including requirements under the applicable regulations of the relevant taxing or other authorities which for purposes of claiming tax treaty withholding rate benefits, shall include evidence of the applicability of a tax treaty and authenticated/consularized/apostilled proof of the Bondholder's legal domicile in the relevant treaty state, and confirmation acceptable to the Issuer that the Bondholder is not doing business in the Philippines; provided further that all sums payable by the Issuer to tax exempt entities shall be paid in full without deductions for taxes, duties assessments, or government charges, subject to the submission by the Bondholder claiming the benefit of any exemption of reasonable evidence of such exemption to the Registrar;
- (c) For Bondholders that are residents of countries with which the Philippines has a tax treaty, in order to apply the pertinent preferential tax treaty rates on the interest payments due on the Bonds, the non-resident Bondholder must submit the following documents prior to the payment of interest income by the Issuer:
- (i) Letter-request;
 - (ii) Application Form duly signed by the nonresident Bondholder or its/his/her authorized representative;
 - (iii) An authenticated original of the tax Residency Certificate for the relevant period, duly issued by the tax authority of the foreign country in which the Bondholder is a resident;

 - (viii) such other documentary requirements as may be reasonably required under the applicable regulations of the relevant taxing or other authorities

provided further that, all sums payable by the Issuer to tax exempt entities shall be paid in full without deductions for taxes, duties assessments or government charges subject to the submission by the Bondholder claiming the benefit of any exemption of reasonable evidence of such exemption to the Registrar and Paying Agent;

(d) Gross Receipts Tax under Section 121 of the Tax Code;

(e) Income tax on all income, of any securities dealer or Bondholder, whether or not subject to withholding; and

(f) Value Added Tax (“**VAT**”) under Sections 106 to 108 of the Tax Code, and as amended by Republic Act No. 9337.

Documentary stamp tax for the primary issue of the Bonds and the execution of the Bond Agreements, if any, shall be for the Issuer’s account.

Financial Covenants

Until redemption or payment in full of the aggregate outstanding principal amount of the Bonds, the Issuer hereby covenants and agrees with the Trustee that, unless the Majority Bondholders shall otherwise consent in writing it will maintain a ratio of Consolidated Total Borrowings to Consolidated Shareholders’ Equity not exceeding 2:1 as referenced from its consolidated audited financial statements as of interim condensed consolidated financial calendar year end December 31 and reviewed statements as at March 31, June 30 and September 30.

For purposes of this section, the following defined terms shall have the respective meanings set forth below:

“Consolidated Statements of Financial Position” means the latest available consolidated statements of financial position of the Issuer at that time.

“Consolidated Total Borrowings” means the aggregate of the Financial Indebtedness of the Issuer and its Subsidiaries (without double counting).

- iii. Minority interests in the net assets of the Issuer.

Other than the above, there are no other financial covenants that RLC will maintain with respect to the Bonds. The Trust Agreement provides for other positive and negative covenants of the Bonds.

Negative Pledge

No delay or omission by the Trustee or the Bondholders to exercise any right or power arising from or on account of any default hereunder shall impair any such right or power, or shall be construed to be a waiver of any such default or an acquiescence thereto; and every power and remedy given by the Trust Agreement to the Trustee or the Bondholders may be exercised from time to time and as often as may be necessary or expedient.

Ability to File Suit

No Bondholder shall have any right by virtue of or by availing of any provision of the Trust Agreement to institute any suit, action or proceeding for the collection of any sum due from the Issuer hereunder on account of principal, interest, and other charges, or for the appointment of a receiver or trustee, or for any other remedy hereunder, unless (i) such Bondholder previously shall have given to the Trustee written notice of an Event of Default and of the continuance thereof and the related request for the Trustee to convene a meeting of the Bondholders to take up matters related to their rights and interests under the Bonds; (ii) the Majority Bondholders shall have decided and made the written request upon the Trustee to institute such action, suit, or proceeding in the latter's name; (iii) the Trustee for sixty (60) days after the receipt of such notice and request shall have neglected or refused to institute any such action, suit, or proceeding; and (iv) no directions inconsistent with such written request shall have been given under a waiver of default by the Bondholders, it being understood and intended, and being expressly covenanted by every Bondholder with every other Bondholder and the Trustee, that no one or more Bondholders shall have any right in any manner whatever by virtue of or by availing of any provision of the Trust Agreement to affect, disturb, or prejudice the rights of the holders of any other such Bonds or to obtain or seek to obtain priority over or preference to any other such holder or to enforce any right under the Trust Agreement, except in the manner herein provided and for the equal, ratable, and common benefit of all the Bondholders.

Waiver of Default by the Bondholders

The Majority Bondholders may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee for exercising any trust or power conferred upon the Trustee, or the Majority Bondholders may decide for and on behalf of the relevant Bondholders to waive any past default, except the events of default defined as a payment default, cross default, expropriation default, or insolvency default, and its consequences. CORPORATE STRUCTURE

The chart below provides an overview of RLC's corporate structure, including its subsidiaries and associates, as of March 31, 2022.

COMPETITIVE STRENGTHS

RLC remains to be one of the Philippines' leading property developers by consistently enhancing its core strengths:

1. Established Reputation and Brand Name

RLC has been in the Philippine real estate development business for more than 30 years. Over the years, the Company has expanded its business portfolio from developing and operating lifestyle commercial centers, to developing high-profile projects in complementary areas of real estate development, including office and residential buildings, housing and land developments, industrial facilities and hotel operations. Today, RLC is one of the Philippines' leading real estate developers in terms of revenues, number of projects and total project size. The Company believes that it has developed a reputation for quality and reliability and for delivering projects on time, within budget and in accordance with or exceeding customers' expectations. RLC also believes that it is recognized in the real estate market for the convenient locations of its projects, the quality of amenities that it delivers and the affordability of its products.

2. Diversified Business Portfolio and Earnings Base

RLC has adopted a diversified business model with both an "investment" component and a "development" component. This broad business footprint provides RLC with a diversified earnings base. The "investment" component of the Company's business, principally its shopping malls or lifestyle commercial centers, office buildings, industrial facilities and hotels, provides the Company with steady, relatively predictable earnings and cash flow. On the other hand, the "development" component of the business, principally the residential condominiums and housing and land developments, provides significant business growth potential. The balanced mix of investment and development components ensures RLC of stable recurring revenues even during down cycles in the property industry. Another feature of its diverse earnings base is that RLC can leverage its strong cash flow to finance investment and growth on the development side of its business.

3. Strong Financial Position

The Company maintains a strong balance sheet position. Its diversified earnings mix provides a solid financial base for the Company, and a stable source of funds for business expansion and other capital. In part due to its strong cash flow, the Company does not have significant levels of outstanding indebtedness, which places the Company in a strong position to access a variety of available funding sources. This financial strength, together with the reputation that the Company has earned over the years, provides a strong platform for business growth going forward.

4. Experienced Management Team

RLC has an experienced management team with a proven ability to execute the Company's business plan and achieve results. Some members of senior management have been with RLC since its inception. Mr. James L. Go, Chairman Emeritus, has extensive experience in real estate related businesses, as do the Company's President and Chief Executive Officer, Mr. Frederick D Go. RLC's Chairman, Mr. Lance Y. Gokongwei, meanwhile, has been involved in operating and managing JG Summit group's businesses for over 20 years, and was the Company's President and Chief Operating Officer until August 28, 2006. In addition, RLC has been able to attract and retain a professional management team with significant experience in managing large-scale real estate development projects. Mr. Faraday D. Go, Executive Vice President, Ms. Arlene G. Magtibay, Business Unit General Manager of the Robinsons Malls, Mr. Jericho P. Go, Business Unit General Manager of the Robinsons Offices, Mr. Arthur G.. Gindap, Business Unit General Manager of the Robinsons Hotels and Resorts Division, Ms. Ma. Socorro Isabelle V. Aragon-Gobio, Business Unit General Manager of Robinsons Logistics and Industrial Facilities and the Integrated Developments Division, Mr. Richard Sotelo, Business Unit General Manager of RLC Residences, and Mr. Edward Thomas Bernas, Business Unit General Manager of Robinsons Homes, all have extensive backgrounds in their respective areas of operation. The Company believes that the market experience and knowledge that these key members of management possess and the business relationships they have developed with key industry players and customers have been an integral part of the Company's success in the past and will be a driving force for its success in the future.

