RLC will disburse the ₱6.92 billion or the amount RLC is required to reinvest from the net proceeds of the sale of RCR shares to any of the projects mentioned herein within two (2) years from receipt of such proceeds.

investments including but not limited to short-term government securities, bank deposits and money market placements which are expected to earn interest at prevailing market rates, withdrawable on demand and without holding restrictions prior to any fund withdrawals.

IV. REINVESTMENT PLAN

The foregoing discussion represents a best estimate of the use of proceeds based on RLC's current plans and anticipated expenditures. In the event it is necessary to effect changes in RLC's reinvestment plan by reason of force majeure, market conditions and other similar circumstances, RLC will carefully evaluate the situation and may reallocate the proceeds for future investments or other uses, and/or hold such funds in investments, whichever is in the best interest of RLC and its shareholders taken as a whole. RLC's cost estimates may also change as these plans are developed further, and actual costs may be different from budgeted costs. For these reasons, timing and actual use of the net proceeds may vary from the foregoing discussion and RLC's management may find it necessary or advisable to alter its plans.