5. Complementary and Value-enhancing Businesses of Affiliates

JG Summit, RLC's principal shareholder, is one of the largest conglomerates listed on the PSE in terms of total net sales. In addition to providing RLC with corporate support services including corporate finance, corporate planning, procurement, human resources, legal and corporate communications services, the companies within the JG Summit group and other companies controlled by the Gokongwei Family are some of the Company's most important customers. Companies such as Robinsons Department Stores, Robinsons Supermarket and other retail formats of Robinsons Retail Holdings, Inc. comprise the bulk of RLC's "anchor" tenants in its lifestyle commercial centers, which RLC believes also enhances, in a complementary manner, the value of the "Robinsons" brand. Support from related companies is valuable to the Company in other respects as well. For example, when evaluating whether and where to invest in new projects, RLC is able to draw upon the experience and market data of the JG Summit group and other related companies already operating in relevant markets to help it assess consumer spending and behavior patterns, infrastructure and support, strengths and weakness and other important business information.

6. Synergy from mixed-use developments

RLC is the pioneer of fully integrated mixed-use developments in the Philippines. RLC

is the owner of some of the largest mixed-use developments in Metro Manila and other key cities. The Robinsons Galleria, Robinsons Place Manila, Robinsons Magnolia and Galleria Cebu complexes are fully integrated developments with residential, office and/or hotel components, each anchored by its own flagship shopping mall. In September 2019, the Company's first destination estate development, Bridgetowne, was officially inaugurated. Situated at the heart of the East of Metro Manila, Bridgetowne is a 30-hectare destination estate envisioned to be a sustainable mixed-use, self-contained community where everything is within reach, complete with residential condominiums, lifestyle malls, hotels, a one-hectare park, a school, a hospital and a dedicated transport terminal. The highlight of this sprawling development is a bridge that runs across the Marikina River and connects two (2) major cities: Quezon City and Pasig City.

RLC continues to focus on mixed-use and/or estate developments to take advantage of synergy among different business unit formats. By developing lifestyle commercial centers, office buildings, residential buildings, industrial facilities and/or hotels in close proximity to one another. RLC believes that it is able to enhance the attractiveness of each specific development, for example, residents shopping in malls, offices booking hotel accommodations, and commercial facilities increasing the value proposition of condominium prices and office rentals.

CORPORATE STRATEGY

To strengthen its market position as the Philippines' leading property developer, RLC intends to take advantage of its established reputation and brand name and its diversified earnings mix, as well as its strong balance sheet, to invest in its business and create growth for the Company. RLC intends to achieve this objective through the following strategies:

1. Maintain a balanced mix of investment properties and development properties, to ensure stable and sustainable value while benefiting from cyclical upswings in the industry.

Robinsons Land seeks to maintain its diverse revenue and earnings base with its malls, office buildings, industrial facilities and hotels providing a steady stream of recurring rental revenues; and its residential condominium buildings and housing subdivision projects providing developmental revenues to allow the company to ride on a property up cycle. By maintaining a diversified business mix strategy, RLC believes it is insulated from down cycles in the property industry, but is poised to benefit from a market upswing.

2. Retain its leading position in the mall industry by capitalizing on the economic and social trends in the Philippines.

RLC believes that it has been a leader in developing and introducing new formats into commercial real estate market and expects to continue to be at the forefront of market changes. For instance, RLC has reengineered mall spaces around the needs and interests of an ever-evolving consumer market. The Company continues to engage consumers by offering more lifestyle-centric choices such as restaurants and other F&B formats, entertainment and other specialty stores, and by providing delightful customer experiences through innovative features and mall attractions such as smart directories, digital and water playgrounds inside the malls and interactive art installations. It actively manages its tenant base by curating a healthy mix of up-and-coming brands alongside well-established ones, as well as local and international retailers. The Company is likewise the pioneer in having government offices inside the malls called "Lingkod Pinoy" centers such as the office of the Department of Foreign Affairs, Social Security System, Philippine Regulations Commission, Land Transportation Office, National Bureau of

Investigation, etc. In keeping with the live-work-play-dream concept, RLC has allocated office space for Information Technology-Business Process Outsourcing (“IT-BPM”) firms within eight (8) of its existing malls. RLC has likewise taken the green lead in sustainable renewable energy through the installation of solar panels to reduce its carbon footprint and save on power cost.

To further strengthen the Company’s foothold as one of the leading mall developers in the country as well as to take advantage of the robust domestic consumption, RLC plans to sustain the growth momentum of its commercial centers via the development of new shopping malls and the expansion of existing ones. As of March 31, 2022, the Company operates 53 lifestyle centers nationwide.

3. Capitalize on the growth cycles of the office buildings and residential sectors.

The Company seeks to sustain upward trajectory of its Office Buildings Division by taking advantage of market opportunities, such as the growth of the IT-BPM sector and its evolution into higher-value services which include the outsourcing of data-based activities offered by Knowledge Process Outsourcing firms including but not limited to finance, IT, medical transcription and animation; as well as the expansion of multinational companies.

In the same manner, the Company seeks to take advantage of demand from both domestic sales and international sales, primarily from overseas Filipino workers and migrant Filipinos. The Company is continually expanding its land bank for future residential projects by acquiring choice properties in Metro Manila and other emerging key cities in the country.

RLC continues to benefit from the strong demand in the IT-BPM office spaces in the country and it will continue to sustain its margins and competitive rental rates. The Company believes it will maintain the high occupancy rates in these divisions because of better locations, geographic spread and its mixed-use development concept.

4. Focus on mixed-use/integrated developments to take advantage of synergy among different business formats.

The Company has and will continue to increase its focus on integrated developments, to take advantage of synergy among different business formats. By developing lifestyle commercial centers, office, industrial facilities, residential developments and hotels in close proximity to one another, RLC believes that it is able to enhance the attractiveness of each specific development - for example, the commercial centers spending of its condominium residents and office tenants and the hotel business of its office tenants.

5. Support the growth of its businesses by expanding both market and geographical coverage.

RLC plans to bring prime commercial developments closer to consumers by expanding its mall footprint not just in Metro Manila but also in the provinces, further strengthening its position as the premier mall brand with the widest geographic reach.

For its office business, the Company plans to solidify its position as one of the major office space providers to the IT-BPM industry by completing offices in various areas in the country not just in Metro Manila. In support of the government’s initiative to push developments in the provinces, RLC has completed office developments in several key provincial cities such as Cebu, Davao, Tarlac and Naga and plans to further expand in the provinces while strengthening its Metro Manila presence.

Leveraging on the potential of the local hospitality industry, the Robinsons Hotels and Resorts shall continue its expansion strategy to build one of the best and biggest multi-branded hotel portfolios in the Philippines. RLC likewise seeks to sustain its occupancy rates of its hotel properties through the promotion of leisure and business travels to the Philippines, and expanding both its market and geographical coverage. Not only is the Company expanding its Summit and Go Hotels brands, RLC is also beefing up its luxury hotels and resorts portfolio starting with the launch Dusit Thani Mactan Cebu Resort and the development of the Philippines' first homegrown luxury hotel, Fili Urban Resort Hotel located in Cebu.

RLC is also broadening its market reach in the residential sector by tapping the ultra-high-end niche through its joint venture residential projects with Shang Properties, Inc. ("SPI") and Hong Kong Land Group ("HKLG"). The Company believes that these collaborations provide a platform to combine the vision, expertise and financial capability of Robinsons Land and its joint venture partners.

6. Leverage its reputation and strong financial position to grow its business

RLC intends to take advantage of its established reputation and brand name and its diversified earnings mix, as well as its strong balance sheet, to invest in its business and create growth for the Company. RLC's diversified earnings mix provides a solid financial base for the Company, and a stable source of funds for business expansion and other capital investment. In part due to its strong cash flow, the Company does not have significant levels of outstanding indebtedness, meaning that it is in a strong position to obtain debt financing, should it choose to do so, for future growth. This financial strength, together with the reputation that the Company has earned over the years, provides a strong platform for business growth going forward.

7. Formulate new and sustainable business formats to diversify the Company's revenue streams.

Through Robinsons Logistics and Industrial Facilities, RLC has made important progress in its pursuit of becoming a market leader in an otherwise fragmented and nascent industrial sector with the completion of seven (7) industrial facilities as of March 31, 2022. This new real estate format provides the Company with a fresh source of recurring revenue that further strengthens its investment portfolio.

Keeping abreast with recent developments in the office sector, RLC has jumped into the co-working bandwagon with its own brand of flexible workspace solution namely "work.able", which caters to the plug-and-play office space needs of customers. The Company believes this unique offering provides flexibility to better serve customer demand.

To further enable the development of value-enhancing projects that are accretive to the Company's profitability, RLC shall continue to engage in the strategic acquisition of vast tracts of land that are optimally located within the government's infrastructure projects to add to the Company's growing number of township estates. Currently, RLC is working on three (3) destination estates, namely the 30-hectare Bridgetowne located within Metro Manila, the 18-hectare Sierra Valley in Rizal, and Montclair, a 216-hectare development in Pampanga.

RECENT DEVELOPMENTS RELATING TO COVID-19

Background

Following the outbreak of the coronavirus disease that started in Wuhan, Hubei, China, on January 30, 2020, the World Health Organization declared the 2019 coronavirus disease (“**COVID-19**”) outbreak a Public Health Emergency of International Concern, and subsequently, with the continued increase in the number of confirmed cases throughout the world, a pandemic on March 11, 2020.

In response to the pandemic, on March 12, 2020, the Philippine government placed Metro Manila under “community quarantine”, which started on March 15, 2020, and which, among others, restricted traveling through land, domestic air, and domestic sea from Metro Manila. On the second day of the implementation of the said community quarantine, the Philippine government declared a Luzon-wide “enhanced community quarantine” to arrest the continuing effect of the disease. The enhanced community quarantine mandated the temporary closure of non-essential shops and businesses, prohibited mass gatherings and all means of public transportation, and restricted traveling through air, sea and land in and out of Luzon, except by diplomats and uniformed workers (carrying medical supplies), among others. The Philippine government has since thereafter eased its quarantine restrictions in certain areas and placed Metro Manila under a general community quarantine starting June 1, 2020 until June 30, 2020. As of June 23, 2020, the Philippines had a total of 31,825 confirmed cases and 1,186 deaths. As of April 29, 2022, there have been a total of 3.69 million confirmed cases, and 60,305 deaths in the Philippines

Given the measures imposed by the Philippine government to address the spread of the virus, the Gross Domestic Product declined by 9.5% in 2020. However, Gross Domestic Product grew by 5.6% in 2021. The Asia Development Outlook forecasts that the Gross Domestic Product will continue to grow by 6.0% in 2022 and 6.3% in 2023.

The Philippine stock market has also fallen since Metro Manila was placed under community quarantine, which led the PSE benchmark index (“**PSEi**”) to reach the 4,000 level, its lowest in the past eight (8) years, and trigger its circuit breaker twice to temporarily halt trading of stocks for fifteen (15) minutes. As of April 29, 2021, the PSEi has recovered to 6,731.25 given the measures implemented by the Philippine government. To cushion the economic impact, the Philippine government has employed both monetary and fiscal expansionary tools.

On March 19, 2020, the BSP reduced its policy rates by fifty (50) basis points, which brought the reverse purchase rate to 3.25%, and overnight lending and deposit rates to 3.75% and 2.75%, respectively. The BSP likewise reduced the reserve requirement ratio by 400 basis points for banks in order to boost domestic liquidity. The interest rates continued to decrease until November 19, 2020 where the interest rate for reverse repurchase trimmed to 2.00 per cent. Overnight deposit and lending rates were also trimmed to 1.50 per cent and 2.50 per cent, respectively.

In May 2022, the BSP raised the key policy interest rate by 25 basis points to 2.25%. Inflation is expected to settle above the target range of 2-4% in 2022 and could average near the upper band of the target in 2023.

In terms of the government’s fiscal policy efforts, on March 16, 2020, the Philippine government initially unveiled a ₱27.1 billion spending plan to support the tourism sector, the DOH in its procurement of testing kits and hospital gear and equipment, reskilling of displaced workers, and provide subsidy to farmers, fisherfolk, displaced workers and micro businesses. On March 24, 2020, Republic Act No. 11469 or the “Bayanihan to Heal as One Act” was signed into law, which authorized the Philippine government to (i) exercise powers to meet the current national emergency related to COVID-19 for three (3) months, unless extended by congress, (ii) reallocate, realign and reprogram a budget of around ₱275 billion

from the national budget in response to the pandemic, and (iii) temporarily take over or direct the operations of public utilities and privately owned health facilities and other necessary facilities, when the public interest so requires for quarantine, among others.

On September 15, 2020, the Bayanihan to Heal as One Act II was enacted. The law mandated banks to grant a one-time 60-day grace period to all loans that are existing, current, and outstanding falling due, or any part thereof, on or before December 31, 2020. During the grace period, no interest, penalties, fees, or other charges may be applied to the loan. The grace period under Bayanihan Act covered payments due from March 17, 2020 to April 12, 2020 while the grace period under Bayanihan Act 2 only covered payments due from September 15, 2020 to 31 December 31, 2020.

Impact on the Operations of the Company

Amid COVID-19 and in compliance with the Philippine government's enhanced community quarantine ("**ECQ**") guidelines, malls, hotels, and other businesses, except those providing essential goods and services have temporarily closed until the ECQ is lifted or relaxed. RLC has felt the most impact on its mall and hotel operations. Nonetheless, its broad business footprint and diversified revenue stream helped cushion the blow of this unprecedented event on the Company.

With public health and safety in mind and in full cooperation with the government, during the ECQ, RLC has temporarily closed all its fifty-two (52) malls located in Luzon and other areas where the local government has imposed a lockdown except those areas that are being occupied by tenants providing essential services such as the supermarkets, banks, pharmacies and spaces occupied by BPOs. RLC has also waived rental for non-operational tenants during this period. The hospitality and leisure industry has suffered the most immediate repercussions of COVID-19. Out of the Company's twenty (20) hotels, only twelve (12) hotels located in Metro Manila, Metro Cebu, Bacolod and Iloilo remained open to serve clients from the BPO industry and other long staying guests. For its Residential Division, there were no official bookings made during the period. Furthermore, the Company's twenty-two (22) office developments under its Office Buildings Division and two (2) warehouse facilities under its Industrial and Integrated Developments Division continued to operate under business-as-usual conditions. There were no rental abatements granted to the office and warehouse tenants during this period.

On May 16, 2020, the Philippine government started to ease its quarantine restrictions in certain areas and placed Metro Manila under a modified enhanced community quarantine ("**MECQ**") until May 31, 2020. During this period, the Company has reopened its fifty-one (51) malls with the exception of Robinsons Place Tacloban, which is currently under renovation. Some tenants have also reopened following the protocols of the Inter-Agency Task Force ("**IATF**"). In addition, the Company introduced "RPersonal Shopper" and "RDelivery" Programs" which allow customers to book the services of a personal shopper who can drop by select Robinsons Malls to purchase daily essentials, run a few errands, or order food from restaurants operating in the mall. Nine (9) hotels have continued to operate and serve BPO clients and other long staying guests; while the rest temporarily ceased operations. Meanwhile, the Residential Division has started to officially book new sales. The Company's office developments and warehouse facilities continued to be operational.

Starting June 1, 2020, quarantine restrictions have further eased and certain places in Metro Manila have been placed under a general community quarantine ("**GCQ**") until June 30, 2020. All of the Company's fifty-one (51) malls remained operational; while two (2) additional hotels have reopened since the MECQ. On the other hand, there were no significant changes in the operations of the Company's Residential Division, Office Buildings Division and Industrial and Integrated Developments Division from MECQ to GCQ.

For the twelve (12) months ending December 31, 2021, Robinsons Malls, Residential Division, Robinsons Offices, Robinsons Hotels and Resorts, Robinsons Logistics and Industrial Facilities, Integrated Developments Division, and Chengdu Ban Bian Jie accounted for 23%, 17%, 18%, 3%, 1%, 8%, and 30% of the Company's total revenues, respectively. In the first quarter of 2022, footfall increased to 74% of pre-pandemic levels. On the other hand, EBITDA contribution during the aforementioned period of each of the business units posted at 26%, 15%, 38%, 2%, 2%, 10%, and 7%, respectively. For more details on the Revenue and EBITDA contribution of each of the business units, please refer to the "*Description of Business – RLC's Business*" section of the Prospectus.

Mitigation Efforts by the Company

RLC is cognizant of COVID-19's potential material impact on its financial performance, the execution of its plans and strategies, and its customers and employees should the situation persist in the longer-term.

RLC is fully committed to cooperate and support the Philippine government's efforts to control the spread of the virus. In addition to complying with the guidelines, rules and regulations that the Philippine government has laid out, the Company has rolled out robust plans to ascertain business continuity, and have taken immediate actions to ensure that RLC's services remain available to its customers. Skeleton workforces have been deployed in various geographic locations where the Company operates and contingency measures such as flexible personnel resourcing and off-site working facilities have been employed.

RLC has implemented appropriate and enhanced measures in an effort to contain the spread of the virus within its properties and workplace. To ensure adequate social distancing, mall operating hours have been adjusted for operational stores, social distancing floor markers have been strategically placed and entry of customers is closely monitored. Infrared non-contact thermal scanners are being used and hand sanitizers and foot baths have been installed in all the entry points to the Company's properties. All its front liners are required to conduct frequent handwashing, wear protective masks or gear, and implement effective cleaning procedures in all its properties. Moreover, sanitation teams have been reinforced to carry out deep disinfection procedures especially in high-touch areas such as elevators and escalators in its lifestyle centers, offices, hotels, residential buildings and industrial facilities. In the workplace, corporate policies have been established to use digital or online platforms for corporate communications and virtual meetings in order to limit physical contact. Decentralized and/or remote-working arrangements for the Company's employees have also been instituted. As early as January 2020, the Company has launched information campaigns apprising and educating its stakeholders of the risks of COVID-19 and the ways to prevent its transmission.

Lastly, the Company has calibrated its re-entry strategies and workplace re-integration in preparation for business resumption once the quarantine restrictions are lifted or relaxed in compliance with the operating capacity mandated by the IATF. RLC's main focus is to ensure a safe environment for its customers and employees in order to rebuild workplace and business confidence.

As RLC actively monitors developments and assess the impact of the foregoing in its operations and financial performance, the Company remains confident that it will continue to deliver a solid financial performance given the aforementioned mitigation efforts it has adopted as well as due to its diversified and well-balanced property portfolio that caters to different customer segments and are strategically located in key cities and provinces in the Philippines and abroad.

BUSINESS OPERATIONS

RLC has seven (7) business divisions as follows:

1. Robinsons Malls

To further improve performance metrics, Robinsons Malls launched several traffic-generating programs such as alfresco dining, outdoor activities in open areas, bicycle parking and repair stations, and most of all, supporting the government in its vaccination drive by offering free spaces for LGU vaccinations.

In September 2021, the Company's 53rd mall was opened, Robinsons Place La Union. Featuring surfing decors and ocean murals, Robinsons Place La Union is the biggest mall in the province with a wide variety of fashion outlets and dining establishments. RLC Residences

RLC Residences is the new brand that integrates Robinsons Luxuria, Robinsons Residences, and Robinsons Communities to provide a seamless customer journey for its clients. The brand primary focus is to build beautiful and well-designed residential condominiums in key urban areas and central business districts. The brand redefined its new core offering under its enhanced customer-centric value propositions: Raise, Live and Connect. Raise stands for raising living standards through elevated design and quality standards, elegant lobbies, and global design and property consultants. Live is all about living smart and productive through the digital solutions for a hassle-free condo-living experience and the introduction of work-from-home nooks and smart home features integrated within the units. Lastly, Connect promotes meaningful connections through amenities for bonding and the convenience of being near life's essentials.

As part of the new brand's efforts to provide a more customer-centric service to its clients and to answer the growing need to do transactions safely at home due to the pandemic, RLC Residences introduced multiple digital innovation such as the myRLC Homeowners Portal (for RLC Residences property residents) and Buyer's Portal (for property buyers) in order to help them access their accounts in real time and accomplish other obligations at the comforts of their home such as payments and gate pass filings. The myRLC Homeowners Portal also provides easier access to the Ring Rob Concierge, RLC Residences' exclusive service for residents where they can book for home services online such as water delivery, laundry, interior design, and more. For potential clients, RLC Residences also has its virtual gallery of its model units that clients may access anytime, anywhere.

In terms of home offerings, RLC Residences also integrated home upgrades in its new properties. These upgrades are the inclusion of work-from-home provisions in all units, smart home features, pantry and storage areas inside the unit, bike parking areas and allotment of more open spaces within the development among others.

Due to the sustained growth from the IT Business Process Management (IT-BPM) sector and increasing office space demand from multinational and logistic companies despite the COVID-19 pandemic, the Company has secured a number of major customers as long-term tenants in its office buildings. It also has continuously improved its developments including building features, office layouts and amenities. The Company is one of the leading providers of office spaces in the Philippines.

In its effort to be environmentally responsive, Robinsons Offices has built sustainable, green office buildings over the years. The projects are Leadership in Energy and Environmental Design (LEED) certified. The US Green Building Council registered LEED buildings are: Tera Tower (LEED Gold), Exxa Tower (LEED Silver), Zeta Tower (LEED Silver) and recently Giga Tower (LEED Gold).

The contactless building features that the Company has incorporated into its office buildings, to ensure the health, safety and overall well-being of its occupiers include: metal detectors with built in thermal scanners, infrared activated alcohol and soap dispensers among others. Also, the Company installed microbial film on frequently touched surfaces, foot bath at entrances, hand sanitation stations and foot decals to encourage social distancing to help prevent the spread of viruses.

For our upcoming offices in Metro Manila, Robinsons Offices has enhanced the contactless features of the development by incorporating in its design the inclusion of destination control elevators, QR code activated turnstiles and phone application enabled visitor management systems.

The Company plans to apply and register the new and upcoming buildings in Metro Manila with LEED. It has also taken the necessary steps to ensure that its indoor air quality will meet and possibly exceed standards set by the government.

In 2021, RLC operated a maximum of 18 of its 21 hotel properties in the midst of a global pandemic that crippled the hospitality and tourism industries. Occupancy rates in these operational hotels ranged from 5% to 100% as of December 31, 2021. The launch of Grand Summit Hotel Gensan added 68 operational rooms, bringing total room keys to a total of 3,230.

In response to the challenges brought about by quarantine measures, RLC repurposed its accommodation facilities and offered relevant solutions to customers. Summit Hotels and Resorts and Go Hotels launched 'Working-On-the-Go Private Offices' to offer affordable private office packages for the growing work-at-home population. Go Hotels also rolled out long-stay services under the 'Just-Got-Home' program, which primarily attracted urban professionals looking for a budget-friendly place that is in close proximity to their workplaces and other key establishments. As quarantine accommodation facilities grew in need during the pandemic, RLC's various hotel properties secured accreditation from government agencies in order to offer comfortable and safe quarantine rooms for returning overseas workers, balikbayans, and the like. Four of its properties, Summit Galleria Cebu, Dusit Thani Mactan Cebu, Crowne Plaza Manila Galleria, and Holiday Inn Manila Galleria secured Multiple-Use Establishment accreditation from the Department of Tourism and Department of Health. This allowed the four hotels to serve both quarantine and non-quarantine guest accommodations.

In preparation for the anticipated recovery of the Philippine tourism and hospitality industry, the Hotels and Resorts Division is geared up to add room keys to its portfolio in 2022 with the openings of Summit Hotel Naga, Go Hotel Naga, Go Hotel Tuguegarao, and the remaining rooms of Grand Summit Hotel Gensan. In the same year, RLC intends to launch Fili Urban Resort, the Philippines' first ever five-star homegrown hotel brand. These new properties will push total hotel room count to over 3,600 rooms by the end of 2022.

5. Robinsons Logistics and Industrial Facilities

Robinsons Logistics and Industrial Facilities (RLX)'s total net leasable area reached 167,000 square meters as of December 31, 2021. Exclusive of intersegment transactions, it generated ₱0.13 billion or 2% of RLC's revenues and ₱0.11 billion or 3% of RLC's EBITDA in first quarter of calendar year 2022, and ₱0.06 billion or 0.4% of RLC's revenues and ₱0.04 billion or less than 1% of RLC's EBITDA in the same period the previous year. As of March 31, 2022 and December 31, 2021, RLX had assets amounting to ₱6.35 billion and ₱6.24 billion, respectively.

The accelerated growth of e-Commerce in the Philippines significantly increased demand for logistics facilities with new specifications. RLC capitalized on this opportunity and supplied the need for logistics facilities with capabilities and features tailor-fit for Fast-Moving Consumer Goods (FMCG) and e-Commerce companies, among others. Key specifications of these facilities include high ceilings, raised

flooring, loading docks with roll up doors, high strength flooring, and complete Fire Detection and Alarm Systems (FDAS), and fire protection systems. Through all these, RLC ensures the longevity and safety of its logistics facilities, and enables optimized operations for customers.

In 2021, RLX completed three (3) new logistics facilities located in Muntinlupa City, San Fernando City, Pampanga, and Mexico City, Pampanga. These new facilities, along with previously completed projects in Calamba City, Laguna, have cemented RLX in key strategic locations. It now has presence within the National Capital Region, and in both the North and South of Metro Manila.

The three new logistics facilities increased gross leasable area to about 167,000 square meters, bringing the total count of industrial warehouses nationwide to seven (7). All RLX projects, except RLX Mexico which was completed in December 2021, are fully leased out.

RLX is on track to becoming the fastest growing logistics facility provider in the country with additional warehouses in the pipeline. To further accelerate the growth of GLA, RLX is exploring purchasing existing logistics facilities and upgrading these facilities to meet RLX design standards. As it looks to expand its reach and support more businesses, exceptional service continues to be of utmost priority.

With Bridgetowne's Phase 1 substantially completed, the demolition of existing structures on the Phase 2 parcel was the Company's primary focus to jump-start development of its second phase. On the other hand, Sierra Valley's interim retail thrived in 2021 achieving a leased rate of 100%, 90% of which began operating within 2021. Finally, Montclair substantially completed construction of its new interchange connecting to SCTEX. Once operational, the new interchange will ease access from Montclair to major transportation infrastructures including Clark Airport, Subic Freeport, NLEX, TPLEX, and the future Malolos-Clark Railway project.

RLC will continue to make substantial progress in its landmark destination estates. To strengthen earnings, the division will likewise explore innovative real estate formats, new business ventures, and strategic partnerships for its mixed-use developments.

7. Chengdu Ban Bian Jie

Building on its well-established expertise and reputation in the Philippines, RLC expanded its presence beyond local shores and launched its first international venture with a residential project in Chengdu City, China. The city of Chengdu, the capital of Sichuan Province, is the fifth largest city in China with over 16 million residents and is considered as one of the richest urban areas in the country. RLC's Ban Bian Jie Project is strategically located in Wuhou District, the largest of the five inner districts of Chengdu. Situated next to the majestic sceneries of the Jiang An River and Yong Kang Forest Park, the project's prime location and quality features make it an attractive and preferred choice for employees and families.

The Chengdu Ban Bian Jie project is a residential development with a total gross floor area of approximately 220,000 square meters. Comprised of a series of carefully designed high-rise towers, townhouses and shops, Chengdu Ban Bian Jie caters to the sophisticated, discerning lifestyle of the upper-middle-class market. COMPETITION

1. Robinsons Malls

RLC has two major competitors in its Commercial Centers Division—SM Prime Holdings, Inc. (SMPHI) and Ayala Land, Inc. (ALI). Each of these companies has certain distinct advantages over RLC, including SMPHI’s considerably larger mall portfolio and ALI’s access to prime real estate in the heart of Metro Manila. In terms of total assets and equity accounts as of March 31, 2022, the mall segment of SMPHI has ₱444.1 billion and ₱134.9 billion while the mall segment of ALI has ₱201.5 billion and ₱109.5 billion, respectively. There are a number of other players in the shopping mall business in the Philippines, but they are significantly smaller and, because of the high barriers to entry into the business (which include cost, branding, reputation, scale and access to prime real estate), RLC expects that it will continue to compete principally with these two major companies in this market sector

for the foreseeable future. RLC has, however, recently seen an increase in the development of specialty malls by companies that are not traditional players in the industry, and it is unclear whether or how this trend might affect the competitive landscape. Shopping mall operators also face competition from specialty stores, general merchandise stores, discount stores, warehouse outlets, street markets and online stores.

RLC believes its strength is in its mixed-use, retail, commercial and residential developments. RLC operates on the basis of its flexibility in developing malls with different sizes depending on the retail appetite of the market per location. It is focused on balancing its core tenant mix and providing a more distinctive shopping mall experience to its loyal customers, as well as its ability to leverage the brand equity and drawing power of its affiliated companies in the retail trade business.

2. Residential Division

a. RLC Residences

RLC Residences continues to develop beautiful, well-designed, high-quality homes catered to young professionals, starting and growing families under the BC1 segment looking for a home in the city that they can proudly call their own. Competitors such as Alveo Land, Megaworld Corporation (MEG), Filinvest Land, Inc. (FLI), and Ortigas & Co. target the young professionals and starting families under this bracket. There are also a number of players who try to compete in this segment of the market with one or two projects. Projects under RLC Residences remain among the top of mind developments as a result of growing experienced sales and distribution networks and convenient locations. Projects are located within Central Business Districts or RLC's mixed-use development.

RLC Residences has numerous competitors in the middle-income segment. This is in part a function of the fact that, as compared to other business areas, RLC does not enjoy the same "early mover" advantage. Currently, they are companies like Avida Land (AL), FLI, SMPHI, and DMCI Homes. As of March 31, 2022, total assets and equity accounts amounted to ₱198.8 billion and ₱90.6 billion, respectively, for FLI while total assets and equity accounts of SMPHI as of March 31, 2022 amounted to ₱824.5 billion and ₱346.8 billion, respectively. Based on public records and independent industry reports and its own market knowledge, the Company believes that it is among the top five middle-ranged condominium developers in the Philippines in terms of revenues from sales. The Company believes that it can successfully compete in this market segment on the basis of its brand name, technical expertise, financial standing and track record of successfully completed, quality projects.

The brand strives to compete with developers who have already established their names in tapping the elite market. RLC Residences aims to increase its share of this market segment and steer buyers of competitors such as Ayala Land Premier, Rockwell Land Corporation (ROCK), Century Properties Group, Inc. (CPGI) and MEG to its developments. ROCK's total assets and equity accounts as of March 31, 2022 amounted to ₱64.9 billion and ₱26.2 billion, respectively; CPGI's total assets and equity accounts as of March 31, 2022 amounted to ₱57.6 billion and ₱22.5 billion, respectively, while MEG's total assets and equity accounts as of March 31, 2022 amounted to ₱398.3 billion and ₱232.7 billion, respectively.

b. Robinsons Homes

Recognizing the growing housing market in the Philippines, RLC continues to embark on building subdivisions through its Robinsons Homes brand. For families aspiring to own their first home or upgrade to a better abode and neighborhood, Robinsons Homes provides

them themed, master-planned, secure and gated horizontal subdivisions in key urbanized cities nationwide ideal to start the good life. In order to cater to varying market profiles, Robinsons Homes launched its five sub-brands namely: Forbes Estates for Premier development, Bloomfields for the high-end market, Brighton for mid-cost development, Springdale for the affordable market segment and Happy Homes for socialized housing.

It stands in close competition with ALI, FLI and Vista Land & Lifescapes, Inc. (VLL). Total assets and equity accounts of VLL as of March 31, 2022 amounted to ₱322.1 billion and ₱114.9 billion, respectively.

Robinsons Homes competes on the basis of location. It is a nationwide residential subdivision developer with projects in Laoag, Tarlac, Pampanga, Antipolo, Angono, Cavite, Batangas, Puerto Princesa, Bacolod, Cebu, Cagayan de Oro, Davao and General Santos. Robinsons Homes is committed to provide green communities with lifestyle amenities in response to changing needs of the market.

The Company believes that its market specific branding, reliability to deliver and consistent quality products at an affordable price has contributed to its ability to generate sales and its overall success.

3. Robinsons Offices

The Company believes that competition for office space is principally on the basis of location, quality and reliability of the project's design and equipment, reputation of the developer, availability of space, and PEZA registration. The biggest competitors of the Company under this segment are ALI, MEG and SMPHI.

The Company competes in this market on the basis of the strategic locations of its buildings, including their proximity to the malls and residences as part of its mixed-use developments and its accessibility to public transportation, building features as the office projects can accommodate all types of tenants including companies in the IT Business Process Management (IT-BPM) sector, corporate headquarters and traditional offices. The Company also believes that its established reputation of good quality, ease of doing business, and completing projects on time makes it one of the most preferred choices of the IT-BPM industry as well as local and multinational companies. The Company is committed in providing an excellent customer experience and satisfaction by developing office projects of high quality and reliability, meeting the evolving needs of its customers.

4. Robinsons Hotels and Resorts

RLC competes in different markets for its hotels and resorts segments. Across all of its hotel formats, its main competitors in terms of number of rooms are: ALI, Alliance Global Group Inc., SM Hotels and Conventions Corporation, and FLI. Aside from these large hotel owners and developers, there is a growing number of small independent players and foreign entrants that increases the competitive landscape of hospitality in the country.

RLC continues to solidify its position and ability to serve travelers in multiple points of the Philippines through growing its hotel and resorts portfolio while enhancing its overall brand. With its longstanding expertise in developing and managing hotels and resorts, RLC is focused on scaling its business with improving standards leading up to world-class quality.

5. Robinsons Logistics and Industrial Facilities

Even before the COVID-19 pandemic, demand for logistics facilities has been on the rise in

the country and this demand further increased during the pandemic. Under its RLX Logistics Facilities brand, the RLX develops excellent quality logistics facilities in industrial centers of growth around the Philippines. The biggest competitors of RLC in the development of logistics facilities are Ayala Land Logistics Holdings Corp. and Double Dragon Properties Corp.

6. Integrated Developments Division

RLC is an accomplished developer of integrated developments. RLC has developed four major mixed used developments in Metro Manila alone, namely, Robinsons Galleria, Robinsons Forum, Robinsons Manila, and Robinsons Magnolia. These projects are anchored by Robinsons Mall with components of Office and/or Residential and/or Hotel/Leisure. Furthermore, it continues to develop its destination estates namely Bridgetowne, Sierra Valley and Montclair. IDD remains focused on this fast-growing development format.

Despite the Covid-19 pandemic, major developers are still into integrated developments. Developers have been acquiring big parcels of land and incorporating different real estate components to attract investors and customers. The biggest competitors of RLC in integrated developments are ALI, MEG, FLI, Double Dragon Properties Corp., and SMPH.

IDD will harness opportunities for synergies with RLC's other business units: Robinsons Malls, Residential, Robinsons Hotels and Resorts, and Robinsons Offices. RLC, having years of experience in these real estate components, will thus have a competitive advantage. With efficient master planning, innovative designs, and quality construction, RLC is committed to sustainable and futureproof communities.

SOURCES AND AVAILABILITY OF RAW MATERIALS AND SUPPLIERS

Construction and development of malls, high-rise office and condominium units as well as land and housing construction are awarded to various reputable construction firms subject to a bidding process and management's evaluation of the price and qualifications of and its relationship with the relevant contractor. Most of the materials used for construction are provided by the contractors themselves in accordance with the underlying agreements, although sometimes the Company will undertake to procure the construction materials when it believes that it has an advantage in doing so. The Company typically will require the contractor to bid for a project on an itemized basis, including separating the costs for project materials that it intends to charge the Company. If the Company believes that it is able to acquire any of these materials (such as cement or steel) at a more competitive cost than is being quoted to it, it may remove these materials from the project bid and enter into a separate purchase order for the materials itself, to reduce project costs.

CUSTOMERS

RLC has a broad base of customers, comprised of both local and foreign individuals, and institutional clients. The Company is not dependent on a single or a few customers, the loss or any of which would have a material adverse effect on the business taken as a whole.

INTELLECTUAL PROPERTY AND LICENSES

RLC relies on trademarks to establish and protect its business interests and it believes that its trademarks and intellectual property rights are important to its success and competitive position. In the Philippines, certificates of registration of a trademark filed with the Philippine Intellectual Property Office prior to the effective date of the Philippine Intellectual Property Code in 1998 are generally effective for a period of twenty (20) years from the date of the certificate, while those filed after the Philippine Intellectual Property Code became effective are generally effective for a shorter period of ten (10) years, unless terminated earlier.

On February 4, 2008, the Company received approval for the registration of the intellectual property rights of the "R" logo. In addition, the Company has a number of applications for the registration of various trademarks of its property developments pending with the Philippine Intellectual Property Office, including the intellectual property rights for the "Robinsons" name, as well as the names of its other property developments. Although these registrations are not complete, the Company believes it has sufficient protection over the "Robinsons" name in particular for long-term use and wide-spread recognition of the name in the market. There can be no assurance, however, that the actions RLC has taken will be adequate to prevent imitation by others or to prevent others from using the "Robinsons" name as a violation of its intellectual property rights.

The Company has also registered a number of the business names it uses for its property developments with the Department of Trade and Industry. Registering a business name with the Department of Trade and Industry precludes another entity engaged in the same or similar business from using the same business name as one that has been registered. A registration of a business name shall be effective for five (5) years from the initial date of registration and must be renewed within the first three (3) months following the expiration of the five (5)-year period from the date of the original registration.

Key details of the trademarks secured by the Company are set forth in the table below:

INDUSTRY RISK

The Company substantially conducts its business activities in the Philippines where majority of its assets are located.

Demand for and prevailing prices of leases of shopping mall, office and industrial facilities, as well as the development of the Philippine hospitality sector are directly related to the strength of the Philippine domestic economy and the overall levels of business activity in the Philippines.

RLC's Commercial Centers Division is directly affected by level of consumption, demographic structure, social trends, changing spending patterns and consumer sentiments in the Philippines, which are in turn heavily influenced by economic, political and security conditions in the Philippines. The level of consumption is largely determined by the income levels of consumers which is supplemented by a large number of Overseas Filipino Workers ("OFWs") and expatriate Filipinos employed in countries around the world. This exposes RLC to changes in the specific economies of the countries where OFWs are deployed.

As the fastest growing sector in the Philippine real estate industry, the IT-BPM outsourcing sector drives office space demand which fuels the performance and profitability of RLC's Office Buildings Division. The growth of the IT-BPM sector is heavily dependent on the availability of Information and Communications Technology ("ITC") hubs across the country which provide sufficient labor supply and upgraded talent ecosystem, good ITC infrastructure and service capabilities, efficient cost and overall business environment as a product of sound macroeconomic fundamentals and geopolitical climate in the country.

RLC's Hotels and Resorts Division, on the other hand, is anchored on the development of Philippine tourism which is contingent on the rate of response of the Philippine government to address infrastructure challenges across the country.

On the development side of the Company's business, RLC is engaged in both domestic and international residential development. The property market has been cyclical where property values have been affected by confidence in the economy as well the interest rate environment.

Global pandemics (such as the COVID-19 outbreak) and economic/political uncertainties in the Philippines may have adverse effects on consumer spending habits, construction costs, availability of labor and materials and other factors affecting the Company and its businesses. Notably, global health outbreaks can also have a potential material impact on tourism and hospitality sector as well as the demand for shopping mall spaces given the travel restrictions and social-distancing protocols. Significant expenditures associated with investment in real estate, such as real estate taxes, maintenance costs and debt payments, generally cannot be correspondingly reduced if changes in the Philippine property market or the Philippine economy cause a decrease in revenues from the Company's properties. Because majority of RLC's businesses are in the Philippines, reduced levels of economic growth, adverse changes in the country's political or security situation, or weaker performance of the country's property development market generally may materially adversely affect RLC's financial performance, position and profitability.

RLC operates in a highly competitive industry. The Company's future growth and development is dependent, in large part, on the availability and affordability of large tracts of land suitable for development. As the Company and its competitors attempt to locate sites for development, it may become more difficult to locate parcels of suitable size in locations and at prices acceptable to the Company, particularly in Metro Manila and other urban

areas. To the extent that the Company is unable to acquire suitable land at acceptable prices, its growth prospects could be limited and its business and results of operations could be adversely affected.

A number of other commercial center and residential developers and real estate services companies, some with greater financial and other resources and more attractive land banks than the Company, compete with RLC in various aspects of its business. Competition from other real estate developers and real estate services companies may adversely affect RLC's ability to develop and sell its properties or attract and retain tenants, and continued development by these and other market participants could result in saturation of the market for commercial and residential real estate.

REGULATORY AND ENVIRONMENTAL MATTERS

a) Shopping Malls

Shopping mall centers are regulated by the local government unit of the city or municipality where the establishment is located. In line with this, mall operators must secure the required mayor's permit or municipal license before operating. In addition, no mall shall be made operational without complying first with the provisions of the fire code and other applicable local ordinances. Furthermore, shopping malls with food establishments must obtain a sanitary permit from the Department of Health. It is also compulsory for shopping malls discharging commercial waste water to apply for a waste water discharge permit from the DENR and to pay the fee incidental to the permit.

As a tourism-related establishment, shopping malls may obtain accreditation from the Department of Tourism. A shopping mall can only be accredited upon conformity with the minimum physical, staff and service requirements promulgated by the Department of Tourism.

For the shopping malls owned by the Company, RLC has ensured that it is compliant with all of the above regulations.

b) Residential Condominium and Housing and Land Projects

Presidential Decree No. 957 ("**The Subdivision and Condominium Buyers' Protective Decree**") as amended, is the principal statute which regulates the development and sale of real property as part of a condominium project or subdivision. The law covers subdivision projects and all areas included therein for residential, commercial, industrial and recreational purposes as well as condominium projects for residential or commercial purposes. It also sets out standards for lower density developments.

Republic Act No. 4726 ("**The Condominium Act**"), on the other hand, is the primary law governing condominiums. The law covers the legal definition of a condominium, the rights of a unit owner, and the rules governing transfers, conveyances and partitions in condominiums.

The Housing and Land Use Regulatory Board ("**HLURB**") is the administrative agency of the Government which, together with local government units, enforces these laws and has jurisdiction to regulate the real estate trade and business. On February 14, 2019, R.A. No. 11201 the planning and regulatory functions of the HLURB was transferred to the Department of Human Settlements and Urban Development ("**DHSUD**"). The DHSUD, together with the Local Government Unit regulates the real estate trade and business.

Subdivision or condominium units may be sold or offered for sale only after a license to sell (“**LTS**”) has been issued by the DHSUD. The LTS may be issued only against a performance bond posted to guarantee the completion of the construction of the subdivision or condominium project and compliance with applicable laws and regulations.

All subdivision and condominium plans are subject to approval by the relevant Local Government Unit (“**LGU**”) in which the project is situated and by the DHSUD. The development of subdivision and condominium projects can commence only after the DHSUD has issued a development permit. Approval of such plans is conditional on, among other things, the developer’s financial, technical and administrative capabilities. Alterations of approved plans which affect significant areas of the project, such as infrastructure and public facilities, also require the prior approval of the LGU and DHSUD.

Owners of or dealers in real estate projects are required to obtain licenses to sell before making sales or other dispositions of lots or real estate projects. Republic Act No. 9646 (“**The Real Estate Service Act of the Philippines**”) provides that real estate consultants, appraisers, assessors and brokers must pass the requisite exams and be duly registered and licensed by the Professional Regulation Commission (“**PRC**”), while real estate salespersons, or those who act of a real estate broker to facilitate a real estate transaction, only need to be accredited by the PRC.

Project permits and the LTS may be suspended, cancelled or revoked by the HLURB by itself or upon a verified complaint from an interested party for reasons such as non-delivery of title to fully-paid buyers or deviation from approved plans. A license or permit to sell may only be suspended, cancelled or revoked after notice to the developer has been served and all parties have been given an opportunity to be heard in compliance with the HLURB’s rules of procedure and other applicable laws.

Residential subdivision developments must comply with applicable laws and standards regarding the suitability of the site, road access, necessary community facilities, open spaces, water supply, the sewage disposal system, electrical supply, lot sizes, the length of the housing blocks and house construction. Under current regulations, a developer of a residential subdivision with an area of one hectare or more is required to reserve at least 30% of the gross land area of such subdivision for open space for common uses, which include roads and recreational facilities. A developer of a commercial subdivision is required to reserve at least 3.5% of the gross project area for parking and pedestrian malls, but the minimum parking area requirement may be further increased by ordinances promulgated by LGUs.

RLC has obtained the requisite development permits for its projects, and also has a valid and current license to sell.

Republic Act No. 7279 (“**Urban Development and Housing Act of 1992**”), as amended by Republic Act No. 10884, requires developers of proposed subdivision projects to develop an area for socialized housing equivalent to at least 15% of the total subdivision area or total subdivision project cost and at least 5% of condominium area or project cost, at the option of the developer, in accordance with the standards set by the DHSUD. Alternatively, the developer may opt to buy socialized housing bonds issued by various accredited government agencies or enter into joint venture arrangements with other developers engaged in socialized housing development. The Company has benefited from providing low-income housing or projects of such types which are financially assisted by the government. These policies and programs may be modified or discontinued in the future.

The Government may also adopt regulations which may have the effect of increasing the cost of doing business for real estate developers. Under R.A. No. 10884, income derived by

domestic corporations from the development and sale of socialized housing is exempt from project related income taxes, capital gains tax on raw lands used for the project, value-added tax for the project contractor concerned, transfer tax for both raw completed projects, and donor's tax for lands certified by the LGUs to have been donated for socialized housing purposes. Under the current Investment Priorities Plan issued by the Board of Investments, mass housing projects including development and fabrication of housing components, are eligible for government incentives subject to certain policies and guidelines. In the future, since the sale of socialized housing units comprise a portion of homes sold by the Company, any changes in the tax treatment of income derived from the sale of socialized housing units may affect the effective rate of taxation of the Company.

c) Hotels

The Philippine Department of Tourism promulgated the Hotel Code of 1987 (the "**Hotel Code**") in order to govern the business and operation of all hotels in the Philippines. Investors that wish to operate a hotel must first register and apply for a license with the local government of the city or municipality where the hotel is located. For purposes of registration and licensing, hotels are classified into four (4) groups: De Luxe Class, First Class, Standard Class and Economy Class. The Hotel Code provides minimum standards for the establishment, operation and maintenance of hotels depending on the hotel's classification. The Philippine Department of Tourism is in the process of revising the current classification from Hotel Class System to Hotel Star Rating System.

A Certificate of Registration and license as a hotel will not be granted unless the relevant establishment has passed all the conditions of the Hotel Code, the Fire and Building Codes, Zoning Regulations and other municipal ordinances. Furthermore, hotels can only be opened for public patronage upon securing of a sanitary permit from the city or municipal health office having jurisdiction over the establishment. The Department of Tourism is the government agency which is tasked with the accreditation of hotels. The Department promulgates the minimum standards and procedures for hotel accreditation. While accreditation is non-compulsory, accredited hotels are given incentives by the Department of Tourism.

All hotels operated by the Company are compliant with the Hotel Code.

d) Zoning and Land Use

Under the agrarian reform law currently in effect in the Philippines and the regulations issued thereunder by the DAR, land classified for agricultural purposes as of or after June 15, 1988, cannot be converted to non-agricultural use without the prior approval of DAR.

Land use may be also limited by zoning ordinances enacted by local government units. Once enacted, land use may be restricted in accordance with a comprehensive land use plan approved by the relevant local government unit. Lands may be classified under zoning ordinances as commercial, industrial, residential or agricultural. While a procedure for change of allowed land use is available, this process may be lengthy and cumbersome.

e) Special Economic Zone

The Philippine Economic Zone Authority ("**PEZA**") is a government corporation that operates, administers and manages designated special economic zones ("**Ecozones**") around the country. Ecozones, which are generally created by proclamation of the President of the Philippines, are areas earmarked by the government for development into balanced agricultural, industrial, commercial, and tourist/recreational regions.

An Ecozone may contain any or all of the following: industrial estates, export processing zones, free trade zones, and tourist/recreational centers. PEZA registered enterprises locating in an Ecozone are entitled to fiscal and non-fiscal incentives such as income tax holidays and duty-free importation of equipment, machinery and raw materials.

Information technology ("IT") enterprises offering IT services (such as call centers, and business process outsourcing using electronic commerce) are entitled to fiscal and non-fiscal incentives if they are PEZA-registered locators in a PEZA-registered IT Park, IT Building, or Ecozone. An IT Park is an area which has been developed into a complex capable of providing infrastructures and other support facilities required by IT enterprises, as well as amenities required by professionals and workers involved in IT enterprises, or easy access to such amenities. An IT Building is an edifice, a portion or the whole of which, provides such infrastructure, facilities and amenities.

PEZA requirements for the registration of an IT Park or IT Building differ depending on whether it is located in or outside Metro Manila. These PEZA requirements include clearances or certifications issued by the city or municipal legislative council, the DAR, the National Water Resources Board, and the DENR.

The Company actively seeks PEZA registration of its buildings, as this provides significant benefits to the Company's tenants. PEZA registration provides significant tax incentives to those of the Company's customers that are PEZA-registered (they can, for example, avail themselves of income tax incentives such as income tax holidays or 5% gross income taxation), thereby making tenancy in the Company's PEZA-registered buildings potentially more attractive to them. As of calendar year 2021, a number of RLC malls and office buildings are PEZA-registered.

f) Effect of Existing or Probable Governmental Regulations on the Business

The existing regulatory and environmental/governmental regulations mentioned under "items 5a-e" as well as possible governmental regulations on the various business segments may affect the Company's profitability through possible reduction in revenues and/or increase in cost of operations.

The aggregate cost of compliance with environmental laws covering all business segments including waste management, among others, amounted to ₱65.09 million, ₱45.34 million and ₱44.83 million in calendar years 2021, 2020 and 2019, respectively.

g) Effect of COVID-19 on the Business

RLC is cognizant of COVID-19's potential material impact on its financial performance, the execution of its plans and strategies, and its customers and employees should the situation persist in the longer-term. Nonetheless, its broad business footprint and diversified revenue stream helped cushion the blow of this unprecedented event on the Company. For more information on the impact on the company's operations of COVID-19 and the measures the Company has undertaken to mitigate its effects, please refer to *"Description of Business - Recent Developments Relating to COVID-19"* section of the Prospectus.

GOVERNMENT APPROVALS AND PERMITS

As a property developer, RLC recognizes the effect of the nature and extent of regulations on the results of its operations. Consequently, all government approvals and permits issued by the appropriate government agencies or bodies which are material and necessary to conduct the business and operations of the Company have been obtained and are in full

force and effect. The Company is in the process of renewing some permits necessary to conduct its business and operations.

These permits and approvals include the occupancy permit, environmental compliance certificate (“ECC”), building permit, business permit, LTS, BIR registration, PEZA registration for some of the Company’s malls and offices, and BOI registration for some of the Company’s residential and hotel projects.

In addition, the Company and its subsidiaries intend to continue to comply, in all material respects, with applicable regulations and law which govern its various businesses.

DESCRIPTION OF PROPERTIES

Over the years, the Company has invested in a number of properties located across the Philippines for existing and future development projects. All of these properties are fully owned by the Company and none of which are subject to any mortgage, lien or any form of encumbrance. The Company also enters into joint venture arrangements with land owners in order to optimize its capital resources. Not only does this encourage raw land development for future projects but it also provides exclusive development and marketing rights.

As of June 30, 2022 the following are locations of the Company's properties:

The decrease in deferred tax liabilities - net of 32.4% to ₱3.24 billion is mainly attributable to the adjustment in the deferred income tax provision accumulated in previous years arising from the reduction in corporate income tax from 30% to 25% pursuant to the enactment of the CREATE law.

As of December 31, 2020, total assets of the Company stood at ₱215.20 billion, a growth of 13.5% from ₱189.65 billion the previous year.

Cash and cash equivalents increased by 98.3% to ₱14.00 billion mainly from net cash flows provided by operations and net cash flows from financing activities on the back of the proceeds from the bond issuance and long-term loan avallment, offset by capital expenditures.

Receivables (current and noncurrent-net) increased by 26.1% to ₱22.29 billion mainly due to increase in trade receivables by ₱5.05 billion or 32.5% as a result of additional revenues recognized from the change in the accounting treatment of residential sales.

Subdivision land, condominium and residential units for sale grew by 14.4% to ₱41.25 billion due to higher level of capital expenditures.

Other current assets increased by 23.5% to ₱9.27 billion from ₱7.50 billion last year mainly due to increase in cash under escrow which will mainly be used for the construction of real estate inventories and land acquisitions, increase in net input VAT and prepaid expenses.

Investment properties - net grew by 5.4% to ₱109.42 billion due to land acquisitions, ongoing

construction and development of real estate properties, net of depreciation during the year.

Property and equipment slightly decreased by 4.4% to ₱8.51 billion due to depreciation during the year for the existing hotel properties.

Right-of-use (ROU) assets totaling ₱1.11 billion as of December 31, 2020 declined by 5.1% mainly due to amortization. ROU assets were initially recognized in 2019 following the Company's adoption of PFRS 16 as a lessee. ROU assets represent the right to use the underlying asset during the lease term.

Other noncurrent assets jumped by 35.9% to ₱6.98 billion from ₱5.13 billion last year mainly due to higher level of advances to lot owners.

Accounts payable and accrued expenses totaling ₱14.86 billion slightly grew by 3.5% versus last year's ₱14.36 billion due to higher level of capital expenditures.

Loans payable (current and noncurrent) posted a net increase of 24.1% to ₱53.60 billion mainly due to the bonds issued and long-term bank loans availed during the calendar year as aforementioned in the previous paragraphs; offset by the payment of all short-term debts.

Contract liabilities, deposits (current and noncurrent) and other liabilities increased by 46.9% to ₱39.10 billion primarily due to additional deposits from real estate buyers and lessees for new malls and offices.

The increase in deferred tax liabilities - net of 9.7% to ₱4.79 billion is mainly attributed to the tax effect of the excess of real estate revenue based on percentage-of-completion over real estate revenue based on tax rules.

Equity attributable to shareholders of the Parent Company as of December 31, 2020 stood at ₱101.84 billion. It grew slightly by 2.3% from ₱99.51 billion last year due to earnings in 2020 amounting to ₱5.26 billion, tempered by the payment of cash dividends of ₱2.60 billion.

As of December 31, 2019, total assets of the Company stood at ₱189.65 billion, a growth of 8.9% from ₱174.16 billion last year.

Cash and cash equivalents increased by 177.6% or ₱4.52 billion due to the proceeds from availment of additional short-term loans, and cash generated from operations; offset by payments of income tax, dividends, loans, and capital expenditures for new and ongoing projects.

Receivables (current and noncurrent-net) increased by 17.1% or ₱ 2.58 billion to ₱17.67 billion mainly due to increase in trade receivables and recognition of receivable for insurance recoveries arising from a fire incident in Robinsons Place Tacloban in the second half of the calendar year 2019.

Subdivision land, condominium and residential units for sale grew by 14.6% to ₱36.06 billion due to higher level of capital expenditures for new and ongoing projects under the Residential division.

Other current assets decreased by 36.1% to ₱7.50 billion from ₱11.74 billion last year mainly due to decrease in cash under escrow which will mainly be used for the construction of real estate inventories.

Investment properties slightly increased by 4.5% to ₱103.80 billion. Property and equipment increased by 13.4% to 8.90 billion due to expansion projects from International Branded Hotels and Summit Hotels & Resorts. Investments in joint venture consist of investments in stocks of joint venture companies intended to acquire, develop, sell and lease real estate properties.

Right-of-use (ROU) assets totaling ₱1.17 billion was initially recognized in 2019 following the Company's adoption of PFRS 16 as a lessee. The ROU assets represent the right to use the underlying asset during the lease term.

Other noncurrent assets increased by 7.5% to ₱5.13 billion from ₱4.78 billion last year mainly due to higher level of advances to lot owners, suppliers and contractors.

Deposits and other liabilities (current and noncurrent) totaling ₱26.61 billion increased by 11.3% from ₱23.91 billion last year mainly due to increase in reservation sales during the year and additional deposits from lessees for new malls and offices and the recognition of lease liabilities under PFRS 16.

Loans payable (current and noncurrent) increased by 15.6% to ₱43.21 billion due to availment of additional long-term loans to fund the Company's property constructions and developments.

The increase in deferred tax liabilities - net of 22.0% to ₱4.37 billion is mainly attributed to the tax effect of the prepayment of rent for a 25-year operating lease agreement between the Province of Bulacan and the Parent Company.

Equity attributable to shareholders of the Parent Company as of December 31, 2019 stood at ₱99.51 billion. It grew by 6.4% from ₱93.51 billion last year due to earnings in 2019 amounting to ₱8.69 billion plus the transition adjustments on the initial adoption of PFRS 16, tempered by the payment of cash and property dividends of ₱2.60 billion and ₱0.64 billion, respectively.

FUTURE CHANGES IN ACCOUNTING POLICIES

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Company intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2023

- Amendments to PAS 12, *Deferred Tax related to Assets and Liabilities arising from a Single Transaction*

The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023.

- Amendments to PAS 8, *Definition of Accounting Estimates*

The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Company.

- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure of Accounting Policies*

The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies, and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Company.

Effective beginning on or after January 1, 2024

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

CORPORATE GOVERNANCE

Robinsons Land acknowledges that good corporate governance is essential to build an environment of trust, transparency and accountability necessary for fostering long-term performance, financial stability, business integrity and sustainability of the company for the protection of the interests of shareholders and other stakeholders. Corporate governance is the framework of rules, systems and processes of the corporation that governs the performance by the Board of Directors and Management of their respective duties and responsibilities to the stakeholders.

In late 2003, the Board of Directors approved its Corporate Governance Compliance Evaluation System (“**System**”) in order to monitor and assess the level of compliance of the Company with leading practices on good corporate governance as specified in its Corporate Governance Manual and pertinent SEC Circulars. The System likewise highlights areas for compliance improvement and actions to be taken. One of the System’s output is the Annual Corporate Governance Compliance Evaluation Form (“**ACGCEF**”) submitted to the SEC and PSE on or before January 30 of every year. RLC began making such submission of the ACGEF covering the previous calendar year to the SEC and PSE in 2004.

The Company continuously strives to strengthen and improve its corporate governance practices by adopting best practices that includes building a competent board, aligning strategies with goals, managing risk effectively, adhering to high standards of ethics and integrity, and promoting accountability by defining roles and responsibilities. In view of this, a Revised Corporate Governance Manual (“**Revised Manual**”) was adopted to institutionalize corporate governance principles as a guide for the daily conduct of business.

Consistent with the Revised Manual and pursuant to the recommendations provided in the Code of Corporate Governance for Publicly Listed Companies (“**PLCs**”), the Company strengthened its policies on Board Diversity, Board Nomination and Election, Succession Planning and Remuneration, Material Related Party Transactions and Whistleblowing to reinforce the governance framework of the Company. There has been no deviation from the Company’s Revised Manual since it was adopted.

Furthermore, the Company ensures compliance with the reportorial requirements for PLCs such as the submission of the Integrated Corporate Governance Report (“**I-ACGR**”) to the SEC and the PSE. The I-ACGR is a reportorial requirement under SEC Memorandum Circular No. 15 series of 2017 to all PLCs to disclose the Company’s compliance/non-compliance with the recommendations provided under the Corporate Governance Code for PLCs. With the “comply or explain” approach, voluntary compliance to recommended corporate governance best practices is combined with mandatory disclosure. The Company submitted its I-ACGR for the calendar year 2021 on May 30, 2022.
